6/ Median household and family income data for Maui County, Maui Island, Molokai Island, and Kauai Island were computed by the Hawaii State Data Center.

7/ Data are based on the U.S. poverty thresholds. Poverty status was determined for all persons except institutionalized persons, persons in military group quarters and in college dormitories, and related individuals under 15 years old. These groups also were excluded from the denominator when calculating poverty rates. (Thresholds in Hawaii are about 15 percent higher; these statistics accordingly understate the prevalence of poverty in Hawaii).

8/ Includes Kalawao County.
