ADDENDUM TO SUPPLEMENTARY PUBLIC REPORT  
on  
HAUULA BEACH HOMES  
REGISTRATION NO. 505

1. Since the issuance of the Commission's Final Public Report on Registration No. 505 dated March 3, 1973, the foregoing Supplementary Public Report was issued as a result of a revision in the project by the construction of an additional residential unit. To reflect such additional unit the Developer has amended the Declaration of Horizontal Property Regime, which amendment was filed in the Office of the Assistant Registrar of the Land Court as Document No. 615371, and a copy of which amendment is on file with the Commission. The Developer has now informed the Commission that a Second Amendment of Declaration of Horizontal Property Regime has been filed with said Office of the Assistant Registrar on November 21, 1973, as Document No. 658338. Said Second Amendment relates to the number of buildings in the project which was increased from the original four (4) buildings to five (5) buildings, the fifth building being the additional residential unit constructed by the Developer.

2. The Supplementary Public Report issued by the Commission on this registration fully reflects the revision to the project by the construction of an additional unit, except that said Supplementary Public Report does not indicate the filing of said Second Amendment of Declaration of Horizontal Property Regime (Document No. 658338).

3. Because the Supplementary Public Report fully reflects the revision to the project, except as above mentioned, the Commission has decided that the Second Amendment of Declaration of Horizontal Property Regime and the filing thereof may be reflected and shown in this Addendum to Supplementary Public Report and that the issuance of a further Supplementary Public Report is not required.

This Addendum to Supplementary Public Report is made part of Registration No. 505 filed with the Commission on December 18, 1972.

This Addendum when reproduced should be a true copy of the Commission's Addendum. The paper stock in making facsimiles must be pink.
