### Additional Disclosures

In addition to all other disclosures made in this public report, the Real Estate Commission advises prospective purchasers of the following:

1. Fair Housing Act Exemption.

It is intended that this project be exempt from the Fair Housing Act, 42 U.S.C. 3601, et seq., and applicable HUD regulations (24 C.F.R., Part 100) under the exemption for housing for older persons. To preserve the character of the Project as an active adult community, the project documents provide that the project shall be operated for occupancy by at least one person fifty-five (55) years of age or older per apartment; provided, however, that such requirement shall be deemed satisfied if at least eighty percent (80%) of the apartments are occupied by at least one person fifty-five (55) years of age or older or such other percentage as may be permitted by the Fair Housing Act. This public report, however, does not constitute any determination by the Real Estate Commission regarding the Fair Housing Act.

2. Phasing of Project/Maintenance Fees.

This is a phased project. The current phase provides for the construction of forty-four(44) residential apartment units. The developer, Keauhou Kona Associates, a Hawaii general partnership, has reserved the right to develop up to two hundred eighteen (218) additional apartments over several phases. The estimated maintenance fee and the estimated monthly cost of the 44 apartments is calculated on the assumption that all phases totaling 262 residential apartments are completed. It is further stated in the project documents, that until such time as all proposed phases are completed or the developer determines not to construct additional phases, the developer will be responsible for paying any difference between the actual maintenance costs for the project and the maintenance fee multiplied by forty-four (44). This public report, however, does not constitute an approval of the developer's statements nor is there any assurance that the developer will pay the maintenance fee.

As additional phases are developed, an apartment owner's percentage of ownership in the project's common elements will decrease.

A prospective purchaser should carefully examine the project documents which may affect the purchaser's expectations.

## GENERAL INFORMATION ON CONDOMINIUMS

A condominium is a special form of real property. To create a condominium in Hawaii, the requirements of Hawaii's "Condominium Property Act" (Chapter 514A, Hawaii Revised Statutes) must be followed.

If you are a typical condominium apartment owner, you will have two kinds of ownership: (1) ownership in your individual apartment; and (2) an undivided interest in the common elements.

Common elements are the areas of the condominium project other than the individual apartments. They are owned jointly by all apartment owners and include the land, either in fee simple or leasehold, and those parts of the building or buildings intended for common use such as foundations, columns, roofs, halls, elevators, and the like. Your undivided interest in the common elements cannot be separated from ownership of your apartment.

In some condominium projects, some common elements are reserved for the exclusive use of the owners of certain apartments. These common elements are called limited common elements and may include parking stalls, patios, lanais, trash chutes, and the like.

You will be entitled to exclusive ownership and possession of your apartment. Condominium apartments may be individually bought, sold, rented, mortgaged, or encumbered, and they may be disposed of by will, gift, or operation of law.

Your apartment will, however, be part of the group of apartments that comprise the condominium project. Study the Declaration, Bylaws, and House Rules. These documents contain important information on the use and occupancy of apartments and the common elements as well as the rules of conduct for owners, tenants, and guests.

Some condominium projects are leasehold. This means that the land or the building(s) and other improvements are leased to the buyer. The lease for the land usually requires that at the end of the lease term, the lessees (apartment owner/tenant) deliver their interest in the land to the lessor (fee property owner). The lease also usually requires that the lessees either (1) convey to the lessor the building(s) and other improvements, including any improvements paid for by the lessees; or (2) remove or dispose of the improvements. The leases for individual apartments often require that at the end of the lease term, the lessee deliver to the lessor the apartment, including any improvements placed in the apartment by the lessee.

### Operation of the Condominium Project

The Association of Apartment Owners is the entity through which apartment owners may take action with regard to the administration, management, and operation of the condominium project. Each apartment owner is automatically a member of the Association.

The Board of Directors is the governing body of the Association. Unless you serve as a board member or an officer, or are on a committee appointed by the board, your participation in the administration and operation of the condominium project will in most cases be limited to your right to vote as an apartment owner. The Board of Directors and officers can take certain actions without a vote of the owners. Some of these actions may significantly impact the quality of life for all apartment owners.

Until there is a sufficient number of purchasers of apartments to elect a majority of the Board of Directors, it is likely that the developer will effectively control the affairs of the Association. It is frequently necessary for the developer to do so during the early stages of development and the developer may reserve certain special rights to do so in the Declaration and Bylaws. Prospective buyers should understand that it is vitally important to all apartment owners that the transition from developer to owner control be accomplished in an orderly manner and in a spirit of cooperation.

The provisions of these documents are intended to be, and in most cases are, enforceable in a court of law.

- D. House Rules. The Board of Directors may adopt house rules to govern the use and operation of the common elements and individual apartments. House rules may cover matters such as parking regulations, hours of operation for common facilities such as recreation areas, use of lanais, keeping of pets, and occupancy limits. These rules must be followed by owners, tenants, and guests. They do not need to be recorded or filed to be effective. The initial house rules are usually adopted by the developer.

The House Rules for this condominium are:

- Proposed                       Adopted
- Developer does not plan to adopt house rules.

E. Changes to Condominium Documents

Changes to the Declaration, Condominium Map, and Bylaws are effective only if they are duly adopted and recorded and/or filed. Changes to House Rules do not need to be recorded or filed to be effective.

The future phases will be developed on additional land by one of the following procedures:

1. The lot on which the first phase is located will be consolidated with abutting land, creating a larger lot. An additional phase will then be constructed on the undeveloped portion of the larger lot. The same procedure will be followed for future phases.
