DOCKET NO. 05-0069**

HREA-KIUC-IR-3 On pages 6 to 7, has KIUC conducted energy audits for all of its customers? If not, what percentage of the audits has been completed, and are there plans to continue to completion?

RESPONSE: **KIUC has not conducted energy audits for all of its customers. KIUC and its predecessor KE performed 1,135 commercial energy audits from the inception of DSM in 1998 to December 31, 2005. Although not defined as "audits", during the same period, 7,592 home visits were provided to residential customers.**

A fairly significant portion of KIUC's total customer base has received an energy audit; however, an exact percentage is unknown at this time. Due to the cost and labor intensive nature of performing an audit, the number of audits performed in a given year is limited, based upon the approval of KIUC's DSM cost recovery. As a result, KIUC offers commercial audits on a first come, first serve basis to any customer that requests participation in KIUC's Commercial Retrofit Program (CRP) up to the point that annual funding is expended. KIUC plans to continue requesting funding approval for the CRP, which includes performing audits, as long as this DSM program remains beneficial to KIUC's members.
