GENERAL INFORMATION ON CONDOMINIUMS

A condominium is a special form of real property. To create a condominium in Hawaii, the requirements of Hawaii's "Condominium Property Act" (Chapter 514A, Hawaii Revised Statutes) must be followed.

If you are a typical condominium apartment owner, you will have two kinds of ownership: (1) ownership in your individual apartment; and (2) an undivided interest in the common elements.

Common elements are the areas of the condominium project other than the individual apartments. They are owned jointly by all apartment owners and include the land, either in fee simple or leasehold, and those parts of the building or buildings intended for common use such as foundations, columns, roofs, halls, elevators, and the like. Your undivided interest in the common elements cannot be separated from ownership of your apartment.

In some condominium projects, some common elements are reserved for the exclusive use of the owners of certain apartments. These common elements are called limited common elements and may include parking stalls, patios, lanais, trash chutes, and the like.

You will be entitled to exclusive ownership and possession of your apartment. Condominium apartments may be individually bought, sold, rented, mortgaged, or encumbered, and they may be disposed of by will, gift, or operation of law.

Your apartment will, however, be part of the group of apartments that comprise the condominium project. Study the Declaration, Bylaws, and House Rules. These documents contain important information on the use and occupancy of apartments and the common elements as well as the rules of conduct for owners, tenants, and guests.

Some condominium projects are leasehold. This means that the land or the building(s) and other improvements are leased to the buyer. The lease for the land usually requires that at the end of the lease term, the lessee (apartment owner/tenant) deliver their interest in the land to the lessor (fee property owner). The lease also usually requires that the lessees either (1) convey to the lessor the building(s) and other improvements, including all improvements paid for by the lessees; or (2) remove or dispose of the improvements. The leases for individual apartments often require that at the end of the lease term, the lessee deliver to the lessor the apartment, including all improvements placed in the apartment by the lessee.

Operation of the Condominium Project

The Association of Apartment Owners is the entity through which apartment owners may take action with regard to the administration, management, and operation of the condominium project. Each apartment owner is automatically a member of the Association.

The Board of Directors is the governing body of the Association. Unless you serve as a board member or officer, or are on a committee appointed by the board, your participation in the administration and operation of the condominium project will in most cases be limited to your right to vote as an apartment owner. The Board of Directors and officers can take certain actions without a vote of the owners. Some of these actions may significantly impact the quality of life for all apartment owners.

Until there is a sufficient number of purchasers of apartments to elect a majority of the Board of Directors, it is likely that the developer will effectively control the affairs of the Association. It is frequently necessary for the developer to do so during the early stages of development and the developer may reserve certain special rights to do so in the Declaration and Bylaws. Prospective buyers should understand that it is vitally important to all apartment owners that the transition from developer to owner control be accomplished in an orderly manner and in a spirit of cooperation.

If a residence is not already constructed, you will be required to comply with zoning codes to be allowed to construct a residence on your limited common element. To determine whether your expectations can be realized, you should carefully review this Report. Among other things, such restrictions state what you may and may not do with the property, what is required of you, and what is and is not available. You should also conduct your own investigations and ascertain the validity of information provided. If there is an Architectural Review Committee, it must approve all building plans.

Please remember that issuance of this Report does not mean the Real Estate Commission has approved the project.

The County of Kauai Planning Department has advised that, in order to process the necessary permits for the construction on a Unit, authorization from at least 75% of the legal and equitable ownership of the entire property shall be required, consistent with the Declaration of Condominium Property Regime, the Bylaws and the Protective Covenants and Building Rules, sometimes referred to as the "Project Documents."

Except as limited specifically by the Project Documents all uses permitted in the Residential Zone are permitted. See Kauai County Comprehensive Zoning Ordinance.

With reference to page 10 of this report, specifically the permitted uses of buildings and other improvements, structures shall only be occupied or used for residential and associated uses, and those uses permitted under the Kauai County Zoning Ordinance and the Project Documents herein referenced.

Subject: Certification of Inspection of Existing Buildings for
Elepaio Condominium at Kekaha, Kauai

Please accept our apologies for this belated response and any inconvenience generated.

The developer of the above-mentioned condominium project ("project") has requested that this office, as an agency of the County of Kauai, review the project for compliance with all ordinances, codes, rules, regulations and other requirements of the County of Kauai (Section 514A-39, HRS). Subject to the disclosures and waiver (item "c" below) specified herein, we certify the following:

- a. The developer has contracted a private engineer, contractor/architect or other qualified individual to certify that the project is in compliance with all ordinances, codes, rules, regulations and other requirements in force at the time of its construction, and to that extent, and subject to the condition of waiver herein, the Planning Department adopts that certification as it pertains to our requirements.
- b. We have no record of any zoning variances that have been granted on the subject property.
- c. WAIVER

The foregoing certification is not a warranty as to any aforementioned compliance, nor a representation as to the condition of

the property in question. No rights against the County of Kauai shall arise as a result of this certification. The sole reason for the execution hereof being to comply with statutory requirements relating to the regulation of condominiums under Subsection 514(A), HRS. This certification shall not be misconstrued to guarantee that all County Codes and Ordinances have been complied with. Subsequent development and use shall comply to all applicable County Codes and Ordinances. It should also be noted that the Condominium Property Regime (CPR) does not mean that all County requirements pertaining to subdivision of lands have been met. Therefore, such facilities/improvements that are normally associated with County approved subdivisions such as fire protection devices, County street lighting, electricity, upgraded water facilities, improved access for owner and emergency traffic, drainage facilities, etc., will not be provided. Further, such services as County street maintenance and trash collection will not be available for interior roads and driveways, if any.

Please note that the condominiumization of the property does not create separate lots with separate interests. Should you have any questions, please contact Keith Nitta or Bryan Mamaclay of my staff at 245-3919.

Subject: Comments on Elepaio Condominium Report
Tax Map Key: 1-3-10:24
Kekaha, Kauai

After reviewing the subject document, we have the following comments to offer:

The amount of limited common elements corresponds to the allowable unit density permitted by the CZO. The subject property is zoned Residential District (R-4) and qualifies for two (2) units.

When applying for Zoning Permits with the Planning Department, the owners must be made aware that 75% of the owners, or their assignee, are required to sign the permit form(s). Should an assignee be designated, such assignee shall present proof of authorization from the 75% of the owners at the time a permit is applied for. This is a requirement because the Planning Department does not recognize the Condominium Report to be a legal subdivision of land.

There should be a disclosure provision written into this and all ensuing condominium reports stating that approval of the report should not be misconstrued to mean that all County Codes and Ordinances have been complied with. Subsequent development and use shall comply with all applicable County Codes and Ordinances. It should also be made clear that the Horizontal Property Regime (HPR) does not necessarily mean that all County

requirements pertaining to subdivision of lands have been met. Therefore, such facilities/improvements that are normally associated with County-approved subdivisions such as fire protection devices, County street lighting, electricity, upgraded water facilities, improved access for owner and emerging traffic, drainage facilities, etc., may not necessarily be provided for. Further, such services as County street maintenance and trash collection will not be available for interior road/driveways.

Should you have any questions, please feel free to contact Bryan Mamaclay of my staff at 245-3919.

This office has inspected Units No.1 & 2 and improvements located thereon of the "ELEPAIO CONDOMINIUM" TMK: (4th Div): 1-3-10: Parcel 23, to wit:

Unit No.1	Single Storey House,	15 years of age.
Unit No.2	Shade Building,	15 years of age.

The inspection has included the exterior roof, foundations, visible electrical and plumbing systems, and I find as follows:

1. Due to the age of the structures, no records of the County of Kauai Planning Department or Building Division currently exist, which show approved plans or specifications for the improvements on Units No.1 & 2.
2. The improvements appear to be constructed in the manner described in the drawings constituting the condominium file plan for "Elepaio Condominium" including specifically Units No.1 & 2.
3. The systems and components of the improvements, including visible structural, electrical and plumbing, appear to be in satisfactory condition for the stated age thereof and appear to be in sound condition.
4. Without conducting invasive examinations of covered plumbing, electrical and structural components, the improvements appear to be constructed in conformity with the County of Kauai Rules and Regulations applicable to construction at the time of construction thereof, including specifically Units No.1 & 2.
