3 Month Supply

NET CONTENTS: 0.45 fl oz total
(Three 0.15 fl oz/4.5 cc tubes)

STORAGE AND DISPOSAL: Pesticide Storage: Store in a cool area away from children and animals. **Liquid Tube Disposal: If empty:** Do not reuse tube. Place in trash or offer for recycling, if available. **If partially filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

DO NOT USE ON DOGS/PUPPIES LESS THAN 10 WEEKS OLD.

For external use only. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Repeated exposure to etofenprox can cause skin irritation. Consult a veterinarian before using this product on debilitated, aged, pregnant, nursing, or animals on medication. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your dog/puppy with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Some dogs/puppies may experience hair loss or temporary skin irritation at the application site. If signs persist or become more severe, contact veterinarian immediately and report incident to company at 1-800-766-7661.

FIRST AID:	
If in eyes:	• Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after first 5 minutes, then continue rinsing. • Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-766-7661 for emergency medical treatment information.	

WARRANTY AND CONDITIONS OF SALE: Seller warrants that this product conforms to the chemical specifications expressed on the label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller's liability for default, breach, or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.

VET·KEM®

Ovitrol® X-Tend™

Flea & Tick Spot On® for Dogs

IMPORTANT! DO NOT USE ON DOGS/PUPPIES LESS THAN 10 WEEKS OLD.

**READ ENTIRE LABEL BEFORE EACH USE.
USE ONLY ON DOGS AND PUPPIES.
DO NOT USE ON OTHER ANIMALS!**

The X-Tender™ Applicator is specially designed to make applying flea and tick control easier and more precise than ever before. You simply insert the appropriate tube for your dog/puppy into the applicator, close it and squeeze to apply. The applicator's ergonomic, contoured shape makes it easy to grip and the built-in tip helps to spread the dog's/puppy's hair to allow the liquid to more readily reach the skin. The tube is sealed inside, so you can be confident that the liquid goes onto your dog/puppy – and not your hand. Plus, if the applicator is laid down on a table, counter or other flat surface, it won't run out or drip. Vet-Kem® Ovitrol® X-Tend™ Flea & Tick Spot On® for Dogs provides flea and tick protection for dogs/puppies for up to 30 days. This product is water resistant and remains efficacious following exposure to rainfall or swimming.

This product is most effective when used as part of a total flea and tick management program. Use other Vet-Kem® products registered for residential area control of these pests in conjunction with this treatment. Monthly treatments are required for optimal control and prevention of fleas.

The successive feeding activity of fleas on dogs/puppies may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of dogs/puppies with this product rapidly kills fleas and may reduce the incidence of this condition.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read and follow all directions and precautions on this product label.

USE RESTRICTIONS: Apply this product once every 30 days unless a retreatment is necessary. Do not make the retreatment sooner than 8 days after the initial treatment. Do not retreat more than once per month.

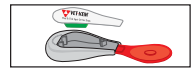
Vet-Kem® Ovitrol® X-Tend™ Flea & Tick Spot On® for Dogs works by application directly to the dog's/puppy's skin, not to the hair. When applying, use applicator device tip to push aside dog's/puppy's hair to allow direct application to the skin. Do not get this product in dog's/puppy's eyes or mouth.

FOR MEDIUM DOGS/PUPPIES

To apply this product, use one disposable liquid tube for each application with the applicator device.

1. **OPEN:** Use finger scoop to lift open red door.

2. **LOAD:** To load, place tube WHITE SIDE UP under the red tabs.

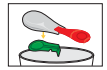


3. **CLOSE:** Close the red door and the tube will snap open.

4. **APPLY:** The dog/puppy should be standing for easy application. To apply, use tip to part hair and get next to dog's/puppy's skin. Press circle on red door once at each of three evenly placed spots between the shoulders and the base of the tail.

Do not apply an excessive amount of the solution at any one spot that could cause some of the solution to run off the side of the dog/puppy. Do not spread this product by hand over the dog/puppy. Although the dog's/puppy's skin and hair oils will distribute the application over the entire dog/puppy, brushing the dog/puppy 12-24 hours after treatment will help to distribute the material over the skin.

5. **DISPOSE:** To dispose of empty tube, open red door and drop empty tube into trash or offer for recycling, if available. Close applicator device door and store in original package.



6. **USE RESTRICTIONS:** Do not reapply product for 30 days unless retreatment is required, but not sooner than 8 days after initial treatment. Do not retreat more than once per month.

NOTE: Each package contains sufficient tubes for 3 applications.

In case of emergency or for product information, call 1-800-766-7661 or contact your veterinarian if your dog is experiencing an adverse event.

DO NOT USE ON CATS

DO NOT USE ON CATS
Keep cats away from treated dogs/puppies for 24 hours. If applied to a cat or ingested by a cat, contact your veterinarian immediately.
