

CA-IR-20

Ref: Exhibit 401.

Please provide a listing of the normal and emergency ratings (in Amps) of each 138 kV transmission line on HECO's system. An Excel spreadsheet or other appropriate document is suitable for this listing.

HECO Response:

See attached page 2. The information requested is confidential because of concerns regarding the security of the transmission grid. This information will be provided to the Commission and the Division of Consumer Advocacy under an appropriate protective order.
