PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. This product contains a highly flammable ingredient. It may cause a fire or explosion if not used properly. Follow the "Directions for Use" on this label carefully.

HIGHLY FLAMMABLE INGREDIENT
INGREDIENTE ALTAMENTE INFLAMABLE

STOP. Read entire label before use.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

One 2 ounce aerosol can treats up to 2,000 cubic feet of unobstructed area (a room 12.5 ft. x 20 ft. with an 8 foot ceiling).

Clean and treat pet sleeping areas. Use an approved product registered for treating fleas and ticks on cats and/or dogs before allowing pets to re-enter area. Make sure surfaces are dry before allowing pets and small children to re-enter treated area.

Do not use in food/feed areas of food/feed handling establishments, restaurants or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food/feed is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where food may be prepared or held. In the home all food processing surfaces and utensils should be removed or covered during treatment or thoroughly washed before use.

For use in non-food/feed areas such as garbage rooms, lavatories, entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, and storage (after canning or bottling).

For best performance:
HOW TO USE
Step 1: PREPARATION

Open cupboards, cabinets, trunks, and interior doors, [such as closets,] in area to be treated. Close outside doors and windows and turn off fans and air conditioning. Remove pets, birds, and tightly cover or remove fish bowls and aquariums before fogging. Shut off fish tank air flow systems. Cover or remove plants before application. Cover waxed wood floors, window sills and cover or remove waxed furniture in the immediate area surrounding the fogger (newspaper may be used). Remove or cover exposed foods, dishes and utensils. Cover all food processing surfaces during treatment or thoroughly clean before using. Temporarily disconnect smoke alarms. DO NOT use more than one fogger per room. DO NOT use in small, enclosed spaces such as closets, cabinets or under counters or tables. Do not use in a room 5 ft. x 5 ft. or smaller; instead, allow fog to enter from other rooms.

Turn off ALL ignition sources such as pilot lights (shut off gas valves), other open flames or running electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc.). Call your gas utility or management company if you need assistance with your pilot lights.

Step 2: ACTIVATION OF FOGGER

SHAKE CAN WELL JUST BEFORE USING. Using several layers of paper (such as paper towels or newspaper), place on floor in center of room to be treated. NOTE: Do not place fogger on water-stainable surface. Tilt aerosol can away from face (aerosol can sprays straight up) and depress tab firmly with thumb until it clicks into locked position. Set fogger on paper, leave the room and close door[s]. Keep area closed for 2 hours. Then air out room by opening all doors and windows for at least 30 minutes. Turn smoke alarms, aquariums, fans and air conditioning back on.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Do not store near heat or open flame. Store in cool dry area away from children.

Container Disposal: Non-refillable container. Do not reuse or refill this container. Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.

Contains no CFCs or other ozone depleting substances.
Federal regulations prohibit CFC propellants in aerosols.
