THE ORGANIZATION OF THE EXECUTIVE SUPPLEMENTAL BUDGET

This document contains the Supplemental Executive Budget for the State of Hawaii. It has been prepared for and is being submitted to the Twenty-fourth State Legislature in accordance with the provisions of Chapter 37, Hawaii Revised Statutes.

The purpose of this document is to supplement the Executive Budget document which was presented to the Legislature in December 2006, and serves as the basis for amending the General Appropriations Act (Act 213, SLH 2007) passed by the Twenty-fourth State Legislature.

An explanation of the sections contained in this volume is as follows:

Details of the Operating and Capital Budget - By Department:

Departmental Overview
The details of the budget are presented by department, and sequenced by major program area within the department. An overview is provided for each department consisting of an organization chart, major functions, mission statement, departmental goals, and significant measures of effectiveness. The operating and capital budget requests and highlights of significant items are also provided.

Details of the Operating Budget
The budget requests are presented by major program within each department and provide the following information:

- Requested operating appropriations by cost element (personal services, other current expenses, equipment, and motor vehicles) and by means of financing (general funds, special funds, etc.).

- Capital improvement appropriations by cost element (plans, land acquisition, design, construction, and equipment) and by means of financing.
- A narrative which provides the statement of the program's objective and discusses the budget request and any significant changes to measures of effectiveness and program size.

Details of the Capital Budget
This section lists all capital improvement projects that require supplemental appropriations during the budget period (FB 2007 - 2009).

Information provided for each project includes the priority number as assigned by the department, project number, location, project scope, title, and required appropriations for FY 2008 and FY 2009 by cost element and means of financing.

Additional capital improvement project details which include project implementation schedules, planned vs. actual expenditures, detailed descriptions, and total project costs are found in a separate report (Tables P and Q). This report includes projects which are still active but do not require any appropriations during the budget and planning period. Because of its size, this report is distributed to the legislature only upon request.
