ULTRATHON™
INSECT REPELLENT
clothing & gear

One treatment lasts up to **6 WEEKS**

Repels & kills mosquitoes & ticks

ACTIVE INGREDIENT:
*PERMETHRIN.....0.50%
OTHER INGREDIENTS...99.50%
TOTAL 100.0%
*CIS/TRANS RATIO: MIN 35% (+/-) CIS AND MAX 65% (+/-) TRANS.

KEEP OUT OF REACH OF CHILDREN
CAUTION: Peel open label for additional precautions.

NET CONTENTS 8 FL OZ (236mL)

DO NOT APPLY TO SKIN

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **PRECAUTIONS AND RESTRICTIONS:** Do not apply this product in a way that will contact children, either directly or through drift. Except when applying to clothing, do not allow adults or pets to enter until sprays have dried. Do not apply this product in a way that will contact children, either directly or through drift. Except when applying to clothing, do not apply this product in a way that will contact adults or pets, either directly or through drift. Do not make applications during rain. **GENERAL CLOTHING INSTRUCTIONS** Shake well before using. This product must not be applied to clothing while it is being worn. Under no circumstances should bare skin or clothing on the body be treated. Do not treat underwear, hats, caps or inner clothing. Make all applications outdoors. For protection against ticks (including those which may carry Lyme disease), chiggers and mosquitoes, apply product as directed. For further protection, use in conjunction with an insect repellent registered for direct application to skin and applied to uncovered exposed areas and utilize the following primary preventive measures. Avoid walking in areas where the pests are found, wear appropriate protective clothing (light-colored, long sleeved shirt and long pants tucked into socks) and inspect body daily for ticks. Pant cuffs should be worn inside the socks or footwear to ensure full protection against ticks and chiggers. **INITIAL TREATMENT INSTRUCTIONS:** A test application should be made to fabric in an inconspicuous area before use. **1.** Select a well-ventilated outdoor area protected from wind and lay out the clothing to be treated (a complete outfit is shirt, pants and socks). **2.** Turn the sprayer nozzle to unlock. Hold container about 6-8 inches from surface of the clothing and spray to lightly moisten the entire surface of the fabric. **3.** Continue spraying over entire outfit, until the outer surface of the fabric is moist enough to cause a slight color change or darkening. Pay special attention to socks, pant cuffs and shirt cuffs. **4.** Turn the clothing over and treat the other side as described in Steps 2 & 3. **5.** Hang the treated clothing and allow to dry for at least 2 hours (4 hours under humid conditions) before wearing. **6.** Six ounces will treat one complete outfit.

INITIAL TREATMENT INSTRUCTIONS:

A test application should be made to fabric in an inconspicuous area before use.

1. Select a well-ventilated outdoor area protected from wind and lay out the clothing to be treated (a complete outfit is shirt, pants and socks).
2. Turn the sprayer nozzle to unlock. Hold container about 6-8 inches from surface of the clothing and spray to lightly moisten the entire surface of the fabric.
3. Continue spraying over entire outfit, until the outer surface of the fabric is moist enough to cause a slight color change or darkening. Pay special attention to socks, pant cuffs and shirt cuffs.
4. Turn the clothing over and treat the other side as described in Steps 2 & 3.
5. Hang the treated clothing and allow to dry for at least 2 hours (4 hours under humid conditions) before wearing.
6. Six ounces will treat one complete outfit.

INITIAL TREATMENT INSTRUCTIONS ON NETS, TENTS, SLEEPING BAGS AND BACKPACKS: Do not treat inside of sleeping bag. Spray exterior surfaces of tent only. Select a well-ventilated outdoor area protected from wind and lay out article to be treated. Hold container upright about 6-8 inches from surface of the article and spray to lightly moisten the surface of the fabric. Continue spraying over entire article, until the outer surface of the article is moist enough to cause a light color change or darkening. Turn the article over and treat the other side as described above. Hang the treated article and allow to dry for at least 2 hours (4 hours under humid conditions) before using.

RETREATMENT INSTRUCTIONS:
This product contains an active ingredient which actually binds to the fabric being treated, providing residual protection which lasts for six weeks, and holds up through several machine washings. **DO NOT RETREAT CLOTHING (OR ARTICLES) MORE THAN ONCE EVERY TWO WEEKS. LAUNDER CLOTHING AT LEAST ONCE BEFORE RETREATING.** For re-treatment, follow instructions for initial treatment.

PRECAUTIONARY STATEMENTS

Hazards To Humans & Domestic Animals

Caution: Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Do not use on humans.

Environmental Hazards

This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

FIRST AID	
If swallowed:	▪ Call a poison control center or doctor immediately for treatment advice. ▪ Have person sip a glass of water if able to swallow. ▪ Do not induce vomiting unless told to by a poison control center or doctor. ▪ Do not give anything to an unconscious person.
If inhaled:	▪ Move person to fresh air. ▪ If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. ▪ Call a poison control center or doctor for further treatment advice.
If on skin:	▪ Take off contaminated clothing. ▪ Rinse skin immediately with plenty of water for 15-20 minutes. ▪ Call a poison control center or doctor for treatment advice.
If in eyes:	▪ Hold eye open and rinse slowly and gently with water for 15-20 minutes. ▪ Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. ▪ Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-364-3577 for emergency treatment information.

STORAGE & DISPOSAL

Do not contaminate water or food by storage or disposal.

Pesticide Storage: Store in a cool dry area away from children and pets.

Pesticide Disposal and Container Handling: If empty: Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
