CRIME PREVENTION AND JUSTICE ASSISTANCE DIVISION HIGHLIGHTS

Summary Statistics

The division sponsored and conducted 86 workshops and presentations in which more than 3,155 individuals participated. Topics included identity theft, underage drinking, internet sex crimes, evidence-based assessments and program elements, preventing criminal activities in residential areas, and use of Juvenile Justice Information System (JJIS). There were 47 community events that provided outreach to educate individuals on crime prevention as well as crime and safety issues. Approximately 32,817 persons participated in these community events. Another 63 individuals contacted the Research and Statistics Branch for information on crime, and many others utilized the division's website to access information. The JJIS responded to 321 change requests from member agencies and 10 data requests.

The division applied for and received \$4,810,079 in federal funds to carry out programs that address crime and victim issues. State monies for career criminal, victim assistance, sex assault services, and witness protection totaled \$4,167,070. There were a total of 117 subgrants for both federal and state crime funds.

Television stations contributed \$41,258 of airtime for McGruff public service announcements.

Twelve reports were produced with topics ranging from identity theft, victimization, hate crimes, and reports related to the use of offender assessment instruments.

One of the major responsibilities of the division is the coordination of efforts of various agencies and topics. In this endeavor, the division facilitated 13 groups which had 57 meetings, attended by 311 agency representatives. The groups included the McGruff Truck Coalition, VAWA Advisory Committee, Juvenile Justice Information Committee and Subcommittees, Victim Witness Coordinators, community prosecutors, forensic laboratories, and Visitation Center Network. Division personnel also participate in 16 multi-agency groups (composed of 159 agencies), which include domestic violence implementation strategy, sexual assault prevention, sex offender registration, police and prosecutor training, and juvenile minority issues, and attended 115 meetings.

Major Accomplishments

Collaboration with other organizations and pooling of limited funds, are the method of work for the division. Major efforts in these areas include the following.

1. Crime Prevention and Training Efforts

"Your Identity is Your Kuleana" was a collaborative effort with the HiTec Unit of the Department's Criminal Justice Division. This 175-page training manual, complete with speaker PowerPoint presentation, Hawaii laws, national and state resources, and camera-ready handout materials, was developed and used to train 180 individuals. They represented law enforcement, financial institutions, non-profit organizations, and private security organizations. Because the Department staff is limited, the strategy was to train others to get the information out quicker and to more citizens throughout the state. These trained individuals were able to reach 32,817 citizens by the end of the fiscal year.

For the development of the training guide, training community trainers, and conducting community education sessions, the staff and the HiTec Unit, were recognized as the Department of the Attorney General 2008 Team of the Year.

2. Sex Assault

Two Branches collaborated with other Department units and seven other agencies to form the Criminal Justice Interdisciplinary (CJIT) Task Force. CJIT coordinates resources to educate law enforcement, probation, and other safety and security professionals on sex assaults. This year the focus was on sex assault using the Internet: child pornography and enticement/grooming of youth for sexual exploitation. By pooling five funding resources they were able to train 440 personnel on these emerging crime issues. They used limited resources effectively to train a large pool of professionals.

The division is working with the Department of Health in developing a statewide sex assault prevention plan, and with the Sex Abuse Treatment Center in developing and implementing standardized forensic protocols in all counties. Both efforts include multi-disciplinary approaches to sex assault.

3. Automated Victim Notification System

Some crime victims want to know the change of status of their perpetrator (release from prison, parole hearing, etc.) for their own safety. Currently the notifications are done manually: the prison informs the prosecutors' victim witness units, who then notify the victim. Although federal funds were set aside for a prosecutor to implement the system, in 2006 the Honolulu Prosecutor withdrew its leadership. This past year staff rejuvenated and renewed its effort to have an automated victim notification system implemented. Staff met with the Department of Public Safety (PSD) and brokered several multi-agency meetings. PSD agreed to assume the responsibility for the system using the state's federal victim monies to plan and apply for a larger federal grant. Staff initiated the draft of the application to assist PSD meet the short time frame of the federal deadline. Staff also provided technical assistance in reviewing the final narrative and budget, advising on training opportunities, and providing assistance in meetings with the key stakeholders. It should be noted that the PSD was successful and received a federal grant of \$700,000 to implement the system.

4. Intermediate Council on Intermediate Sanctions (ICIS)

The division continues to compile, analyze, and feedback data as it relates to the reduction of recidivism of offenders in the criminal justice system. This is part of the Department's commitment to the interagency agreement to reduce offender recidivism. Division research analysts provide analysis to the ICIS and member agencies. Five reports for the year are accessible on the ICIS web.

For the Correctional Program Checklist (CPC) effort, division staff coordinated 2 mandatory training for state-funded programs that provide services to offenders. Two hundred forty-six representatives of 67 programs were trained on evidence-based programs to reduce recidivism, risk assessment instruments, and improve relationships with criminal justice personnel. Four focus groups of service providers were also convened to provide input on moving toward evidence-based programs. To date 15 CPCs have been completed.

The Hawaii Opportunity Probation with Enforcement (HOPE) effort of the First Circuit Court utilizes quick attention and sanctions to probationers who fail to meet probation requirements. Division staff assists the Judiciary in compiling and analyzing data. The First Circuit expanded the effort and another Circuit is considering its use.

5. Juvenile Justice

The Juvenile Justice Information Committee finalized and adopted a Strategic Plan, which guides the development of the Next Generation JJIS, a web-based system. The design phase was initiated as planned. Because new skills are needed for the NG JJIS, staff was able to negotiate with other state IT agencies to pay for a portion of the training cost. Thus more state IT personnel were able to be trained in the new development methods in Hawaii, rather than to send individuals out of state.

In the midst of learning new skills, working to develop a new information system, staff completed efforts that affect other agencies. Working with the Office of Youth Services, JJIS will be able to provide the data needed by the OYS for its submittal to the federal Office of Juvenile Justice & Delinquency Prevention on minority youth contact with the system and on a timely basis. The data is required in order for the OYS to continue to receive annual funding. The OYS had to collect the data manually and data was not standardized. Data will now be provided by JJIS, which will reduce OYS staff time to collect and compile the data.

There is a federal requirement that runaway and missing children information be inputted into the National Crime Information Center (NCIC). The police departments found it time consuming to enter the information into their own system and then to a federal database. JJIS staff created an interface between the JJIS and the NCIC, so that once the police data is in the JJIS, it is electronically transmitted to the NCIC. Duplicate data entry and error will be reduced, and there is now standardization among all police in entering runaway and missing children data.

6. Victimization Survey

The "Crime & Justice in Hawaii: Household Survey" was first done in 1994, and the last in 1998. It provided useful information to agencies and organizations on criminal victimization, the fear of crime and satisfaction with the response of the justice system. It provided another perspective of crime issues. The survey was again instituted to assess whether the public's perspective have changed. The 39-page survey report includes the public opinions on new issues such as terrorism and identity theft, as well as their knowledge and use of various resources available to crime victims.

COMMUNITY AND CRIME PREVENTION BRANCH

Valerie Mariano, Chief of Community and Crime Prevention
Kristell Corpuz, Community and Crime Prevention Specialist
Angela Kaiwikuamoohoihou, Community and Crime Prevention Specialist

HIGHLIGHTS / MAJOR ACCOMPLISHMENTS

1. “Your Identity is Your Kuleana” Training of Trainer Workshops and Community Presentations

In June 2007, the branch produced “Your Identity is Your Kuleana,” a trainer’s manual in partnership with the HiTec Unit, Criminal Justice Division. The manual is a 175-page user-friendly document. It includes a trainer’s guide, speaker’s PowerPoint presentation, Hawaii laws on identity theft, national and state resources, and camera ready handout materials. One hundred fifty CDs of the trainer’s manuals were produced.

Nineteen training sessions were held on the islands of Oahu, Maui, Kauai, and Big Island. The focus on training others was to have a larger pool of speakers throughout the state, rather than only the staff available to educate the community. Representatives from law enforcement, federal agencies, financial institutions, healthcare organizations, non-profits agencies, senior group leaders, military, retailers, and hotel security directors attended the training of trainer workshops on the use of the manual. In addition, the branch partnered with local law enforcement to provide trainers who could share information on county identity theft cases.

Impact: From July 2007 to April 2008, 180 community trainers have conducted nearly 325 presentations throughout the state to over 3,115 citizens. In addition, a financial institution contacted the branch to replicate the “Your Identity is Your Kuleana” brochure for distribution to its customers. (See Trainings Conducted by Branch Section for a detailed list of identity theft trainings conducted by branch staff.) The staff (and the HiTec Unit) received the 2008 Department’s Team of the Year Award for the development of the “Your Identity is Your Kuleana” manual and the 7 training workshops conducted.

2. Training on Internet Sex Offenders (October 11, 2007 and April 10, 2008)

The Criminal Justice Interdisciplinary (CJIT) Task Force coordinates agency resources to educate law enforcement, probation, and other safety/security professionals on sex offenders. Two trainings were held: An October training was conducted by the FBI on “Identifying Child Predators,” and an April training was conducted on “Paedophilia, Paraphilias, and the Online Offender.”

The branch is a member of the Task Force. This nine-member task force consists of representatives from Internet Crimes Against Children (ICAC) Unit, Missing Child Center Hawaii (MCCH), federal probation, state probation, Children’s Justice Center, Sex Abuse Treatment Center, US Attorney’s Office, FBI, and the division’s Grants and Planning Branch.

Impact: Both trainings received positive responses from participants. The October training received such an overwhelming response, that CJIT members had to secure a larger facility for the April training to accommodate participants. Approximately 200 people attended the October training and 240 people attended the April training. Those who attended the trainings were from: law enforcement, service providers, treatment, state and county government, probation, schools, and health professionals. The training workshops provide information to better investigate, prosecute, and monitor offenders, and provide victim services.

The partnership with CJIT members maximizes federal and state financial resources. The trainers' schedules were maximized to not just provide a one-day training, but scheduled to conduct at least three or more trainings which included presentations to a general audience, training specifically for law enforcement and prosecution, speaking to state legislators, a training for neighbor island, and presentation at a conference coordinated by one of the CJIT member agencies.

3. **Internet Safety Training of Trainers Session (October 23, 2007)**

Through a partnership with Internet Crimes Against Children (ICAC) Unit, staff was trained on and provided a PowerPoint presentation on Internet safety. The ICAC Unit receives numerous requests by schools and community groups for Internet safety. Because Internet safety is also a message supported by McGruff and the "Take a Bite Out of Crime" campaign, the staff was trained and will begin working with ICAC staff on conducting presentations for the community in FY 2009.

Impact: Branch staff now have a repertoire of five crime prevention training programs for the community: Internet safety; identity theft; underage drinking; disaster preparedness and community mobilization (a partnership with Western Community Policing Institute, WCPI); and Substance Abuse Prevention Specialist training (a partnership with Department of Health, Alcohol and Drug Abuse Division and Coalition for a Drug-Free Hawaii). This is an increase from FY 2007, a total from two to five trainings that staff can now provide to the community.

4. **Oahu Hawaii Partnership to Prevent Underage Drinking (HPPUD) Coalition**

At the January 2008 HPPUD meeting, the Branch Chief was elected to chair the Oahu HPPUD Coalition. In working with the grant administrator (Department of Health, Alcohol Drug Abuse Division), grantee (National Guard, Drug Demand Reduction Unit), and statewide media coordinator, the Branch Chief focuses her efforts on enhancing communication between and among Oahu HPPUD members, increase data and information collection by members to account for what HPPUD members are doing and its impact, and work with the statewide media coordinator to increase messages to the community on underage drinking -- its laws, its health consequences, etc.

Impact: There is a coordinated, countywide effort by 23 agencies (state and county government and private sector organizations) to educate youth and adults on the consequences of underage drinking, the citing of liquor establishments and vendors who sell alcohol to minors, and prosecution of those who provide alcohol to minors.

5. **Juvenile Information Sharing Symposium (June 2008)**

In collaboration with the Juvenile Justice Information Committee (JJIC), staff assisted in the planning and convening of a symposium on the feasibility sharing information on youth at the Hawaii Youth Correctional Facility (HYCF). The Office of Youth Services, HYCF, and the Alternative Dispute Resolution Center were also engaged. Juvenile information sharing is part of the JJIC strategic plan.

Impact: Approximately 25 people attended the Juvenile Information Sharing Symposium on June 2, 2008. Representatives from Family Court, Department of Health, Department of Human Services, Hawaii Youth Correctional Facility, Department of Education, and Department of the Attorney General were in attendance to discuss the feasibility of information sharing by agencies who work with youth at HYCF. As a result of the symposium, the committee (Office of Youth Services, HYCF, and the Department) expanded to include the Family Court and Departments of Human Services, Health, and Education. The committee will look at existing statutes and policies that address information sharing between agencies and review gaps in sharing information. A second symposium in FY 2009 will continue discussion on this topic.

McGRUFF CRIME PREVENTION CAMPAIGN

The McGruff Truck Program and McGruff Crime Prevention campaign continues as a core program.

1. **McGruff Truck Program**

Quarterly meetings are held with the McGruff Truck Coalition to discuss statewide plans for the program, company employee training, public relations, school assemblies, and special events. Information from the Coalition meetings is shared with the National Crime Prevention Council, Washington, DC and the National McGruff House and Truck Network, Salt Lake City, Utah.

McGruff Truck Coalition Meetings were held on
September 14, 2007, The Gas Company (Oahu)
April 4, 2008, The Gas Company (Oahu)
June 27, 2008, Hawaii National Guard (Oahu)

McGruff Truck Coalition members include:

Hawaii Electric Light Company, Inc.
Hawaiian Electric Company, Inc.
Hawaiian Telcom
Kauai Island Utility Cooperative
Kauai Department of Water
Maui Electric Company, Ltd.
Oceanic Time Warner Cable
The Gas Company
Verizon Hawaii

Oahu McGruff Truck School Assemblies – 2,575 students participated

September 21, 2007 Coordinator: Oceanic Time Warner Cable
Kipapa Elementary School K-3 450 students
Hanalani Elementary School K-3 365 students

Mililani Mauka Elementary School	K-3	500 students
May 29, 2008 Coordinator: Oceanic Time Warner Cable		
Holomua Elementary School	K-3	680 students
Ewa Beach Elementary School	K-3	200 students
Iroquois Point Elementary School	K-3	380 students

Kauai McGruff Truck School Assemblies

Approximately four school assemblies were conducted by Kauai Island Utility Cooperative and Oceanic Time Warner Cable on Kauai.

Hawaii and Maui McGruff Truck School Assemblies

No information provided.

2. McGruff and Scruff Character Training

Fifteen McGruff, Scruff, and seeing-eye volunteers were trained on November 2, 2007. They included members from the various military bases on Oahu.

3. McGruff School Visits

Oahu – 435 students participated

- Jefferson Elementary School (September 12, 2007) – 60
- Makiki Christian Church Pre-School (September 13, 2007) – 100
- Soloman School (October 3, 2007) – 175
- Wheeler Elementary School (February 11, 2008) – 100

Maui – 142 students participated

- Haiku Elementary School (October 24, 2007) – 75
- Kamehameha Paukukola Pre-School (November 9, 2007) – 20
- Kansha Pre-school (November 16, 2007) – 12
- Wailuku Elementary School (May 19, 2008) – 35

Hawaii and Kauai

No information provided.

STATEWIDE TOTAL: 3,152 students received the McGruff Truck and McGruff Crime Prevention Messages.

4. McGruff Public Appearances – 29,565 people reached at 32 events

Oahu

- Family Carnival Day (July 1, 2007) – 500
- American Celebration (July 4, 2007) – 500
- National Night Out (August 7, 2007) – 200
- HPD 75th Diamond Jubilee Community Fair (August 11, 2007) – 1,000
- Waianae Sunset on the Beach (August 11, 2007) – 2,500
- I Love Liliha (August 25, 2007) – 1,650
- 14th Annual American Heart Association Oahu Heart Walk (August 4, 2007) – 650
- Windward's Day to Discover – Family Fun Day (August 25, 2007) – 1,000
- Labor Day Fun Fair (September 5, 2007) – 300
- Children and Youth Day 2007 (October 7, 2007) – 3,000
- 12th Annual Discover Moiliili Festival (October 6, 2007) – 1,300
- Chevron Family Day 2007 (October 6, 2007) – 850

13th MP Brigade Ball Field Activities (October 20, 2007) – 35
 YMCA Wheeler Halloween Fair (October 20, 2007) – 30
 The Amazing Family Fun Fair (November 18, 2007) – 200
 Directorate Emergency Services Thanksgiving (November 21, 2007) – 20
 Waikiki Holiday Parade (November 23, 2007) – 3,000
 Liliha-Palama Christmas Parade 2007 (November 23, 2007) – 1,000
 Aiea Community Christmas Parade (December 8, 2007) – 200
 Annual Tree Lighting Ceremony (December 12, 2007) – 400
 Day to Discover Family Fun Day (February 2, 2008) – 300
 Ace Hardware Community Safety Day (February 23, 2008) – 150
 8th Annual Backyard Jam (February 24, 2008) – 5,000
 Relay for Life – Kapolei (March 7, 2008) – 500
 Keiki ID Event (March 15, 2008) – 500
 3rd Annual Honu Race (March 15, 2008) – 400
 Prince Kuhio Celebration (March 26, 2008) – 1,000
 Easter Fun Fair (April 3, 2008) – 500
 Na Kane I Ke Ola Na Keiki (Men in the Lives of Children) (April 12, 2008) – 350
 Marshallese Education Day (April 26, 2008) – 1,000
 Pride for Ewa (May 10, 2008) – 500
 13th MP Ball Field Activities (May 13, 2008) – 30

Hawaii

Armed Forces Day (May 17, 2008) – 1000

Maui and Kauai

No information provided.

5. McGruff in the Media

Media advertising for the McGruff campaign totaled nearly \$41,258 of donated airtime for McGruff public service announcements. Airtime donations were received from:

KGMB9 - \$750

Oceanic Time Warner Cable - \$40,508

TRAINING CONDUCTED BY BRANCH STAFF

1. Your Identity is Your Kuleana Training of Trainers

Maui Community College – Kalama Building, July 23, 2007 – 15

Honolulu Police Department – Ke Kula Makai, July 25, 2007 – 50

Kauai Civil Defense – Emergency Operations Center, July 30, 2007 – 15

Limited Army Aviation Support Facility #2 in Hilo, September 10, 2007 – 38

Hale Auhau, October 23, 2007 – 5

Honolulu Police Department – Ke Kula Makai, March 14, 2008 – 39

Hickam Air Force Base, May 21, 2008 – 15

Territorial Savings and Loan, June 19, 2008 – 30

2. Your Identity is Your Kuleana Presentation

St. Mark's Church, August 29, 2007 – 15

Moanalua High School, September 17, 2007 – 10

Windward Community College, October 12, 2007 – 12

Hawaii Credit Union League Conference, Ala Moana Hotel, November 10, 2007 –

100

Key Project, Kahaluu, December 11, 2007 – 15
Lanihuli Apartment, December 28, 2007 – 30
Aiea High School, February 12, 2008 – 14
Queen's Federal Credit Union, March 12, 2008 – 30
Paralegal Association, American Savings Bank, May 15, 2008 – 30
Territorial Savings and Loan, June 19, 2008 – 30

3. **Hawaii Hotel Visitor Industry Security Association**
Sheraton Waikiki Hotel, October 19, 2007 – 100
4. **Disaster Preparedness Training with Western Community Policing Institute**
Fairmont Orchid, Waikoloa, Hawaii, February 7-8, 2008 – 100
5. **Substance Abuse Prevention Specialist Training**
Hilo Community College, March 17, 2008 – 25
6. **Teach-In Presentation**
Maemae Elementary School, April 23, 2008 – 120
7. **Internet Safety Presentation**
Central Union Church, May 25, 2008 – 15

NATIONAL MEMBERSHIPS

1. **Crime Prevention Coalition of America (Val)**

National Coalition of states representatives and crime prevention practitioners learn and share crime prevention information across states. Membership includes 4,500 national, federal, state and community organizations committed to preventing crime.

The National Crime Prevention Council (NCPC) is the secretariat to the coalition. NCPC offers training, technical assistance, and a national focus on crime prevention. The NCPC's principal mission is to enable people to prevent crime and build safer, more caring communities. It publishes books, kits of camera-ready program materials, posters, and informational and policy reports on a variety of crime prevention and community-building subjects.

The Branch Chief is a member of the Media Committee since 2005. The Committee reviews and comments on national crime prevention media campaigns: cyber bullying, girl Internet bullying, pandemic flu, bullying, workplace violence, and home invasion.

The branch has been participating in the National McGruff House and Truck Program since 1988. Hawaii continues to share its McGruff Truck Program efforts with others at the NCPC conferences.

2. **National Association of Attorneys General (NAAG), Youth Access to Alcohol Task Force (YAATF) (Val)**

Since July 2005, Attorney General Mark Bennett is a member of YAATF. The Branch Chief is the staff representative to the YAATF which shares information on underage drinking. NAAG has corresponded with the alcohol industry to address underage drinking.

3. **Western Community Policing Institute, Disaster Preparedness Community Trainer (Val) – 2007 to present**

The Branch Chief is a national trainer for the Western Community Policing Institute, which provides training community mobilization and disaster preparedness.

LOCAL MEMBERSHIPS

1. **Ola Pono Awards**

The annual Award program provides recognition to individuals and groups who have made an exemplary contribution to drug and violence-free efforts in the state.

This is a collaboration with DOE's Safe and Drug-Free Schools Program, Coalition for a Drug-Free Hawaii, and the Aloha United Way.

2. **Sexual Violence Prevention Program (Val) – 2006 to present**

Steering committee member responsible to work with the Department of Health, Maternal and Child Health Branch to design a strategic plan to address sexual violence prevention.

3. **T.A.G. Team (Totally Against Graffiti)**

An outcome of the Community Action Program, staff continues to support the Weed and Seed Neighborhoods in Waipahu, Kalakaua/Kalihi, Ewa Beach, and Pahoia that sponsor periodic anti-graffiti campaigns.

GRANTS AND PLANNING BRANCH

Adrian Kwock, Branch Chief

Criminal Justice Planning Specialists

Julie Ebato
Kathy Mitchell
Shaleigh Tice
Ralph Uyeoka
Fredese Whitsett

HIGHLIGHTS / MAJOR ACCOMPLISHMENTS

1. Applying for Federal Grants

A total of \$4,810,339 in federal grants was awarded and administered by the Branch staff. The staff also administered state grants that totaled \$4,087,070. A total of 113 projects (102 federal, 11 state) were monitored.

As part of its responsibility to access federal resources, staff (1) drafted a Congressional appropriation request of \$1,030,059 (to create an infrastructure to support evidence-based offender programs); and submitted applications for (2) \$500,000 to continue "Safe Havens" (where parents can transfer children to the other parent without danger), and (3) \$101,820 to continue efforts to address human trafficking in Hawaii through a multi-agency effort. The results of the request and applications are pending at the end of the fiscal year.

Impact: The \$4.8 million federal funds for the criminal justice agencies and victim programs augments the declining state and county resources. It supports program in government and the non-profit sectors.

2. Planning and Coordination

The staff is involved in 14 multi-agency planning and coordination efforts related to crime and victim issues. These efforts are system-wide or statewide and exceed the impact of individual projects. There were 4 major efforts this year.

Correctional Program Checklist (CPC)

To improve the effectiveness of treatment to reduce offender recidivism, Interagency Council on Intermediate Sanctions adopted the CPC to measure program integrity and quality. The CPC is used to assess adult substance abuse, domestic violence, and sex offender treatment programs to ensure that evidence-based practices are used and that a sound agency organization exists. Branch staff facilitates the CPC Coordinating Committee. The committee is responsible to coordinate and assign interagency teams to assess treatment programs, schedule assessments, completing the reports, provide technical assistance to programs, and develop policies and procedures for program assessments. CPC members include representatives from the Departments of Public Safety, Health, and Human Services, the Judiciary, and the Hawaii Paroling Authority.

Staff coordinated a mandatory training for state-funded offender treatment programs. Two workshops on Evidence-Based Offender Programs were held on August 22 and 23, 2007 to inform treatment providers on 1) knowledge of evidence-based programs to reduce recidivism, 2) understanding and application of risk assessment instruments, and 3) improving relations between service providers, probation, parole, and corrections to reduce recidivism.

To supplement the service providers training, focus groups for substance abuse and sex offender treatment providers were held on Oahu, Hawaii, and Maui and a separate Oahu focus group for batterer intervention providers in October and November 2007. This was done to identify obstacles that prevent treatment providers to move toward evidence-based programs.

Note: the Congressional appropriation request that staff drafted is to expand the CPC effort with technical assistance, training, and establishment of a unit to conduct CPC assessments.

Impact: The interagency teams completed two CPC evaluations during this period. This resulted in assessing more offender treatment programs. Approximately 43 programs have contracts with state agencies. To date 15 assessments have been completed. This evidence-based interagency effort is done with existing agency resources and the initiative of their personnel.

A total of 246 participants attended Evidence-Based Offender Program workshops and represented 67 programs. This coordinated effort also resulted in securing 5 funding resources to cover the trainer's expenses and to offset a portion of travel expenses for neighbor island participants. Without this coordination, no one agency could have implemented this. It enabled the neighbor island participants to attend training, which usually is not available to them on their island.

The Committee compiled the information from the 4 focus groups into an 18-page report. It provides them more information to support further efforts to assist the offender treatment providers to maintain effective programs that will affect recidivism in criminal behavior.

Statewide Forensic Sciences Laboratory Services

Quarterly statewide meetings for Hawaii forensic science laboratory services are facilitated by staff to update and revise the State's "Consolidated State Plan for Hawaii Forensic Science Laboratories." The meetings also serve as a forum to exchange information, discuss efforts to share limited resources, and to improve communication, coordination, and collaboration among agencies. The four police departments, the Honolulu Medical Examiner's Office, the Narcotics Enforcement Division (PSD) and the Criminal Justice and Investigations Divisions (AG) participate.

Impact: Members are learning about each agency's responsibilities and resources. Previously they had no venue to do this. The group will be conducting site visits to observe and learn more about the practices and capabilities of the separate laboratories.

Hawaii State Family Visitation Centers Network

The Family Visitation Centers are located on Oahu, Maui, Kauai, and in Hilo. The Visitation Centers ensure the safety of children during visits and of the adults where

there is a history of domestic violence, kidnapping, sexual abuse, or an existing TRO or Protective Order.

Impact: The Visitation Centers provided 353 families and 548 children with safe visits and exchanges.

Automated Victim Notification System

Branch staff took the initiative to continue discussions among victim advocates on the need for a victim notification system in Hawaii. Although many stated the need for it, there was not firm commitment by government to pursue this. Staff met with the PSD Director and Deputy Director and they agreed to take the lead for the effort. A PSD coordinator with the assistance of Branch staff held meetings with county victim coordinators and non-profit agencies to ensure statewide support. Branch staff also drafted an application for a discretionary federal grant that assisted PSD to submit it on a very short time frame. Staff also provided technical assistance in reviewing the final narrative and budget, advising on training opportunities, and providing assistance in meeting key stakeholders. Staff continues to provide technical assistance to the PSD Project Coordinator.

Impact: Because of the positive relationships that Branch staff has with victim coordinators and advocates, the appropriate members were at the table and supported PSD's effort, enabling PSD to complete and submit a federal application on a timely basis. With the federal funds and implementation of an automated victim notification system, victims of crime may feel safer and empowered. It will also assist victims in taking actions to not be re-victimized.

3. Training and Technical Assistance

The branch coordinated training for offender treatment programs (see above, "CPC" for description and impact).

Staff revised its grant writing and grant administration training curriculum and conducted 4 workshops on all islands for criminal justice agencies.

Impact: Branch staff cross-trained with newer and experienced staff, and presented the curriculum in 2-person teams. This provides in-house expertise to be shared and efforts standardized, so there are fewer discrepancies on the expectations by project personnel. Training as a team also lessens the reliance for contracting of consultants to train criminal justice personnel.

Sixty-two criminal justice personnel were trained in July 2007. Holding workshops in the counties lessened the cost for the neighbor island agencies to be trained in grant writing and administering projects. The training may result in better grant writing and administration of projects, as well as promoting support among agency personnel. A copy of the PowerPoint presentation and the Project Effectiveness Model, grant-writing guide are reference material for the agency personnel.

4. Other Planning and Coordination Efforts

Drug Interdiction Multi-jurisdictional Task Forces. Staff participates in quarterly meetings with the federally funded Hawaii Narcotics Task Force and the Statewide

Marijuana Eradication Task Force. The task force meetings provide participants with the opportunity to share information, intelligence, and resources. A portion of these meetings was used for training. Mission scheduling and operational tactical planning also take place during these meetings.

Community Prosecutors Meeting. The staff coordinated and facilitated quarterly meetings with community prosecutors from Hawaii, Honolulu, the deputy attorney general assigned to the drug nuisance abatement unit, and the drug control liaison from the Lt. Governor's Office. Because of previous successful workshops on efforts to stop illegal drug activities and other criminal activities that threaten the health, safety, and welfare of residential neighborhoods, the Hawaii Association of Realtors® suggested a replication of the training. Four workshops were held in February 2008 on Hawaii, Kauai, Maui, and Oahu. Attendees included public and private landlords, property managers, and law enforcement and public officials in attendance.

Impact: Approximately 500 persons attended the workshops. Educating landlords and property managers on how to ensure illegal activities do not occur on their property, will lessen need for law enforcement to intervene and possibly take action against property managers and owners who permit the long-term presence of illegal drug activity or other criminal activity on their properties.

An additional half-day training for 40 public housing managers was held on February 27, 2008 at the Honolulu Police Academy. This special workshop dealt with specific issues that public housing managers can better address, again before the criminal justice system need to be used. This will lead to cost savings to the system.

Sex Offender Registration Tracking Team (SORT). Branch staff provides grant support for the SORT, participates in SORT meetings, and provides technical support on responding to additional grant solicitations.

Police Training Directors Coalition. The Branch Chief participates in quarterly meetings with the training directors from the four county police departments, prosecutor's representative, the Department of Public Safety, and the FBI. The meetings provide a vehicle for the departments to discuss training issues, improve training, and share training opportunities and resources. In addition, recruitment and liability issues (as they pertain to training) are discussed. Trainings and resources provided by grant funded projects are also brought to the directors' attention.

Victim Witness Coordinators (VWC). The bi-monthly VWC meeting is facilitated by Branch staff. The meetings enabled federal, state, and county criminal justice personnel to network and discuss victim services and issues. It also includes training session about victim activities in the different jurisdictions. Participating agencies include the four county victim programs, the Crime Victim Compensation Commission (CVCC), the U.S. Attorney's Office, the Federal Bureau of Investigation, PSD victim project, and Missing Child Center Hawaii.

Impact: The networking and sharing of information leads to improved coordination and collaboration among victim assistance agencies and the CVCC. This resulted in restitution training in each county by CVCC for victim witness staff and prosecutors. The meetings were also critical for the support of the PSD automated victim notification system.

Sex Assault. (a) The Branch supported SATC's collaborative effort to produce law enforcement and prosecutor guideline manuals for the investigation and prosecution of sex assault.

(b) Staff is working with SATC in the multi-disciplinary statewide Hawaii Sexual Assault Response and Training Program (HSART) to improve and standardize sex assault forensic protocols throughout the state. SATC is the implementing agency for HSART that was convened under the Department's auspices.

Impact: Standardized protocols among police, prosecutors, service providers, and forensic examiners, will ensure that a sexual assault victim will receive a complete package of quality services regardless of the county in which the victimization occurred. Issues such as ensuring a sexual assault victim who does not initially want to file a police report can still receive a forensic examination at no personal cost are addressed.

(c) The Branch Chief is member of the Department of Health's Steering Committee which will develop a strategic plan for rape prevention. This is funded by the Center for Disease Control's Rape Prevention and Education grant. The prevention strategic plan will complement the federal and state funds that the Branch administers for services to sex assault victims.

(d) The Branch Chief participates in the Criminal Justice Interdisciplinary Training Committee (CJIT), led by the Criminal Justice Division's Hawaii Internet Crimes Against Children Unit to plan training addressing internet crimes against children and child predators.

Domestic Violence Strategic Plan Implementation. The Branch Chief is a member of the oversight committee for the implementation of the Department of Health's Domestic Violence Strategic Plan. The implementation plan complements the resources that the Branch administers for domestic violence victims and offenders.

Impact: A section of the strategic plan involves the improvement of batterers' program. The Branch Chief brokered a meeting between the Hawaii State Coalition Against Domestic Violence and the ICIS to foster a partnership.

State Victim Assistance Academy (SVAA). The Office of Victims of Crimes is advocating states to create SVAA's to train victim service providers and allied professionals in improving their knowledge and skills of crime victims. They offer funding and technical assistance to states. Approximately 34 states have academies. Staff initiated meetings to determine the need feasibility of an SVAA in Hawaii. The effort will entail collaboration between government, service providers, and a college or university. The effort will continue into the next FY.

Grant Application Technical Assistance. Staff provided technical assistance to agencies considering applications for the VAWA Grant to Encourage Arrest Policies and Rural solicitations.

CRIME GRANTS AND PROJECTS

FEDERAL AND STATE CRIME FUNDS FOR FISCAL YEAR 2008	
Federal Funds	\$4,810,339
JAG	\$1,456,616
VOCA	\$1,954,000
VAWA STOP Formula	\$924,658
RSAT	\$60,901
VAWA Rural	using prior yr \$
VAWA Safe Havens	using prior yr \$
Coverdell	\$96,594
PSN	\$124,310
Anti-Gang	\$193,260
State Funds	\$4,087,070
Career Criminal	\$1,433,454
Victim Witness	\$653,616
Sex Assault	\$2,000,000
Total	\$8,579,839

City & County of Honolulu Prosecutor
Hawaii County Prosecutor (2)
Maui County Prosecutor
Kauai County Prosecutor

3. Sexual Assault Comprehensive Services (1)

Sex Abuse Treatment Center

GRANT PROJECTS ACCOMPLISHMENTS

The following are highlights of what federally funded projects have accomplished:

Multi-jurisdictional task force programs to integrate federal, state, and local drug law enforcement agencies and prosecutors for the purpose of enhancing interagency coordination and intelligence and facilitating multi-jurisdictional investigations.

- Several large multi-agency sting operations were successfully conducted which resulted in the Hawaii Narcotics Task Force seizing 9,305.77 grams of crystal methamphetamine, 10,751.62 grams of cocaine, 55.40 grams of heroin, and 100,807.92 grams of marijuana. Nine hundred and three arrests were made, and \$393,879 in cash, 55 weapons, and 29 vehicles were seized.
- The Statewide Marijuana Eradication Task Force seized 1,257 marijuana plots and 48 indoor marijuana grows in which 71,699 plants were destroyed. The estimated value of the eradicated marijuana was \$71,699,000. One thousand, one hundred forty-nine arrests were made, \$216,962 seized, and 97 weapons were confiscated.
- The Department of Land and Natural Resources' Maritime Intelligence and Enforcement project continues to make headway in interceding drug trafficking in the maritime sector and pursuing drug trafficking investigations in state recreational harbors and waters. The project works with the county police departments and other law enforcement agencies and initiated 86 drug-related investigations, participated in 24 surveillances, and reported 34 arrests.

Improving the operational effectiveness of law enforcement through the use of crime analysis techniques, street sales enforcement, schoolyard violator programs, gang-related and low-income housing drug control programs.

- The Maui Police Department project to target street drug sales that combined training uniform officers on gathering drug evidence and conducting presumptive field tests for illegal drugs has been working. The officer training and field-testing bolstered the number of drug-related arrests and drugs seized. One hundred, twenty-eight new drug cases were initiated, 50 suspects were arrested, and 63.86 grams of crystal methamphetamine, and 1,203.88 grams of marijuana were seized.

Programs to improve the investigation and prosecution of white-collar crime, organized crime, public corruption, and fraud against the government, with priority attention to cases involving official corruption.

- The Financial Exploitation project continued to operate to improve the Department of Human Services, Adult Protective Services' response to the misuse of a dependent adult's finances and property. Pursuing cases where family members are misusing or stealing funds from their elderly parents have proven difficult. To help shed light on the problem, 12 community outreach and information sessions were held for approximately 180 attendees.

Programs to improve the corrections system and provide additional public correctional resources, including treatment in prisons and jails, intensive supervision programs, and long-range corrections and sentencing strategies.

- An Oahu mental health court program was established to provide assessment, treatment, and discharge planning services for offenders with severe and persistent mental illnesses. The program depends on the coordinated work between the court, probation, prison, treatment service providers, housing and welfare assistance, and case management services. Twenty-eight clients are participating in the mental health court program. The first graduating class was held in January 2008.
- The Sex Offender Management Team (SOMT) is finalizing a statewide comprehensive sex offender assessment, treatment, and management plan after two years of work. SOMT is an interagency collaboration with members from the Judiciary, Hawaii Paroling Authority, U.S. Probation, and led by the Department of Public Safety. In 2007, the Department of Public Safety was awarded a \$135,240 Comprehensive Sex Offender Management Discretionary grant that is providing SOMT with a comprehensive assessment of the state's sex offender management practices. The award will also cover several of SOMT's training needs.

Innovative programs that demonstrate new and different approaches to enforcement, prosecution, and adjudication of drug offenses and other serious crimes.

- The Cold Case Squad began operating in October 2004 and worked to address unsolved homicide cases by increasing investigation and prosecution efforts through the specialized squad. The project initially supported three investigators, however, due to funding reductions, the project operated with two investigators in 2005-2006 and later in

2006-2007. Nevertheless, the squad continued to make steady progress. The squad saw its first case (a 15-year old homicide) go to trial. The case resulted in a conviction of Murder in the Second Degree.

- The Hawaii High Technology Crime Unit (HHTCU) strategy to stop high tech (computer and computer-related) crime is a comprehensive approach. The unit investigated approximately 65 theft or Internet fraud cases (and successfully recovered over \$300,000 owed to victims), 5 unauthorized use of a computer cases, 1 email harassment, 1 computer fraud, 88 electronic enticement of a child cases, and 57 child pornography cases. Throughout the year, HHTCU provided comprehensive trainings to multi-disciplinary agencies and provided a platform for peers to network and to continue building working, sustainable relationships.

Criminal justice information systems (including automated fingerprint identification systems) to assist law enforcement, prosecution, courts, and corrections organizations.

- The Hawaii Criminal Justice Data Center (HCJDC) continued to work to develop and implement enhancements to CJIS-Hawaii (the state's criminal history repository system) that has electronic interfaces and integration with other automated systems (police booking, prosecutor case management, court information, and corrections management) and the Green Box (an integrated Livescan electronic arrest/booking system). As part of the enhanced system, work has been completed to convert the firearms registration forms into an electronic format at the Hawaii County, Maui, and Kauai police departments. Work is continuing on these tasks at the Honolulu Police Department. Project staff is also performing data quality tasks to clean up any data discrepancies prior to loading the electronic files into the firearms database tables.

Law Enforcement/Prosecution Programs.

- The Honolulu Police Department used grant funds to track and seize stolen firearms and firearms used in the commission of crimes. The project staff generated 13 investigations and seized 24 firearms. Of the 24 firearms, four were reported stolen, one was registered to a deceased person, seventeen were not registered, and two were registered but not in the possession of the registered owners.
- In 2006, the Department of the Attorney General began a comprehensive response to individuals that have not complied with the required Hawaii Revised Statutes 846E, Registration of Sex Offenders and Other Covered Offenders and Public Access to Registration Information. Fifty-nine unverified or unregistered cases have been investigated. During the investigations, it was found that two offenders had been deported, nine offenders came into compliance, and nine new cases were referred for prosecution.
- The State funded Career Criminal Prosecution Program opened 1009 cases. Regarding dispositions, only 32 defendants were acquitted and 1571 defendants were convicted. (Statistics for FY 08 were not yet due at the time of this writing; prior year statistics are used.)

Programs to improve services to crime victims.

- The county prosecutors' victim witness assistance divisions and non-profit agencies provided services to 10,956 victims of child abuse, domestic violence, sexual assault, elder abuse, robbery and assault, survivors of homicide victims and DUI crashes. Services included shelters, information and referral, therapy, group treatment and support and crisis counseling.
- The State funded Victim Witness Assistance program provided services such as counseling, information, court accompaniment, referrals and advocacy to 10,580 victims. In addition 2,408 witnesses were assisted. (Statistics for FY 08 were not yet due at the time of this writing; prior year statistics are used.)
- For the first half of the fiscal year, the State funded Master Contract reported:
 - Hotline Services: 1,096 initial intakes: 657 secondary phone contacts
 - Crisis Counseling/Legal Advocacy: 338 initial; 362 follow up crisis outreach
 - Clinical Services: 207 new; 168 carryover
 - Community Awareness: 6,667 attending community events, 577 presentations with an audience of 7,431
 - (Statistics for the second half of FY 08 were not yet due at the time of this writing.)
- Through the Hawaii Police Department federal funds supported the nurse examiner programs for sex assault victims.
- Grant funds enable interpretive and translation services to be available to all crime victim service agencies on Oahu to help non-English proficient crime victims. Grant funds also supported outreach to the Filipino and Chinese (immigrants) communities.
- Grant funds enabled collaborative projects between law enforcement and victim services and crossover victim services (sexual assault intervention with domestic violence shelter victims) to operate. One collaboration was updating the statewide medical-legal protocol for forensic examinations of sexual assault victims. Other projects that would not have been implemented without grant funds were multi-disciplinary trainings in domestic violence and sexual assault, increased access to services for crime victims, domestic violence vertical prosecution units, and crisis hotlines in some rural areas. A grant funded training on Intimate Partner Sex Assault on the intersection between domestic violence and sex assault was the first such training in the nation.

Grant Outcomes - Grant programs resulted in the following:

- Improved skills of law enforcement, prosecutors, treatment prosecutors and victim service providers through training.
- Increased safety for the community through the investigation and prosecution of offenders.
- Increased safety for the community through improved management of offenders and assessment of programs.
- System improvements through multi-disciplinary trainings and collaborations.
- Increased access to services for victims of crime through planning, training, and cultural outreach.

TRAINING AND TECHNICAL ASSISTANCE

Branch Sponsored, Organized, or Assisted Trainings

July 6 Restorative Circles / Reentry presentation (*Branch Organized*)
Video Conference to all counties - 26 attended

July Grant Writing and Grant Administration Training (*Branch Delivered*)
17 Honolulu 13 attended
18 Maui 12 attended
19 Kauai 7 attended
20 Hilo 30 attended

Aug 21 CPC Training for Evaluators (*Branch Organized*)
Honolulu 22 attended

Aug 22 & 23 Evidence Based Offender Programs Training (*Branch Organized*)
Honolulu - 246 attended

Jan 24 CPC Presentation to OYS (*Branch Organized*)
Honolulu - 20 attended

Feb HAR Training (*Branch Organized*)
18 Waikoloa 88 attended
19 Kauai 58 attended
25 Maui 48 attended
26 Oahu 335 attended
27 Oahu (special session for housing managers) - 40 attended

Apr 10 Paedophilia, Paraphilias and the On-Line Offender (*Branch assisted*)
Honolulu 230 attended

Impact of Training and Technical Assistance. The training and technical assistance improved the skills of participants in writing grant proposals and administering grants, and improved their knowledge and skills in working with their offender or victim populations.

JUVENILE JUSTICE INFORMATION SYSTEM

Eileen Madigan, Program Coordinator (retired February 2008)

Stuart Okumura, Program Coordinator (effective March 2008)

Gregory Malick, Lead Analyst

Armeline Martin & Rodney Hirokane, Analysts

David Lao, Programmer Analyst (resigned January 2008)

Kenneth Kakazu, Information Accuracy Analyst

David Mayeda, Juvenile Justice Research Analyst

Valerie Kaniaupio, Clerk-Typist

HIGHLIGHTS / MAJOR ACCOMPLISHMENTS

The Juvenile Justice Information System (JJIS) staff continues to transition from support and maintenance of the statewide legacy system to the development of the Next Generation (NG) JJIS. It is a challenging metamorphosis in terms of technology, staff training and functionality of the system. Significant progress has been made in the period.

1. The JJIS staff continues to work on the Detailed (Technical) Design Phase which necessitates training in new technologies that will be used for the development of the NG JJIS. The JJIS staff participated in training for an HTML Review, Cascading Style Sheets, JavaScript, Java and J2EE. Training in J2EE continues through July 2008. Additional technical training to support the applications used in the development, test (quality assurance) and production environments will be required. The technical training includes Linux, Websphere Application Server and DB2 for Workgroup.

Impact: Using the limited budget for training, JJIS staff initiated and coordinated the training in Java and J2EE through the Pacific Center for Advanced Technology Training by collaborating with the DAGS Information Communications Services Division and the Hawaii Criminal Justice Data Center to share the cost of the training. Resources were also maximized by staff by utilizing the less costly web-based training for topics like Unified Modeling Language and HTML.

2. The data model for the NG JJIS was completed, although changes are expected during the Detailed Design Phase as the team identifies efficiencies for processing or the addition of new data elements. The data dictionary design was completed. The population of the definitions and usage for each code is dependent upon each member-agency providing resources to perform the data entry. Design of the JJIS internal XML which will be used for internal JJIS processing is nearing completion. The internal XML is the data structure that all external data structures are translated to regardless of format, e.g. Universal Transaction, proprietary XML or Global XML. The current business rules, as well as modifications to business rules to better support the business logic, are being documented. The business rules define how data is validated and processed to the JJIS database. Screen and report design meetings with the user agencies' representatives were initiated.

Impact: These design meetings are using a 'webinar' approach where the screen designs are presented over the Internet, viewable at the participants' desks, with audio provided via conference call. This minimizes travel costs and travel time for the neighbor island participants.

3. The Strategic Plan for the NG JJIS was completed and accepted by the Juvenile Justice Information Committee (JJIC). The plan calls for the establishment of a Legislative, Policy, and Research subcommittees to address the needs of the NG JJIS. The committees were formed and met during the period. The Strategic Plan lays out the strategic objectives for the member-agencies: 1) facilitate information sharing among the JJIC member-agencies, 2) provide a comprehensive, agile and responsive information system to assist JJIC member-agencies in using information resources to make better decisions regarding control, prevention, intervention, treatment, and protection strategies and indentifying 'high risk juveniles,' 3) support programs that build safe and secure communities, strengthen families, promote prevention strategies, intervene immediately and constructively, establish a system of graduated sanctions, provide offender accountability, provide reparation to victims, reintegrate offenders into the community and support core social institutions, 4) monitor the performance of the Juvenile Justice System at state and local levels, 5) assess the impact of changes in legislation, practice, procedure and programs, and 6) assess trends in juvenile delinquency, status offenses, etc. The progress made against the tasks related to each of these strategic objectives will be monitored.

Impact: The member-agencies defined and agreed to the goal, vision and strategic objectives through 2011. Thus the Strategic Plan will have a significant impact on their work and commitment toward interagency collaboration and cooperation related to juvenile justice and the NG JJIS.

4. The processing of missing and runaway juveniles to the National Crime Information Center (NCIC) was implemented in June 2008. Missing and runaway cases that are entered via JJIS by the police departments are sent to the NCIC through an automated interface. This interface was tested and approved by agency representatives who enter case information into the JJIS and validated that the case information appeared in the NCIC system.

Impact: The NCIC interface addresses the concern of under-reporting of missing and runaway cases to the NCIC from Hawaii agencies. All four county police departments will now be sending missing and runaway case data to NCIC via the JJIS interface. This will eliminate the need to enter the information twice or not be entered into NCIC at all.

5. The staff worked with the Judiciary's Detention Home (DH) to have DH admission and discharge data sent to JJIS. JJIS and DH worked collaboratively to test the interface with DH confirming that the data that they enter into JUSTIS (the Judiciary's database) is accurately reflected in the JJIS.

Impact: The DH data, previously not entered into the JJIS, will now be processed via the interface starting in August 2008. This will allow for single entry by DH staff and eliminate errors and late data entry that can occur when staff needs to input data into another system.

6. The Juvenile Green Box (JGB) pilot project with the Kauai Police Department (KPD) for an improved booking process was initiated and will be completed next fiscal year. JJIS is working with KPD and its vendors to test the interface between the JGB and KPD's Records Management System (RMS), InPursuit.

Impact: Once completed, the interface will ensure that the data sent by JGB to the RMS and from the RMS to the JJIS is accurate and complete. The modifications associated to the implementation of the JGB represent the final planned enhancement for the current JJIS. Following its implementation, a moratorium on development in the current system will be instituted so that more staff time can be devoted to the design and development of the NG JJIS.

7. From the inception of the JJIS program, there have been two primary purposes for the JJIS database: to allow juvenile justice agencies to track juveniles through the justice system and to provide data for research. The research aspects of the JJIS program took a back seat to the need for a tracking tool. After many years of understanding and meeting the needs of juvenile justice agencies for a tracking tool, the JJIS program staff spent significant time on research. There were many data requests, both from participating agencies and from external agencies. A state-funded juvenile justice research analyst position was approved and a JJIS Research Analyst hired in October 2007. The Research Analyst is working on a "data book" covering arrests, adjudications and corrections data over a ten year period from 1998 through 2007. The Research Analyst is also working on county specific reports that will take the data in JJIS for the same period and customize it for each county augmenting the JJIS data with data from external sources like census data.

Impact: The permanent funding of the JJIS Research Analyst position will have a tremendous impact for the member-agencies as JJIS has a significant amount of data that can be used for research and analysis. The research aspect has been under utilized in years past, but member-agencies were introduced to the potential research and trend analysis capabilities of the JJIS. Member-agencies will be able to see the value of their data contributions to the JJIS when the first two major projects of the Research Analyst are delivered in 2009: the Data Book for years spanning 1998 through 2007 and the County specific reports for the same period. The full potential of the JJIS database for juvenile justice research can now be explored without the artificial constraints of short-term funding.

OTHER SIGNIFICANT ACTIVITIES

1. The JJIS, in collaboration with the OYS and the division's Community and Crime Prevention Branch, participated in the planning and coordination of the Juvenile Information Sharing Symposium in June 2008. This symposium was an effort to improve the sharing of information at HYCF between the agencies that provide services to the wards. Participants included representatives from the Office of the Prosecuting Attorney (Kauai), the Judiciary and the Departments of the Attorney General, Education, Health, and Human Services. Work related to this effort includes identifying any barriers to information sharing, especially confidentiality statutes and rules. The participants identified documents that they currently share in the first 48 hours the ward is at the facility, during and post discharge, as well as any additional information they may need to meet the needs of the juvenile. Planning for a second symposium is underway.
2. JJIS staff continues to participate in collaborative efforts related to the JJIS program.
 - The Targeted Community Action Program (TCAP) is a project that was undertaken on the Big Island. The importance of TCAP from a JJIS perspective is the level of information sharing among law enforcement, courts, schools, health, and human services.

- The State GIS User Group discusses issues related to GIS at the State level. JJIS participates in this group and reports back to the AG IT group and itAC group.
 - Disproportionate Minority Contact (DMC) is a key issue for the Office of Youth Services (OYS) in order to remain in compliance with the federal mandate and retain federal funds for youth programs. JJIS staff will continue to meet the data needs and analysis of DMC data.
 - Hawaii Integrated Justice Information Sharing (HIJIS) program's initiative is to facilitate collaborative decision-making, coordinated planning and cooperative implementation among justice agencies. JJIS participates on both the Operational and Technical committees.
3. Support for the current JJIS is still a top priority and requires a majority of the resources of the JJIS Branch. Release 20 of the JJIS software was installed in October 2007. The release included the following modifications and enhancements:
- An interface to NCIC sends Missing and Runaway juvenile information from the JJIS Master screen to the NCIC.
 - The length of the NCIC ID was corrected to be a maximum of 10 positions instead of 12.
 - The Kauai Prosecutor can enter YLSI program assignments.
 - The Combine screen now requires the closing of a missing/wanted report when both the source and the target juvenile have open missing/wanted cases.
 - The JJIS Address, Arrest, and Charge tables were modified to include GIS coordinate fields.
4. Responding to data requests was a particular focus during FY07. Some of the more notable requests include:
- An improved daily report of runaways for HPD (sent daily via encrypted email)
 - A monthly Disposition Report that lists police reports where the disposition is 'Referred to Prosecutor' but there is no entry by the Prosecutor
 - A report of all HYCF commitments and discharges for calendar year 2007 for OYS
 - Determine the average length of stay at HYCF from 1996 through 2007 for OYS
 - A report on how many missing children were reported over the last three year period, and the recovery rate for those missing for MPD
 - A "Model for Change" Disproportionate Minority Contact (DMC) Site questionnaire for OYS
 - Data for DMC reports and the OJJDP DMC FY06 Report for OYS
 - Data to measure the effectiveness of Girls' Court for calendar years 2004, 2005 and 2006 for FC
 - Data for Targeted Community Action Planning in the third circuit
 - Data for the Asian Pacific Islander Youth Violence Prevention Center to look at juvenile offenses in Kailua
5. Another measure of impact for the JJIS is its responsiveness to its users. Branch staff utilizes a "Change Request" system to track all requests for software and data changes. The same system is used to track requests for reports and data. Enhancement suggestions for the JJIS are logged in the change request system. Any errors that are found in the software are also logged so that fixes can be accomplished in a controlled environment. Over the course of the year, the staff received 311 change requests, up from 285 requests in FY07. There were 332 change requests resolved this year, up from 232 in FY07.

JJIS FACILITATED MEETINGS AND TRAINING SESSIONS

Juvenile Justice Information Committee

November 28, 2007 – 24 participants

December 11, 2007 – 20 participants

Strategic Planning Subcommittee

July 19, 2007 – 7 participants

August 28, 2007 – 7 participants

October 24, 2007 – 7 participants

Research Subcommittee

November 14, 2007 – 13 participants

January 10, 2008 – 8 participants

March 20, 2008 – 8 participants

June 18, 2008 – 8 participants

Legislative Subcommittee

February 27, 2008 – 8 participants

Policy Subcommittee

January 14, 2008 – 11 participants

April 17, 2008 – 9 participants

NCIC/JJIS Interface Committee

February 11, 2008 – 10 participants

“Next Generation” Screen and Report Design Meetings:

May 13, 2008 in Honolulu – 25 participants

May 23, 2008 on Hilo – 10 participants

May 28, 2008 on Maui – 20 participants

May 30, 2008 on Kauai – 7 participants

June 26, 2008 via VCC – 14 participants

Juvenile Green Box Meetings:

July 2007 – 5 participants

August 2007 – 5 participants

September 2007 – 5 participants

October 2007 – 5 participants

November 2007 – 5 participants

December 2007 – 5 participants

Juvenile Information Sharing Symposium:

June 2, 2008 – 25 participants

USER TRAINING SESSIONS

VCC JJIS Training (all agencies): July 16, 2007 – 20 users trained

VCC JJIS Training (all agencies): August 9, 2007 – 20 users trained

Hawaii Police Department - Dispatch: September 27, 2007 – 13 users trained

VCC JJIS Training (all agencies): November 8, 2007 – 20 users trained

VCC JJIS Training (all agencies): March 17, 2008 – 20 users trained
Maui Police Department - Dispatch: April 25, 2008 – 2 users trained
Hawaii Police Department - Dispatch: May 21, 2008 – 14 users trained

PROGRESS AGAINST OBJECTIVES AS STATED IN 5-YEAR PLAN

This is the fifth year in the current five-year plan.

1. Changes and enhancements in the Current JJIS:

- Interface with HcPD – completed.
- Detention Home Processing – the design, coding and testing has been completed. The implementation is waiting for the completion of regression testing of affected areas in the UT processor. Implementation is scheduled for August 2008.
- Interface with KPD – completed.
- Inquiry software tool to query the JJIS database – not completed; deferred to Next Generation.
- Misconduct reporting for HYCF – not completed; this was determined to be out of scope for Next Generation (Requirement #178).
- Interface with MPD's new RMS – not completed; this is deferred to NG JJIS or when MPD restarts the development of the new RMS.
- Inquiry software tool to query the Historical JJIS database (purged records) – not completed; deferred to Next Generation.

2. Policy Issues to be addressed:

- Positive ID – completed; legislative change to be drafted.
- Policies for participating agencies – Internal Management Agreement completed and signed by all member-agencies. A Policy Subcommittee was reestablished and is working on finalizing Data Access and Data Usage policies.
- Guidelines for Data Requests – partially completed; the Policy Subcommittee is working on policy related to Data Requests and Dissemination of Data for Reporting.
- Re-examine the participation of the Public Defender – completed.
- Use of YLSI explored and defined – completed.
- Purpose statement for JJIS to be reviewed and revised – the NG JJIS Strategic Plan is completed.
- Determine if JJIS should support SHO concept instead of SJO indicator – completed; JJIS will support a High Risk Juvenile indicator where the Police determine the criteria and make the indicator visible on a need-to-know basis to the police and prosecutors.

3. JJIS Data Quality:

- Report of missing dispositions – completed.
- Report of unmatched data elements – partially completed; anticipating completion in FY09.
- Data quality audit to be initiated – deferred to Next Generation, as part of the Data Conversion task.
- Data validation in the JJIS to be improved – deferred to Next Generation.
- Users provided with more extensive reports to find duplicates – completed.
- Users provided with report to identify suspected errors based on data discrepancies – completed.

- Users provided with report to identify unmatched police report numbers between agencies – completed using missing police report numbers.
 - Automatic update of date of birth for juvenile offenders based on Family Court data when police or prosecutor report a different birth date – not completed, just report date of birth discrepancies.
 - Use the Family Court alias information as a check for juvenile matching – completed.
 - Synchronize the validation between the online data entry and interface transaction processor – not completed; deferred to Next Generation.
 - Recommendations from the data quality audit will be evaluated and a plan for implementation of those recommendations will be prepared – not completed; deferred to Next Generation.
4. JJIS timeliness:
- Include prosecutors in timeliness – completed.
 - Increase frequency of timeliness reports – completed.
 - Revise the definition of timeliness – not completed; deferred to Next Generation.
 - Capture all data at its initial point of entry, eliminating redundant and after-the-fact entry – not completed; deferred to Next Generation. This is part of the data broker functionality. Agency systems must be modified to accept and process the data that is forwarded from JJIS or request the data from JJIS.
5. JJIS as a research tool:
- Subcommittee to consider research projects – completed.
 - Recommendations made to the JJIC – completed.
 - Staffing issue related to the JJIS research role will be defined and addressed – completed, a permanent, full-time Research Analyst position was established. A JJIS Research Analyst was hired in October 2007.
 - Mechanism for prioritizing research issues will be adopted – completed, a Research Subcommittee was established to prioritize research issues that come out of the JJIC.
 - Completed research studies will be presented and published – partially completed, the JJIS Research Analyst is working on producing a Data Book and individual County reports that will be published and presented in FY09.
6. Use of CPJAD/JJIS web site:
- Meeting notices to be posted on-line – partially completed, meeting notices for the NG JJIS Screen and Report Design are posted.
 - Meeting minutes to be posted on-line – partially completed, meeting minutes for the NG JJIS Screen and Report Design are posted.
 - Release information to be posted on-line – completed.
 - FAQs posted on-line – completed.
 - JJIS user manual to be on-line – completed.
 - Results of summary data requests using JJIS information available on-line – not completed; deferred to Next Generation.
 - A JJIS summary database will be available for online reporting inquiries – not completed; deferred to Next Generation.
 - JJIS User Manual will be customized by agency type and available online – not completed.
7. Improve throughput and response time to requests:

- Time from request to implementation improved by 10% - not completed; deferred to Next Generation.
- Review change request method – not completed; deferred to Next Generation.
- Automate regression testing – completed.

8. Next Generation JJIS:

- Publish needs assessment, system requirements, and design alternatives – completed.
- Determine platform – completed.
- Role of GIS determined – completed.
- Define notification and subscription services – not completed; deferred to Next Generation.
- Define security upgrade – not completed; deferred to Next Generation.
- NG JJIS design published – conceptual design completed; detailed design to be completed in FY09.
- Required equipment, hardware and software will be procured – not completed; anticipating completion in FY09.
- MOU for NG JJIS home will be executed – not completed; anticipating completion in FY09.
- Database re-designed for NG JJIS – completed.
- Standards for data elements, processing and usage will be set – not completed.
- Implementation plan for NG JJIS will be published – not completed; anticipated completion in FY10.
- Training plan for all users will be developed and executed – not completed; anticipated completion in FY10.
- Statewide rollout of the NG JJIS will be complete - anticipated completion in FY10.

NOTE: The JJIS 5-year plan defined the resources needed in order to accomplish the stated objectives. One of the reasons that many of the planned objectives have not been met is that the required resources have not been available.

RESEARCH AND STATISTICS BRANCH

Paul Perrone, Branch Chief
Lydia Seumanu, Senior Research Analyst
Dr. Timothy Wong, Project Researcher (through January 15); and
ICIS Research Analyst (January 16 to present);
John Hisashima, ICIS Research Analyst (resigned November 14, 2007)
Genbao Gao, Research Statistician III

HIGHLIGHTS / MAJOR ACCOMPLISHMENTS

Branch staff published 11 reports, gave 15 presentations, worked on 13 projects, and participated in 25 professional conferences, workshops, and trainings.

1. The Branch staff continued to collect and analyze data for the Interagency Council on Intermediate Sanctions (ICIS), a statewide and multi-agency effort to reduce offender recidivism with the use of evidence-based assessments and programs.

Impact: A report was completed on the outcomes of the Level of Service Inventory-Revised (LSI-R), the assessment tool used on medium- and high-risk offenders, and two reports on the Domestic Violence Screening Instrument (DVSI) and Spousal Assault Risk Assessment (SARA) assessment tools for offenders with domestic abuse issues. The analysis provided information for the probation and parole officers on their use of the evidence-based assessments and the assessment scores of the offenders. The DVSI and SARA reports provided information that the officers never had. It should assist them in their supervision of the offenders.

2. The Judiciary's 'Hawaii Opportunity Probation with Enforcement' (HOPE) program continues to utilize Branch staff in the data collection and analysis. HOPE is an innovative effort that has dramatically reduced probation failure rates in First Circuit courts that utilize the program. During the period, 1,257 probationers were in the program.

Impact: The data analyzed by staff assisted the Judiciary in receiving major funding from the Legislature and favorable public attention. The federal National Institute of Justice and criminologists from UCLA and Pepperdine conducted site visits, and the latter received a research grant to further evaluate the program. The Judiciary also received an award from the American Judicature Society for the program.

3. The first statewide crime victimization survey report was published after a nine-year hiatus. The survey included new questions on identity theft, current community issues, and the use of victim assistance programs.

Impact: New data are now available especially for organizations that work with victims and agencies that need the information to apply for grants.

4. A formal relationship with the University of Hawaii at Manoa was established to utilize their Institutional Review Board (IRB), the Committee on Human Studies. In using any federal grant for research, it is mandatory that a peer panel process ascertains human subjects and/or confidential, personally-identifiable information will be protected.

Impact: There is no state government IRB. This partnership with the UH-M is cost-efficient for the Department, as it would take personnel, time, and funding to establish such an entity. Now when the Branch applies for federal grants that need human subject data, the UH-M IRB will be used at no cost.

PUBLICATIONS (chronological order)

LSI-R & ASUS Scorecards, 2002-2007 (July 2007)

This 14-page report presents analyses of LSI-R and ASUS data compiled from reassessments for the January, 2002 through April, 2007 period. It is a composite evaluation of ten ICIS scorecards, or indicators of ICIS implementation progress. The scorecards represent an important source of information for quality assurance monitoring and trend analysis.

Average Change in LSI-R Risk & Protective Scores by Classification Level (August 2007)

This is a one-page research article (ICIS Newsletter, Vol. 3, Issue 1) on LSI-R risk and protective scores across risk classification levels, and by multiple assessments administered during the 2002 through April 2007 time period.

Crime & Justice in Hawaii: 2005 Household Survey Report (November 2007)

The first comprehensive survey of crime victimization in the state was done in 1994. It provided useful information to criminal justice agencies, lawmakers, researchers and service providers, and helped to establish a baseline for trend studies. Additional surveys were published annually through 1998. After a nine-year hiatus, the Branch recommenced its statewide crime victimization survey, which measures the fear of crime and satisfaction with the justice system, crime awareness and perceptions, security measures taken, victimization during the prior year, and knowledge and utilization of victim assistance resources. The survey was revised to decipher the public's opinion about emergent national issues such as terrorism and identity theft, as well as more localized concerns, such as traffic safety, and their knowledge and use of various resources that are available for crime victims. The 39-page survey report also presents results via the use of county maps depicting police beat districts.

Identifying Child Predators Training: Survey Responses and Evaluation (November 2007)

This 16-page report provides statistics and analyses of the feedback from participants of the "Identifying Child Predators Training." This workshop was conducted by the Community & Crime Prevention Branch.

An Analysis of Youth Level of Service Inventory (YLSI) "Risks and Needs" Data for Juvenile Offenders Assessed by Hawaii's Second & Third Circuit Family Courts and at the Hawaii Youth Correctional Facility, 2001-2006 (January 2008)

The Youth Level of Service Inventory (YLSI) is an assessment instrument used by juvenile justice professionals to measure juvenile offenders' "risks and needs" with regard to various criminogenic factors, such as offense history, family circumstances, educational/vocational skills or deficiencies, substance abuse, etc. YLSI data provide objective, valid information that is useful for determining the appropriate types and levels of case supervision and treatment/intervention procedures to use with individual juvenile offenders. The YLSI is also useful for identifying the risk of re-offending, so that limited resources can be directed to the offenders who are most in need of services and close supervision. At the time the data were compiled for this study, the YLSI was used in Hawaii by the Second Circuit Family Court, the Third Circuit Family Court, and the Hawaii Youth Correctional Facility (HYCF).

The study data set is comprised of basic demographics and YLSI assessment scores for 521 juvenile offenders who were assessed between August, 2001 and December, 2006. The 23-page study report is divided into three sections. The first section presents demographic and other descriptive statistics for the YLSI-assessed subpopulations from each of the three individual agencies. The second section examines data for a variety of YLSI Risk Scores and Risk Levels, by agency. The third section focuses on probationers' and HYCF wards' average Risk Scores, by Circuit, gender, and age.

DVSI Validation, 2003-2007 (January 2008)

This 10-page report is a validation study of the Domestic Violence Screening Instrument (DVSI). It is an analysis of compiled DVSI assessments from August, 2003 to July, 2007. The study includes descriptive statistics of domestic violence and general recidivism occurrence for probationers classified at various risk levels.

SARA Validation, 2004-2007 (January 2008)

This 12-page report is a validation study of the Spousal Assault Risk Assessment (SARA), based on assessments compiled from 2004 through 2007. The report includes descriptive statistics of domestic violence and general recidivism occurrence for probationers classified at various risk levels.

Firearm Registrations in Hawaii, 2007 (March 2008)

This 8-page report is the eighth annual publication for a Branch-directed program that compiles, analyzes, and reports on statewide firearm registration data submitted monthly by the county police departments.

Hate Crimes in Hawaii, 2007 (March 2008)

This 4-page report is the sixth annual publication of statewide hate crime incident data and related information, including detailed information on hate crimes reported during 2007, plus six-year summary statistics and analyses.

Impact and Need Analysis for a Gender Responsive Risk Assessment in Hawaii (April 2008)

This is a two-page research article (ICIS Newsletter, Vol. 4, Issue 2) on the predictive validity of the LSI-R for female offenders on probation, using recidivism analysis. The article reviews the adequacy of ICIS' current LSI-R risk classification system for male and female probationers.

Your Identity is Your Kuleana – Identity Theft Training of Trainers: Survey Responses and Evaluation (May 2008)

This 30-page report provides statistics and analyses of the participants' event feedback surveys. The training was conducted by the Community & Crime Prevention Branch. The report was used in the debriefing and to improve future workshops.

OTHER EFFORTS AND ACTIVITIES (alphabetical order)

Asian-Pacific Islander/Youth Violence Prevention Center's (API/YVPC) Scientific Advisory Committee. The Branch Chief serves on the Committee to offer suggestions and recommendations relating to research methodologies, data sources, agency referrals, etc., for proposed and on-going studies.

Community Epidemiology Workgroup. The Branch Chief participates in a semi-annual discussion group that brings together criminal justice and health/human service professionals to share and discuss timely drug-related data and other information.

CPJAD and ICIS Web Sites. The Branch Chief, in partnership with the Division's Administrative Services Assistant, is responsible for maintaining and updating the division's section of the Department's web site. The Branch Chief also performs similar duties for the Interagency Council on Intermediate Sanctions' web site. Descriptions and PDF copies of all relevant research publications can be downloaded from these sites.

Criminal Justice Information Requests. Staff responds to requests for crime data, technical assistance, and referrals from legislators, criminal justice agencies and professionals, other government agencies, researchers, the media, and the general public. Sixty-three requests were responded to:

Requestor:

- 16 criminal justice agency
- 13 other government agency
- 10 academic institution
- 9 news media
- 8 other research organization
- 5 private citizen
- 2 other

Type of Request:

- 44 data/statistics
- 18 reports/publications
- 16 other information
- 7 technical assistance
- 2 other

Type of Response Provided:

- 31 verbal assistance
- 25 referred to CPJAD web site
- 19 email
- 16 referred to other sources
- 9 prepared written material
- 7 mail or fax

Firearm Registration Statistics Reporting Program. Data from the four county police departments are submitted annually. Staff compiles the annual report on firearm registration data.

Hate Crime Statistics Reporting Program. The county prosecuting attorneys submit annual data on hate crime incidents. Staff compiles the statistics on an annual basis.

HOPE Program. The Branch Chief, Senior Research Analyst, and four, part-time Research Aides (assigned by the Judiciary to the Branch's supervision) are playing pivotal roles in the evaluation of a Judiciary initiative that seeks to reduce felony probation failure rates by holding probationers accountable to the terms and conditions of their sentences through the imposition of swift and certain "intermediate sanctions" (brief jail terms and/or referrals to in-patient

treatment programs) whenever non-compliance occurs. Dramatic, sustained increases in probation compliance rates have been identified across five separate study groups; preliminary results suggest that this approach is highly effective in reducing failure rates amongst Hawaii's felony probation population. The HOPE Program continues to receive legislative funding and favorable public attention. The National Institute of Justice and a team of renowned criminologists from UCLA and Pepperdine University conducted site visits during 2007 and 2008. The program was expanded to other courts near the end of 2007. During the year, HOPE reached its goal of 1,257 offenders in the program, received a prestigious award from the American Judicature Society, and is currently being studied for a feature article in *The Wall Street Journal*. In early FY 2009 it is anticipated that the Maui court will include 300 offenders). The Senior Research Analyst is responsible for assigning and monitoring the Research Aides, which is a valuable experience in supervision.

Institutional Review Board for Human Subjects Research. The utilization of federally-approved Institutional Review Boards (IRBs) for human subject research is an increasingly stringent requirement for receiving federal research funds, particularly in the case of grants that are administered by the U.S. Department of Justice. A successful effort was made to establish a formal arrangement for the Branch (and Department, should it ever prove necessary) to utilize the University of Hawaii - Manoa's IRB for these purposes.

Interagency Council on Intermediate Sanctions (ICIS). The staff continued its contribution to the ICIS efforts to reduce criminal recidivism through a comprehensive restructuring of policies and practices relating to the community supervision of criminal offenders. The ICIS Research Analyst and Project Researcher provided an array of technical assistance, including the publication of several study reports, conducting specialized data analyses and assessments, offering protocol-oriented recommendations, giving presentations to various ICIS-related audiences, and serving on the ICIS Working Group, Training, and Research and Evaluation subcommittees. The Branch Chief chaired the Research and Evaluation subcommittee, edited the ICIS newsletter, and administered the ICIS web site. The Project Researcher position was vacated and not filled due to a reduction of federal funding.

Justice Research and Statistics Association's Technology, Technical Assistance, and Training Committee. The Branch Chief served on the Committee, which develops procedures for reviewing and issuing national awards for Statistical Analysis Centers' (SACs') web site and other technological innovations; surveys SACs with regard to their technological resources, expertise, and needs; and recommends to the Executive Committee new technologies that may facilitate the work of the SACs and their ability to communicate and work with one another.

State Justice Statistics Program for Statistical Analysis Centers. As Hawaii's federally-designated Statistical Analysis Center for policy-relevant criminological studies and data, a grant application was submitted to the federal Bureau of Justice Statistics in March 2008 to conduct a comparative study on the incarceration of Hawaii's prison inmates in "public, in-state" versus "private, out-of-state" facilities. The study will be conducted in partnership with the University of Hawaii at Manoa's Department of Sociology, the Department of Public Safety, and the Hawaii Paroling Authority. The award is anticipated in FY 2009.

Uniform Crime Reporting Program. The release of *Crime in Hawaii, 2006 and 2007* will be delayed until early FY 2009 and the *Semi-Annual Crime Summary* covering the first half of CY 2007 was not completed. As in the previous two years, county police installed new police record management systems, and the "debugging" of the systems delayed their data submissions to the Branch. At the end of the fiscal year, however, all four police departments

indicated that they will be submitting data for 2008. Thus the publication of *Crime in Hawaii, 2008* is anticipated for Summer 2009.

BRANCH PRESENTATIONS

Paul Perrone, Branch Chief

- Reentry Panel Session (moderator), BJS/JRSA National Conference, Pittsburgh, PA, October 2007 – 50 participants
- Hawaii's Youth Level of Service Inventory Data and Analyses – presentation to the JJIC Subcommittee on Research, Honolulu, November 2007 – 6 members
- Chaminade University Criminal Justice Expo (Division display table), Honolulu, February 2008 – 100 students

Lydia Seumanu, Senior Research Analyst

- HOPE Presentation, Honolulu, February 2008 – 5 participants
- HOPE Data Collection, Honolulu, March 2008 – 12 participants
- Chaminade University Criminal Justice Expo (Division display table) Honolulu, February 2008 – 100 students

Dr. Timothy Wong, ICIS Research Analyst

- ICIS Research Update/Parole Report, Hawaii Paroling Authority, July 2007 – 20 participants
- Scorecard Statistical Briefing to the ICIS Policy Committee, Honolulu, July 2007 – 25 participants
- ICIS Research Update to 1st Circuit Court, Honolulu, August 2007 – 6 participants
- How Do Evidence-Based Practices Impact Recidivism?, Honolulu, August 2007 – 40 participants
- Evidence-Based Effectiveness in Criminal Justice Programs presented at Evidence-Based Offender Programs Training, Honolulu, August 2007 – 200 participants
- Cognitive Behavioral Training Outcomes (Dept. of Labor Grant) presented to ICIS Policy Committee, Honolulu, October 2007 – 25 members
- ICIS Research Update/LSI-R & Proxy Recidivism Report, Honolulu, November 2007 – 21 members
- Preliminary Analysis of SARA Trailer – presented to ICIS Policy Committee, Honolulu, January 2008 – 25 members
- Validation Study of the SARA and DVSI, 2003-2007 presented to ICIS Workgroup, Honolulu, February 2008 – 20 members
- Female Offender Proxy Analysis presented to ICIS Workgroup, March 2008 – 20 members

ADMINISTRATION

Lari Koga, Division Supervisor
Amy Tatsuno, Administrative Services Assistant
Rebecca Leung, Account Clerk
Carol Takayama, Account Clerk
Carol Sakai, Clerk-Typist (part-time)

Three all-staff sessions were held: 1) site visit to the Federal Detention Center; 2) pizza lunch to raise funds for the Foodbank, and 3) site visit to the Honolulu Police Training Academy. In the spring, staff met to discuss ideas for goals and objectives planning for the next five years. The plans will be completed in the fall of the next fiscal year.

The division supervisor continues to be involved in two multi-agency efforts. The Interagency Council on Intermediate Sanctions (ICIS) working group, and the Office of Youth Services' Disproportionate Minority Contact Committee (OYS/DMC). The ICIS effort focuses on using evidence-based practices to reduce recidivism among adult offenders. The focus of the supervisor's role is to promote collaboration, seek resources to augment the effort, and support member agencies to stay on target by reviewing hard data. Analysis of the data, will provide the ICIS with information as to their progress in achieving a decrease in offender recidivism over the years.

The OYS/DMC effort involves use of JJIS data and analysis to assist the Committee to determine steps to be taken to resolve system responses to youth. JJIS will be providing the OYS on juvenile ethnicity data at the points of decision-making. This will allow the OYS to submit their reports on a timely basis. By addressing issues indicated by the data, it is anticipated that the OYS will be able to be in compliance with the federal mandate regarding minority contacts.

The county prosecutors met bi-monthly to plan and share training curriculums for deputy prosecutors. The division supervisor was included to provide information and resources to assist in the coordination of the training.

Hawaii has three Weed and Seed federally designated sites on Oahu. All three will meet their maximum limit to receive federal funds. The division supervisor was a member of the Resource Committee to look at alternatives to sustain the effort after federal funding ended. Three major alternatives were developed and presented to the 3 sites in April/May 2008. The sites will need to determine how they want to continue their efforts.

The Departments of Public Safety and Human Services facilitated the Task Force on Children of Incarcerated Parents. The Supervisor was a member of the multi-agency task force that submitted a report to the 2008 Legislature on work that needed to be done to address the issues. The Legislature passed legislation to continue the work of the task force.

APPENDIX A: TRAINING AND CONFERENCES ATTENDED BY STAFF

Training increased the knowledge of staff in subject matter, enabling them to better work with agencies in planning efforts, designing projects, and evaluating and improving proposals.

Community & Crime Prevention Branch

Valerie Mariano, Branch Chief

- Safe and Drug-Free School Conference, Washington, D.C., August 1 – 3, 2007
- Symposium on Juvenile Information Sharing, Washington, D.C., August 12 – 14, 2007
- National Crime Prevention Conference, Atlanta, Georgia, October 1 – 5, 2007
- Maui Teen Dating Violence Prevention Training, Cameron Center, Maui, March 11, 2008
- Paedophilia, Paraphilia & Online Offenders with Dr. Peter Collins, Mission Memorial Auditorium, April 10, 2008
- Hawaii Partnership to Prevent Underage Drinking (HPPUD) Conference, Hapuna Beach Prince Hotel, Waikoloa, April 16-17, 2008
- Multi-generational workshop, State Capitol, May 20, 2008
- Intimate Partner Sexual Violence Conference, Ala Moana Hotel, May 28, 2008 (one day only)

Kristell Corpuz, Community and Crime Prevention Specialist

- 8th National Conference on Preventing Crime, Atlanta, Georgia, October 2 – October 5, 2008
- Identifying Child Predators, State Capital Auditorium, October 11, 2007
- Teen Depression & Suicide Seminar, Central Union Church, January 11, 2008
- Landlord Training - Keeping Illegal Activity Out of Rental Property, Japanese Cultural Center, February 26, 2008
- Teen Dating Violence Prevention Training, Cameron Center on Maui, March 11, 2008
- Micronesian Voices in Hawaii Conference, Hawaii Imin Conference Center, April 4, 2008
- Paedophilia, Paraphilias & Online Offenders with Dr. Peter Collins, Mission Memorial Auditorium, April 10, 2008

Angela Kaiwikuamooihou, Community and Crime Prevention Specialist

- Sex Assault Conference, Hilton Waikiki Prince Kuhio, October 8-9, 2007
- Identifying Child Predators, State Capital Auditorium, October 11, 2007
- Pacific Leadership Partners: Tap Your Way Out of Drama, Japanese Cultural Center, December 10, 2007
- Teen Depression & Suicide Seminar, Central Union Church, January 11, 2008
- Landlord Training - Keeping Illegal Activity Out of Rental Property, Japanese Cultural Center, February 26, 2008
- Teen Dating Violence Prevention Training, Cameron Center, Maui, March 11, 2008
- Micronesian Voices in Hawaii Conference, Hawaii Imin Conference Center, April 4, 2008
- Paedophilia, Paraphilias & Online Offenders w/ Dr. Peter Collins, Mission Memorial Auditorium, April 10, 2008
- Hawaii Partnership to Prevent Underage Drinking (HPPUD) Conference, Hapuna Beach Prince Hotel, Waikoloa, April 16-17, 2008

Grants & Planning Branch

Adrian Kwock, Branch Chief

- Restorative Circle/Reentry Presentation, Honolulu, July 6, 2007
- Hawaiian Domestic Violence Batterers Program, Honolulu, July 13, 2007
- Full Faith & Credit Teleconference, August 14, 2007
- Evidence Based Offender Programs, Honolulu, August 22-23, 2007
- HSCADV Conference, Honolulu, September 7, 2007
- Multidisciplinary Sex Assault Training, Honolulu, October 8-9, 2007
- ADA Training: Reasonable Accommodation, Honolulu, October 17, 2007
- Victor Vieth Child Abuse Presentation, Honolulu, October 31, 2007
- STOP VAWA Administrators Conf., New Orleans, LA, November 27-29, 2007
- Judiciary Domestic Violence Conference, Honolulu, December 12, 2007
- Restitution Training, Honolulu, January 24, 2008
- Domestic Violence Fatality Review Training, Honolulu, January 28, 2008
- Collaboration in Human Trafficking-Na Loio, Honolulu, February 20-22, 2008
- Gender/Domestic Violence & Women's Involvement in Crime, Honolulu, March 24, 2008
- Micronesian Voices in Hawaii, Honolulu, April 3-4, 2008
- Paedophilia, Paraphilias & On-Line Offender, Honolulu, April 10, 2008
- HSCADV: Post-Separation Domestic Violence, Honolulu, April 29, 2008
- Victim Assistance Academy Technical Assistance, Honolulu, May 2, 2008
- Multi-Generational Workforce Training, Honolulu, May 20, 2008
- Intimate Partner Sex Assault Training, Honolulu, May 28-29, 2008

Julie Ebato, Planning Specialist

- Restorative Circle/Reentry Presentation, Honolulu, July 6, 2007
- Hawaiian Domestic Violence Batterers Program, Honolulu, July 13, 2007
- CPC Training for Evaluators, Honolulu, August 21, 2007
- Evidence Based Offender Programs, Honolulu, August 22-23, 2007
- DOJ Civil Rights HATTF Training, Maui, November 1, 2007
- BJA Regional Meeting, Salt Lake City, UT, January 8-10, 2008
- Hawaii Association of Realtors Landlord Training, Honolulu, February 26, 2008

Kathy Mitchell, Planning Specialist

- Full Faith & Credit Teleconference, August 14, 2007
- HSCADV Conference, Honolulu, September 7, 2007
- Multidisciplinary Sex Assault Training, Honolulu, October 8-9, 2007
- STOP VAWA Administrators Conference, New Orleans, LA, November 27-29, 2007
- Judiciary Domestic Violence Conference, Honolulu, December 12, 2007
- Confidentiality Audio Training, February 7, 2008
- SPO POST Training, Honolulu, February 15, 2008
- Paedophilia, Paraphilias & On-Line Offender, Honolulu, April 10, 2008

APPENDIX B: CPJA MULTI-YEAR PLAN (FISCAL YEARS 2004-2008) FY 2008 ACCOMPLISHMENTS

Department Program Objective (as it relates to the division)

To assist or coordinate statewide programs or activities for the improvement of law enforcement and criminal justice.

VISION: To be a pivotal unit within the Department and in the State government on crime-related issues.

MISSION: --To inform and educate the community, policy-makers, and government agencies on crime-related issues and concerns in order to create a safer environment;
--To assist agencies in improving crime-related services and operations;
--To promote the involvement of communities in creating a safer environment;
--To stimulate creative ideas in dealing with crime.

GOAL 1 **To provide user-oriented information in order to promote informed decision making on crime-related issues.**

Objective: Provide assistance to criminal justice agencies' research-related initiatives

- Assist the Intermediate Sanctions effort in establishing an evaluation and research infrastructure by 2004. Outcome: Completed; in 2005 a federal grant application to the DHHS was submitted by the UH but was not awarded. As an alternative, a Research Committee composed of agency staff with research ability & interest was organized and meets regularly.
- Assist in analyzing Intermediate Sanctions data and publish reports by 2006. Outcome: In 2007, 15 reports that analyzed data for the Intermediate Sanctions effort were completed and shared with the members. Reports are posted on the website. The analysis and dissemination of reports will continue through the next fiscal year. In 2008, 5 reports were completed and posted on the website.
- To seek general funds for a researcher position at the 2006 legislature. Outcome: Completed. Request for the position and funding was approved for the FY 2008 division budget and the position was filled.

Objective: Expand and improve program evaluation efforts.

- Establish a program evaluation research position with federal funds by 2004. Outcome: In 2005 federal crime funds were used to create position for project evaluation. The position was filled in mid-December 2005. However, in 2008 the position was vacant and federal funds were not available to fill the position.
- Assist federally funded projects to establish measurable goals, objectives and performance measures, so that evaluations can be done by 2006. Outcome: Not completed. The evaluator reviewed all Byrne projects and conducted a preliminary evaluability study of selected projects. However, the incumbent left the position, and there was no resource to fill the position in 2008.

Objective: Increase information dissemination on federal grants (project accomplishments, funding availability, national developments).

- Create monthly grant-specific bulletins on website by 2006. Outcome: Not completed. Because there is a federal website announcing all available grants, it was determined that creating another bulletin was unnecessary. Information on federal grant availability and national developments are disseminated to affected agencies as they are published on the federal website. Monthly bulletins were assessed not to be timely in informing agencies of application deadlines. The Byrne/JAG application and annual reports, and the VAWA STOP Implementation Plan are on the division website and are a resource for other agencies. National meetings and developments in grants are e-mailed promptly to agencies. Information from national meetings are shared at interagency meetings.

Objective: Implement changes and enhancements to the JJIS to meet users needs.

- Create an interface with the Hawaii County Police Department's new Records Management System (RMS) by 2004. Outcome: Completed in FY 07.
- Add Family Court detention home processing information by 2004. Outcome: Completed (FY 08).
- Create an interface with Kauai Police Department's new RMS by 2004. Outcome: Completed (FY 07).

Objective: Assess and initiate new programs to educate the community on crime prevention and safety.

- Assessment of new crime prevention initiative. Outcome: Completed. In FY 2006, the staff conducted underage drinking presentations in Oahu schools. In FY 07 with the increase of identity thefts, staff began work on an identity theft trainer's manual in partnership with the HITeC Unit, Criminal Justice Division. In FY 08, the manual and the training of 180 community trainers were completed. Issues on the acculturation issues of Micronesians surfaced and staff began a collaborative effort to develop a handbook for Micronesians. Use of the Internet for child pornography and recruitment of youth for sexual exploitation was raised and staff worked through an interagency group to educate and train professionals.

Objective: Increase crime prevention trainings to neighbor islands.

- Conduct a Community Action Seminar (CAS) or Training Institute Workshop on the neighbor islands. Outcome: Not completed. In 2005, Training Institutes were scheduled for Maui and Kauai but were cancelled due to lack of interest. In 2007, a determination was made to forgo CAS workshops because of many other efforts on the topic. In FY 08 a Disaster Preparedness and Community Mobilization Training was done in Hawaii County. Federal resources of the Western Community Policing Institute were utilized.

GOAL 2 To increase collaborative efforts among communities and agencies in order to address crime-related issues.

- Objective: Train communities in addressing crime problems.
- Conduct annual Community Action Seminar (CAS) to teach problem solving and teamwork skills. Outcome: Completed. The CAS follow up meeting was held in October 2006. Because of declining interest, it was determined with agency partners to discontinue the CAS.
 - Publish newsletters as well as a web page to share the efforts of community teams throughout the state. Outcome: Completed; newsletters are posted on the division's website. In 2008 no newsletters were posted.
 - FY 08 efforts included: (1) seven community presentations on Oahu on the prevention of identity theft. (2) underage drinking presentation to 5th graders at an elementary school. (3) Internet Safety presentation to a youth group.
- Objective: Disseminate crime prevention information to students and the community utilizing the McGruff character.
- Increase the number of McGruff Truck School Assemblies to K-3 public school students so that students know where to get emergency assistance. Outcome: Accomplished; 3 schools in FY 06, 12 school and 1,790 students in FY 07, and 6 schools and 2,575 students in FY 08 .
 - Support neighbor island McGruff coordinators and their efforts in disseminating crime prevention messages. Outcome: In 2005, McGruff Truck Assemblies were held on Maui. In 2007, McGruff Assemblies were held on Kauai.
 - Partner with a radio or television station to maximize McGruff airtime messages. Outcome: Completed. In FY 06 two television stations reported that they aired the McGruff public service announcements (\$83,500 in airtime), in FY 07, 2 stations/\$10,350 in air time, and in FY 08 2 stations/\$41,259 in air time.
- Objective: Promote multi-agency collaborative planning and grant applications efforts (government/community, restorative justice)
- Assess current collaborative efforts by 2004. Outcome: Completed the assessment in 2005. In 2005-06 new collaborative efforts include Victim Strategic Plan, Hawaii Anti-Trafficking Task Force, and assessing offender treatment programs. In 2006-07 Statewide Forensic Sciences Laboratory Services, Sex Assault Prevention Planning, Domestic Violence Plan Implementation, automated victim notification system, disproportionate minority contact, and identity theft prevention were new efforts undertaken. In FY 08 collaborative efforts included the standardizing of sexual assault forensic exam protocols, and assessing the feasibility of a state Victim Assistance Academy.
- Objective: Initiate discussions and recommendations by the Juvenile Justice Interagency Committee (JJIC) on JJIS policy issues.
- Discuss "positive identification" of juvenile, policies on confidentiality and misuse of data, and guidelines for data requests by 2004. Outcome: Partially completed in 2006 through JJIC actions. Legislative changes for positive identification proposed legislation to be drafted in FY 09; Internal Management Agreement signed by all agencies in FY 08;

guidelines for data requests was referred to the JJIS Policy Subcommittee in FY 08.

- Establish standard policies for participating agencies that guide the use of the JJIS, confidentiality, and penalties for misuse. Outcome: Completed in 2005.
- Determine access to the JJIS by the Public Defender, inclusion of the Youth Level of Service Inventory (YLSI) information, and the review of the JJIS purpose statement by 2006. Outcome: Completed June 2006; it was determined to limit access by the Public Defender; JJIC voted affirmatively on the YLSI and JJIS purpose statement.

GOAL 3 To obtain and optimize resources in order to address crime-related issues.

- Objective: Pursue funding opportunities to continue development of the Incident Based Reporting System (IBRS) and crime research and data needs.
- Assist police departments in seeking funding sources for police departments in 2004; continue as needed. Outcome: Not completed; police departments determined that IBRS is not a priority.
 - Continually seek non-general fund resources to advance crime research. Outcome: In 2005 applications for research were submitted to the DHHS through the University of Hawaii and another to NIH through Ball State University; both were not awarded.
 - Seek/initiate partnerships with other organizations for crime research. Outcome: The division partnered with the UH-West Oahu to study drinking and driving. The report was published in January 2006. In 2008, a grant application in partnership with the UH-Manoa's Department of Sociology to conduct a collaborative study of Hawaii's mainland incarceration practices. Note: the grant was awarded and the study will commence in FY 2009.
 - Seek resources to establish JJIS research position by 2006. Outcome: Completed. The position and funding were appropriated by the 2007 Legislature.

- Objective: Conduct policy-relevant GIS/crime mapping research.
- Develop in-house GIS capabilities by 2004. Outcome: Not completed as staff left for another position, the position was not filled, and federal funding ended. GIS use is a lesser priority with limited staff.
 - Foster UH and other partnerships by 2006. Outcome: Not completed due to limited staff.

- Objective: Increase the capability of criminal justice and victim agencies to access federal grants.
- Provide discretionary grant information to agencies. Outcome: Completed. When the Division receives or finds notice of grant solicitation, it is sent to any agency that indicated an interest in the topic or to agencies that would fit the solicitation criteria. Agencies are encouraged to sign up for the federal on-line grants information service.
 - Assist agencies in applying for grants. Outcome: Completed. Staff assisted the Hawaii Paroling Authority in receiving a technical assistance grant from the Center for Sex Offender Management, which was

approved (FY 05). Staff assisted the Sex Abuse Treatment Center in an application for underserved sexual assault victims (FY 06). In FY 07 staff assisted the Hawaii County prosecutor in applying for a Grant to Encourage Arrest Policies. Staff also assisted agencies on how to use the Grants.gov process as well as reviewed & commented on applications submitted by other agencies. In FY 08 staff drafted an application for the Department of Public Safety for a victim notification system to meet the deadline. Assistance was provided to the Criminal Justice Division on a grant to address internet crimes against children.

- Apply for discretionary grants to support crime and victim assistance efforts. Outcome: Completed. A discretionary grant application for human trafficking was awarded in FY 05. In FY 06 a family visitation centers grant was awarded. In FY 07 2 grants were awarded for anti-gun and anti-gang efforts. In FY 08 applications were submitted for a continuation of the human trafficking, family visitation center, targeted training to build effective offender programs, and anti-gun projects; approvals were pending at the end of the fiscal year.
- A new effort in 2008 was the partnership with the University of Hawaii through a formal agreement to use their Committee on Human Studies to review and approve federal grant applications that require an Institutional Review Board (IRB). IRBs determine if personally identifiable and/or other confidential information on individual persons will be handled in accordance with federal statutes and regulations. This agreement will facilitate research grant applications to the federal government.

Objective: Improve the administration of federal grants.

- Develop a multi-year strategy for the use of the Byrne grant that is outcome based by 2004. Outcome: Completed.
- Assess Violence Against Women and Victims Of Crime grants as to the achievement of the intended goals by 2004. Outcome: Partially completed as no formal assessment was done for the VAWA 3-year in FY 2008. VOCA strategic plan assessment by the University of Hawaii was completed in June 2006.
- Develop and implement a grants management system (GMS) by 2004. Outcome: Not completed. This was moved to FY 08 due to staff time constraints, however due to the reduction in funding, it is uncertain if it can be accomplished.

Objective: Develop partnerships and collaborate with other organizations to sponsor efforts to prevent crime.

- Partner with at least 1 new partner by 2004. Outcome: Completed; every year there has been a new partner. In FY 07 the HITeC unit of the Criminal Justice Division and the DOH Maternal and Child Health Division were new partners in ID theft prevention and sex assault prevention efforts. In FY 08 there were many new partners for Fraud Guidebook (DCCA, EOA); Micronesian handbook (Office of Community Services, other main players?); Internet crimes & child pornography with the Criminal Justice Interdisciplinary Task Force (CJIT), which included Children's Advocacy Center, ___other main?; and crimes in residential sector (HI Association of Realtors, State Housing)

- Develop a Senior ID program for senior citizens to keep them safe. Outcome: Completed in 2004.
- Maintenance of the Kupuna ID program. Outcome: Completed; it was determined that the Executive Office of Aging was better suited to maintain and expand the program. The program was transferred to the EOA in September 2006.
- Partner with at least 2 agencies annually. Outcome: Completed annually. The branches collaborated with over 31 agencies. Collaborative efforts included community mobilization, truancy, Kupuna ID, minority youth in the justice system, identity theft prevention, etc.

Objective: Quality and timeliness of the JJIS data will be improved.

- Provide users with frequent reports on data discrepancies and timeliness of data entry by 2004. Outcome: Completed.
- Data quality audit will be initiated by 2007. Outcome: Not completed; this will be deferred to the Next Generation JJIS phase.
- Frequency of timeliness reports will be increased to quarterly or monthly by 2006. Outcome: Completed; as of January 2006 quarterly reports are produced.

Objective: Better utilize the JJIS web page.

- JJIC-related matters will be posted by 2004. Outcome: Partially completed; only some working meeting notices and minutes are posted on-line; resources reassigned to the “Next Generation” JJIS.
- JJIS “software release” and FAQs will also be available by 2004. Outcome: Completed.
- JJIS user manual and results of data summary requests will be on-line by 2006. Outcome: Partially completed. The user manual is on-line as of November 2005. Data summary requests deferred to the NG JJIS.

Objective: Improve throughput and response time of requests.

- Time from user change request to implementation will be decreased by 10% by 2004. Outcome: Not completed; resources reassigned to “Next Generation” JJIS).
- Significant portion of regression testing will be automated by 2004. Outcome: Completed (FY 08).
- Time from user change request to implementation will be decreased by 20% in 2006. Outcome: Not to be completed; resources reassigned to “Next Generation” JJIS.

Objective: Move to a “next generation” of the JJIS.

- Complete needs assessment, system requirements, and design alternatives by 2004. Outcome: Completed (August 2005).
- Determine the platform for the next generation and the role of the geographic information system (GIS) in the next generation system by 2004. Outcome: Completed (2005).
- Define significant security upgrade as well as subsystems for notification and subscription services by 2004. Outcome: Not completed; deferred to “Next Generation” JJIS.

GOAL 4 To promote and advance improvements to the criminal justice system response to communities, victims, and offenders.

Objective: Assess the public's perceptions and concerns regarding crime and criminal justice in Hawaii.

- Begin development of survey instrument with input from agencies by 2004. Outcome: Completed. Questionnaires were completed and mailed to the community in June 2006. Analysis was completed in FY 2007; the report was published in 2008.

Objective: Assess and prioritize staff involvement in multi-agency planning efforts.

- Determine which efforts to place staff and other resources by 2004. Outcome: Completed in 2004.
- Check progress and status of multi-agency efforts to determine continuation by 2006. Outcome: Ongoing. Ended role in the domestic violence fatality review task force (FY 06). New efforts in FY 07 included coordination of assessing offender services with evidence-based criteria, sexual assault forensic protocols and forensic science laboratory services. FY 08 multi-agency planning efforts included community prosecution, automated victim notification system, and state victim assistance academy.

Objective: Implement a crime victim notification system.

- Facilitate discussion and development of a victim notification process among the county victim offices and the jail/prison by 2004. Outcome: Completed. Discussions were done with the county victim coordinators and the Department of Public Safety. The Honolulu Prosecutor's Office decided to pilot the system (2005). However, in late spring 2006, the Prosecutor's Office decided not to take the lead. In FY 07 the division initiated discussions with victim service providers and the Department of Public Safety on alternatives to implementing such a system. In FY 08 the DPS agreed to be the lead agency with support of victim service providers.
- Implementation of the victim notification system by 2006. Outcome: Not fully completed. In FY 08 the division staff assisted DPS in applying for a federal grant to implement the system. The system will be implemented in FY 09 with the federal grant.

Objective: Develop a coordinated plan for victim assistance in a terrorism or mass violence event.

- Develop MOAs to delineate agency responsibilities, process and funding mechanisms by 2004. Outcome: Not completed. The US Attorney has taken the lead; county victim programs have yet to determine their role in their county's response system.
- Mechanism in place for agencies to assist another county in the event of terrorism or mass violence by 2006. Outcome: Not completed. To develop a coordinated plan, county VW units need to be a part of their respective counties' response protocol to a mass casualty incident. To date there is insufficient progress in the counties to address a statewide plan.
