BIO SPOT® FLEA & TICK REPELLENT FOR PUPPIES

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. May cause skin sensitization in rare cases with repeated use. Consult a veterinarian before using this product on debilitated, aged, pregnant, nursing or medicated animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

FIRST AID: Call a poison control center or doctor immediately for treatment advice.

If on skin or clothing • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes.

If in eyes • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-234-2269 for emergency medical treatment information.

PHYSICAL HAZARDS: Combustible. Do not use or store near heat or open flame.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risks of use and handling of this material when such use and handling are contrary to label instructions.

Satisfaction guaranteed or your money back. In case of emergency or for product use information, call 1-800-234-2269 or visit our web site at **biospot.com**.

BIO SPOT® FLEA & TICK REPELLENT FOR PUPPIES

READ ENTIRE LABEL BEFORE EACH USE.
USE ONLY ON PUPPIES.

DIRECTIONS FOR USE – It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING.

FOR PUPPIES: For Fleas and Flea Eggs: A light, even coverage of the hair coat will provide effective flea control. Do not allow spray from application or damp animal to come into contact with painted or finished surfaces, including wood floors/furniture, leather/vinyl materials, or other surfaces of concern. Leaving the eyes, nose, and mouth exposed, treat puppies weighing less than 3 lbs. by wrapping the animal in a towel which has been lightly sprayed with Bio Spot® Flea & Tick Repellent for Puppies. Keep the animal wrapped for 5 to 10 minutes, or lightly spray a brush or cotton ball and work thoroughly into the hair coat. Adult fleas may then be removed from the coat by picking or combing. Puppies over 3 lbs. may be treated with 1 to 2 squeezes of the trigger sprayer per pound of body weight. Reapply every 28 days, for continuous home flea infestation prevention. For continuous protection against adult fleas, or if your pet becomes reinfested with adult fleas from outside sources, reapply once weekly. Do not allow animal to become chilled. **Do not use on puppies under 12 weeks of age. For ticks:** Apply as directed for fleas, but make sure spray thoroughly wets ticks. For continuous protection against ticks, reapply once weekly. **For mosquitoes:** Apply as directed for fleas. For continuous protection against mosquitoes, reapply once weekly.

STORAGE and DISPOSAL: Storage: Do not store near heat or open flame. Store away from children and animals. **Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
