GENERAL INFORMATION ON CONDOMINIUMS

A condominium is a special form of real property. To create a condominium in Hawaii, the requirements of Hawaii's *"Condominium Property Act"* (Chapter 514A, Hawaii Revised Statutes) must be followed.

If you are a typical condominium apartment owner, you will have two kinds of ownership: (1) ownership in your individual apartment; and (2) an undivided interest in the common elements.

Common elements are the areas of the condominium project other than the individual apartments. They are owned jointly by all apartment owners and include the land, either in fee simple or leasehold, and those parts of the building or buildings intended for common use such as foundations, columns, roofs, halls, elevators, and the like. Your undivided interest in the common elements cannot be separated from ownership of your apartment.

In some condominium projects, some common elements are reserved for the exclusive use of the owners of certain apartments. These common elements are called limited common elements and may include parking stalls, patios, lanais, trash chutes, and the like.

You will be entitled to exclusive ownership and possession of your apartment. Condominium apartments may be individually bought, sold, rented, mortgaged, or encumbered, and they may be disposed of by will, gift, or operation of law.

Your apartment will, however, be part of the group of apartments that comprise the condominium project. Study the Declaration, Bylaws, and House Rules. These documents contain important information on the use and occupancy of apartments and the common elements as well as the rules of conduct for owners, tenants, and guests.

Some condominium projects are leasehold. This means that the land or the building(s) and other improvements are leased to the buyer. The lease for the land usually requires that at the end of the lease term, the lessees (apartment owner/tenant) deliver their interest in the land to the lessor (fee property owner). The lease also usually requires that the lessees either (1) convey to the lessor the building(s) and other improvements, including any improvements paid for by the lessees; or (2) remove or dispose of the improvements. The leases for individual apartments often require that at the end of the lease term, the lessee deliver to the lessor the apartment, including any improvements placed in the apartment by the lessee.

Operation of the Condominium Project

The Association of Apartment Owners is the entity through which apartment owners may take action with regard to the administration, management, and operation of the condominium project. Each apartment owner is automatically a member of the Association.

The Board of Directors is the governing body of the Association. Unless you serve as a board member or an officer, or are on a committee appointed by the board, your participation in the administration and operation of the condominium project will in most cases be limited to your right to vote as an apartment owner. The Board of Directors and officers can take certain actions without a vote of the owners. Some of these actions may significantly impact the quality of life for all apartment owners.

Until there is a sufficient number of purchasers of apartments to elect a majority of the Board of Directors, it is likely that the developer will effectively control the affairs of the Association. It is frequently necessary for the developer to do so during the early stages of development and the developer may reserve certain special rights to do so in the Declaration and Bylaws. Prospective buyers should understand that it is vitally important to all apartment owners that the transition from developer to owner control be accomplished in an orderly manner and in a spirit of cooperation.

IV. ADDITIONAL INFORMATION NOT COVERED ABOVE

Prospective Purchaser:

This is a condominium project, not a subdivision. Units purchased are not subdivided lots. You will be required to comply with zoning codes to be allowed to construct a residence on your limited common element.

To determine whether your expectations can be realized, you should carefully review this Report, especially Exhibit D, a summary of recorded Protective Covenants and Restrictions for Kilauea Farms Subdivision. Among other things, the Protective Covenants and Restrictions state what you may and may not do with the property, what is required of you, and what is and is not available. You should also conduct your own investigations and ascertain the validity of information provided. There is an Architectural Review Committee which must approve of all building plans. Please remember that issuance of this Report does not mean the Real Estate Commission has approved the project.

The County of Kauai Planning Department has advised that, in order to process the necessary permits for the construction of a farm dwelling and the processing of a farm dwelling agreement, authorization from at least 75% of the legal and equitable ownership of the entire project shall be required, consistent with the Declaration of Condominium Property Regime, the Bylaws, and Kilauea Farms Subdivision Protective Covenants and Restrictions.

Except as limited specifically by the Declaration of Condominium Property Regime, the Bylaws and Kilauea Farms Subdivision Protective Covenants and Restrictions, all uses permitted in the agricultural zone are permitted. Such uses include, but are not limited to growing crops, raising animals, residence, diversified agriculture, forestry, orchards and nurseries and wildlife management. See Kauai County Comprehensive Zoning Ordinance, Article 8.7.

With reference to page 10 of this report, specifically the permitted uses of buildings and other improvements, structures shall only be occupied or used for agriculture, associated residential uses, and/or other uses permitted under the Kauai County Zoning Ordinances and the Protective Covenants and Restrictions (Exhibit D), herein referenced. An agricultural residence may not be constructed unless the Unit Owner demonstrates to the County his ability to derive income and/or agricultural products from his property. Agricultural use must be established and verified prior to any building permit approval.

Developer advises that a flood study provided to Kauai County will not permit construction of a third dwelling until such is approved. Unit 1 will not be allowed to construct a residence.

Please see cautionary and advisory letter from Kauai County Planning Department attached as Exhibits J and K. Please also see Peter Taylor's letter re: inspection of structures, Exhibit L.

A buyer should understand that all development and use of the properties shall comply with all County Codes and Ordinances, that owners in this condominium project will not necessarily receive the same County benefits as owners of approved subdivided lots, and that owners who develop their properties later than others may find that insufficient utility capacities may thwart their expectations.

Buyer's Right to Cancel Sales Contract:

A. Rights Under the Condominium Statute:

Preliminary Report: Sales made by the Developer are not binding. A prospective buyer who cancels the sales contract is entitled to a refund of all moneys paid, less any escrow cancellation fee up to $250.00.

Supplementary Report to a Preliminary Report: Same as for Preliminary Report.

Final Report, Supplementary Report to a Final Report: Sales made by the Developer are binding if:

1. The Developer delivers to the buyer a copy of:
   a. Either the Final Public Report OR the Supplementary Public Report which has superseded the Final Public Report;
      AND
   b. Any other public report issued by the Commission prior to the date of delivery, if the report was not previously delivered to the buyer and if the report has not been superseded;
2. The buyer is given an opportunity to read the report(s); and
3. One of the following has occurred:
   a. The buyer has signed a receipt for the report(s) and waived the right to cancel; or

Subject: Comments on Waiakalua Plantation Condominium Report
Registration No. 2034 at Kilauea, Kauai, Hawaii
Tax Map Key: 5-1-05:31

After reviewing the subject document, we have the following comments to offer:

The amount of limited common elements as described on Exhibit "C" does not correspond to the allowable unit density permitted by the CZO. The subject property is zoned Agriculture District (A) and Open District (O) and qualifies for two (2) units.

When applying for Zoning Permits with the Planning Department, the owners must be made aware that 75% of the owners, or their assignee, are required to sign the permit form(s). Should an assignee be designated, such assignee shall present proof of authorization from the 75% of the owners at the time a permit is applied for. This is a requirement because the Planning Department does not recognize the Condominium Report to be a legal subdivision of land.

The uses on the limited common elements shall be limited to those listed as permissible within the "A" Agricultural District in the State Land Use Commission Rules and Regulations. Farm dwellings on the lot shall mean a single-family dwelling located on and used in connection with a farm or where agricultural activity provides income to the family occupying the dwelling.

EXHIBIT J

There should be a disclosure provision written into this and all ensuing condominium reports stating that approval of the report should not be misconstrued to mean that all County Codes and Ordinances have been complied with. Subsequent development and use shall comply with all applicable County Codes and Ordinances. It should also be made clear that the Horizontal Property Regime (HPR) does not necessarily mean that all County requirements pertaining to subdivision of lands have been met. Therefore, such facilities/improvements that are normally associated with County-approved subdivisions such as fire protection devices, County street lighting, electricity, upgraded water facilities, improved access for owner and emerging traffic, drainage facilities, etc., may not necessarily be provided for. Further, such services as County street maintenance and trash collection will not be available for interior road/roadways.

Because there are more than one farm dwelling proposed, the landowners pursuant to the County Farm Dwelling Agreement, should be made aware that any dwelling(s) constructed after the first one will require an inspection of the property by the Planning Department to verify whether agricultural activities are being conducted on the property. If not, such permits to construct additional farm dwellings could be denied.

SUBJECT: Zoning Refinement for TMK: 5-1-05:28 & 31
at Kilauea, Kauai

As discussed earlier with the owners of the subject properties along with their attorney, it was determined that the Open District (O) zoned there is based on flood constraints. In order to refine the Open zone on our 1000 scale zoning maps to its exact boundaries for the purpose of determining residential densities, a flood study would be required. It is our understanding that you have been retained to conduct a flood study for that purpose.

To verify the contents of your flood study, we have referred the matter to the Engineering Division of the Public Works Department. We have recently been notified by the Engineering Division that your flood study has been accepted. As a result, we are notifying you that the boundaries of the Open zone for the subject properties will be refined to follow the flood zone defined and approved in your flood study.

The breakdown of zoning and allowable residences for the subject property are now defined as follows:

	FORMER ZONING		REFINED ZONING		DWELLING UNITS PRESENTLY
TMK	Open	Agriculture	Open	Agriculture	ALLOWED
5-1-05:28	9.83	0.23 acres	2.6	7.4 acres	3 units
31	6.623	3.38 acres	5.07	4.93 acres	3 units

Dear Ms. Saito,

Re: Waiakalua Plantation Condominium

Please let this letter serve as correction to our letter of October 19th, 1989, through a clerical error Units 1 and 2 were inverted and the shed sizes were shown incorrectly.

The following information is correct:

Unit #1 - Wooden agricultural shed - 113 sq. ft.
Unit #2 - Metal agricultural shed - 90 sq. ft.

The balance of the report is correct.

Very truly yours,

Peter N Taylor.
