COGHLAN'S MOSQUITO STICKS

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Only for outdoor use. Cover exposed food to avoid contamination. Do not allow burning sticks to contact flammable objects, materials or surfaces.

Remove a Stick from the box and ignite the tip until it flames. Invert the Stick to ensure the entire end is well started. When this occurs, blow out the flame. It will continue to burn without a flame but will create smoke which will repel mosquitos. Insert the bottom end of the Stick into the ground or a bucket of sand making sure that the Stick stands upright.

Place Sticks approximately every 10 to 12 feet apart around the perimeter of the area to be protected. Sticks will be most effective when there is little or no breeze. Depending on air movement, Sticks will last 3–4 hours. If a crack appears in the body of the stick it is simply drying. This is normal and in no way impedes effectiveness.

To extinguish, gently knock off glowing end and put the tip out by inserting in dirt or sand.

STORAGE: Store in a cool, dry (preferably locked) area inaccessible to children and pets and away from sources of heat or ignition.

DISPOSAL: **If empty:** Do not reuse this packaging. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency [or 1-800-CLEANUP] for disposal instructions. Never place unused product down any indoor or outdoor drain. **Used sticks:** Put ashes and Stick stub in trash.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Avoid prolonged inhalation. Do not touch lit end of stick. Do not use indoors. Thoroughly wash with soap and water after use.

FIRST AID:

If inhaled:
- Move person to fresh air
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. (You may also contact 1-800-[appropriate number] for emergency medical treatment information.)

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.
