PUBLIC UTILITIES COMMISSION

The Honorable Chairman and Members of the
Hawaii Public Utilities Commission
465 South King Street, First Floor
Kekuanaoa Building
Honolulu, Hawaii 96813

Re: Hawaiian Electric Company, Inc., Hawaii Electric Light Company, Inc.
Maui Electric Company, Limited
Docket No. 03-0372
Competitive Bidding for New Generation Capacity

Dear Commissioners:

Hawaiian Electric Company, Inc., Hawaii Electric Light Company, Inc. and Maui Electric Company, Limited (the "Companies") respectfully submit the following proposed additions to the Panel Overview provided to the parties on November 30, 2005.

The Companies propose that Panel A include questions related to Renewable Set Asides, a possible Renewable RFP for as-available renewable energy generation, and parallel planning.

If not encompassed within Panel A or Panel D, an additional panel regarding Competitive Bidding Exceptions should be added after Panel D.

Part III should be expanded to include consideration of the total amount of and impacts of firm and as-available purchased power on a utility's system, following Panel E. This would permit a discussion of the pros and cons of utility-owned versus IPP-owned generation, and the

allocation of risks among utilities, IPPs and utility customers, within one panel (instead of on a piece meal basis in other panels).

Very truly yours,

Thomas W. Williams, Jr.
Peter Y. Kikuta
