## A BILL FOR AN ACT

RELATING TO THE PRACTICE OF NURSING.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that it is in the  
2 interest of the health, safety, and welfare of the citizens of  
3 the State that the practice of nursing be subject to regulation  
4 and controls to assure that nurses at all levels are qualified  
5 and competent and that only qualified persons are permitted to  
6 engage in the practice of nursing. The legislature further  
7 finds that the practice of nursing, as defined in this Act,  
8 merits the confidence of the public. The legislature recognizes  
9 that the practice of nursing is continually evolving in response  
10 to changes within the health care system.

11           SECTION 2. Chapter 457, Hawaii Revised Statutes, is  
12 amended by adding six new sections to be appropriately  
13 designated and to read as follows:

14           "§457- Practice of nursing. (a) Nursing is a  
15 scientific process founded on a body of professional knowledge.  
16 It is a learned profession based on an understanding of the  
17 human condition across the lifespan of a client and the  
18 relationship of a client with others and within the environment.

1 It is also an art dedicated to caring for others. The practice  
2 of nursing means assisting clients in attaining or maintaining  
3 optimal health, implementing a strategy of care to accomplish  
4 defined goals within the context of a client-centered health  
5 care plan, and evaluating responses to nursing care and  
6 treatment. Nursing is a dynamic discipline that is continually  
7 evolving to include more sophisticated knowledge, technologies,  
8 and client care activities. Nursing applies evidence-based  
9 practice to promote optimal client outcomes.

10 (b) The scope of nursing practices established in this  
11 chapter and by the rules of the board shall serve as general  
12 guidelines and are not intended to address the appropriateness  
13 of the use of specific procedures in any particular work setting  
14 or to grant permission to implement specific procedures in any  
15 particular work setting.

16 §457- Application of National Council of State Boards of  
17 Nursing Model Nursing Practice Act and Model Nursing  
18 Administrative Rules. (a) In accordance with chapter 91, the  
19 board shall adopt the provisions of the NCSBN Model Nursing  
20 Practice Act and Model Nursing Administrative Rules relating to  
21 the scope and standards of nursing practice for registered  
22 nurses, licensed practical nurses, and advanced practice

1 registered nurses and shall adopt any subsequent modifications  
2 adopted by the Delegate Assembly of the NCSBN; provided that the  
3 board shall not be required to adopt rules or provisions that  
4 the board finds are inappropriate or inapplicable.

5 (b) If the board finds that any rule or provision of the  
6 NCSBN is inappropriate or inapplicable, the board shall state  
7 clearly in the record of the board's proceedings the board's  
8 rationale for rejecting or modifying the NCSBN's model rules.

9 (c) The NCSBN shall have no legal authority over the board  
10 and shall have no legal authority or powers of oversight of the  
11 board in the exercise of its powers and duties authorized by  
12 law.

13 §457- Registered nurse. Practice as a registered nurse  
14 means the full scope of nursing, regardless of compensation or  
15 personal profit, that incorporates caring for all clients in all  
16 settings and is guided by the scope of practice authorized by  
17 this chapter, the rules of the board, and nursing standards  
18 established or recognized by the board including but not limited  
19 to:

20 (1) The National Council of State Boards of Nursing Model  
21 Nursing Practice Act, Article II, Scope of Nursing  
22 Practice, Section 2; and

1        (2) The National Council of State Boards of Nursing Model  
2        Nursing Administrative Rules, Chapter Two, Standards  
3        of Nursing Practice, Sections 2.2.2 through 2.2.6;  
4        provided that NCSBN shall have no legal authority over the board  
5        and shall have no legal authority or powers of oversight of the  
6        board in the exercise of its powers and duties authorized by  
7        law.

8        §457- Licensed practical nurse. Practice as a licensed  
9        practical nurse means the directed scope of nursing practice,  
10       regardless of compensation or personal profit, that takes place  
11       under the direction of a registered nurse, advanced practice  
12       registered nurse, licensed physician, or other health care  
13       provider authorized by the State, and is guided by the scope of  
14       practice authorized by this chapter, the rules of the board, and  
15       nursing standards established or recognized by the board  
16       including but not limited to:

17       (1) The National Council of State Boards of Nursing Model  
18       Nursing Practice Act, Article II, Scope of Nursing  
19       Practice, Section 3; and

20       (2) The National Council of State Boards of Nursing Model  
21       Nursing Administrative Rules, Chapter Two, Standards  
22       of Nursing Practice, Sections 2.3.1 through 2.3.3;

1 provided that NCSTN shall have no legal authority over the board  
2 and shall have no legal authority or powers of oversight of the  
3 board in the exercise of its powers and duties authorized by  
4 law.

5 §457- Advanced practice registered nurse. (a) Practice  
6 as an advanced practice registered nurse means the scope of  
7 nursing in a category approved by the board, regardless of  
8 compensation or personal profit, and includes the registered  
9 nurse scope of practice. The scope of an advanced practice  
10 registered nurse includes but is not limited to advanced  
11 assessment and the diagnosis, prescription, selection, and  
12 administration of therapeutic measures including over the  
13 counter drugs, legend drugs, and controlled substances within  
14 the advanced practice registered nurse's role and specialty-  
15 appropriate education and certification.

16 (b) The advanced practice registered nurse's scope of  
17 practice supersedes the registered nurse's scope of practice.  
18 Advanced practice registered nurses shall practice within  
19 standards established or recognized by the board and be guided  
20 by the scope of practice authorized by this chapter, the rules  
21 of the board, and nursing standards established or recognized by  
22 the board including but not limited to:

1        (1) The National Council of State Boards of Nursing Model  
2        Nursing Practice Act, Article II, Scope of Nursing  
3        Practice, Section 4; and

4        (2) The National Council of State Boards of Nursing Model  
5        Nursing Administrative Rules, Chapter Two, Standards  
6        of Nursing Practice, Section 2.4.1;

7        provided that NCSBN shall have no legal authority over the board  
8        and shall have no legal authority or powers of oversight of the  
9        board in the exercise of its powers and duties authorized by  
10       law.

11       (c) An advanced practice registered nurse shall comply  
12       with the requirements of this chapter; recognize limits of the  
13       advanced practice registered nurse's knowledge and experience  
14       and planning for the management of situations that exceed the  
15       scope of authorized practice; and consult with or refer clients  
16       to other health care providers, as appropriate.

17       §457- Delegation. (a) A registered nurse may delegate  
18       nursing care tasks, functions, and activities to unlicensed  
19       assistive personnel in a manner that is appropriate to the level  
20       of knowledge and skill of the unlicensed assistive personnel;  
21       provided that the delegation of tasks, functions, and activities  
22       complies with applicable federal and state laws; and provided

1 further that the practice-pervasive functions of assessment,  
2 evaluation, and nursing judgment shall not be delegated.

3 (b) The delegating nurse is responsible for individually  
4 assessing the patient and the situational circumstances and for  
5 ascertaining the competence of the delegatee before delegating  
6 any task, function, or activity. The delegating nurse shall  
7 supervise, monitor, evaluate, and follow-up on instructions to a  
8 delegatee after delegating any task, function, or activity. The  
9 delegatee shall assume liability for accepting the delegation  
10 and for the delegatee's own actions in carrying out the  
11 delegated task, function, or activity.

12 (c) When delegating a task, function, or activity, a  
13 delegating nurse shall use the NCSBN delegation decision-making  
14 process as a model for decision-making. The delegating nurse  
15 shall consider and carefully analyze:

- 16 (1) Patient needs and circumstances;  
17 (2) Qualifications of the proposed delegatee;  
18 (3) The nature of the delegating nurse's delegation  
19 authority set forth in this chapter;  
20 (4) The delegating nurse's personal competence in the area  
21 of nursing relevant to the task, function, or activity  
22 to be delegated; and

1 assistant or advanced practice registered nurse with  
2 prescriptive authority as described in section 453-5.3 or [~~an~~  
3 ~~advanced practice registered nurse with prescriptive authority~~  
4 ~~as described in section]~~ 457-8.6."

5 SECTION 5. Section 457-2, Hawaii Revised Statutes, is  
6 amended to read as follows:

7 "§457-2 Definitions. (a) As used in this chapter unless  
8 the content otherwise requires:
