Algae Relief™ – Controls Green Water and String Algae – For Use with Plants and Fish

Algae Relief effectively controls algae in ornamental ponds including string and hair algae (Spirogyra) and blanket weed (Oedegonium), and green water caused by algae blooms. Algae Relief can be used on freshwater pond fish and plants.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For use only in fountains and ornamental ponds with synthetic liners.

Calculate pond gallons using following formula: Length (ft.) x width (ft.) x average depth (ft.) = cubic feet. Cubic feet x 7.5 = pond gallons. Remove activated carbon filters for 6-8 hours after dosing. Before adding Algae Relief provide adequate aeration from a fountain, waterfall or air pump. Keep pump(s) running 24 hours a day while using this product, especially during warmer months. USE 2 TEASPOONS (10 mL) OF ALGAE RELIEF™ FOR EVERY 120 U.S. GALLONS (460 L) OF POND WATER. 1 TSP. (5 mL) TREATS 60 U.S. GALLONS (230 L); ¼ CUP (60 mL) TREATS 720 U.S. GALLONS (2,700 L). MIX IN A BUCKET OF POND WATER AND POUR DILUTED MIXTURE INTO THE POND EVENLY ALONG THE EDGES TO ENSURE PROPER DISTRIBUTION. Do not overdose. For best results, dislodge algae from stones and remove from pond before use. Treatment may be repeated every three days for up to three total doses. Remove dead algae to ensure proper water quality. Contents treats up to 2,800 U.S. gallons. Use only in ponds that have been set up for at least three months. Do not use in ponds with invertebrates or crustaceans such as crabs, shrimp or crayfish. This product contains chemicals known to the State of California to cause cancer.
