water treatment

CAUTION
See other precautions and first aid on back panel

Net Contents: 32 FL OZ (946ml)

FIRST AID	
If In Eyes	Hold eyelids open and rinse slowly with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.
If Swallowed	Call poison control center immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person.
If Inhaled	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth -to- mouth if possible. Call a poison control center or doctor for further treatment advice.
If on Skin or Clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center for treatment advice.
Have the product container or label with you when calling poison control center or doctor, or going for treatment.	

PRECAUTIONARY STATEMENTS
HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS
Caution: CLEARVIEW polyPOWER 30 may cause skin damage. Harmful if swallowed. Do not get on skin, eyes or clothing.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with it's labeling.

APPLICATION AND DOSAGE RATES: For maximum effectiveness, pools containing a heavy growth of algae should be cleaned prior to using CLEARVIEW "polyPOWER 30". Pools having visible algae growth should be treated with 32oz. per 10,000 gallons of pool water. Then about 24 hours later, the algae debris should be removed by standard cleaning procedures, including brushing loose alge spots, vacuuming the pool, and backwashing the filter.

For treatment of a freshly cleaned and filled pool, add 18 fluid ounces of CLEARVIEW "polyPOWER 30" per 10,000 gallons of pool water. To maintain pools free of visible algae growth, they should be treated with 6oz. per 10,000 gallons of pool water every week after the initial treatment. Dilute CLEARVIEW polyPOWER 30 with at least 9 parts water before applying. Pour required amount of CLEARVIEW polyPOWER 30 into a plastic watering can and fill with water. Maintaining constant pool circulation, sprinkle solution around the edge of the pool.

CLEARVIEW "polyPOWER 30 is compatible with those chemicals commonly used to treat pools and it is effective in both acid and alkaline pH ranges. CLEARVIEW "polyPOWER 30" can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required.

IMPORTANT NOTE: Always apply chemicals separately. Never combine them.

PESTICIDE STORAGE: Store in original container in a cool, dry place. Keep container closed when not in use.

CONTAINER DISPOSAL: Do not reuse empty container. Rinse thoroughly, wrap container and put in trash collection.
