GENERAL INFORMATION ON CONDOMINIUMS

A condominium is a special form of real property. To create a condominium in Hawaii, the requirements of Hawaii's *"Condominium Property Act"* (Chapter 514A, Hawaii Revised Statutes) must be followed.

Some condominium projects are leasehold. This means that the land or the building(s) and other improvements are leased to the buyer. The lease for the land usually requires that at the end of the lease term, the lessees (apartment owner/tenant) deliver their interest in the land to the lessor (fee property owner). The lease also usually requires that the lessees either (1) convey to the lessor the building(s) and other improvements, including any improvements paid for by the lessees; or (2) remove or dispose of the improvements. The leases for individual apartments often require that at the end of the lease term, the lessee deliver to the lessor the apartment, including any improvements placed in the apartment by the lessee.

If you are a typical condominium apartment owner, you will have two kinds of ownership: (1) ownership in your individual apartment; and (2) an undivided interest in the common elements.

Common elements are the areas of the condominium project other than the individual apartments. They are owned jointly by all apartment owners and include the land, either in fee simple or leasehold, and those parts of the building or buildings intended for common use such as foundations, columns, roofs, halls, elevators, and the like. Your undivided interest in the common elements cannot be separated from ownership of your apartment.

In some condominium projects, some common elements are reserved for the exclusive use of the owners of certain apartments. These common elements are called limited common elements and may include parking stalls, patios, lanais, trash chutes, and the like.

You will be entitled to exclusive ownership and possession of your apartment. Condominium apartments may be individually bought, sold, rented, mortgaged, or encumbered, and they may be disposed of by will, gift, or operation of law.

Your apartment will, however, be part of the group of apartments that comprise the condominium project. Study the Declaration, Bylaws, and House Rules. These documents contain important information on the use and occupancy of apartments and the common elements as well as the rules of conduct for owners, tenants, and guests.

Operation of the Condominium Project

The Association of Apartment Owners is the entity through which apartment owners may take action with regard to the administration, management, and operation of the condominium project. Each apartment owner is automatically a member of the Association.

The Board of Directors is the governing body of the Association. Unless you serve as a board member or an officer, or are on a committee appointed by the board, your participation in the administration and operation of the condominium project will in most cases be limited to your right to vote as an apartment owner. The Board of Directors and officers can take certain actions without a vote of the owners. Some of these actions may significantly impact the quality of life for all apartment owners.

Until there is a sufficient number of purchasers of apartments to elect a majority of the Board of Directors, it is likely that the developer will effectively control the affairs of the Association. It is frequently necessary for the developer to do so during the early stages of development and the developer may reserve certain special rights to do so in the Declaration and Bylaws. Prospective buyers should understand that it is vitally important to all apartment owners that the transition from developer to owner control be accomplished in an orderly manner and in a spirit of cooperation.

IV. ADDITIONAL INFORMATION NOT COVERED ABOVE

This is a condominium project, not a subdivision. Therefore, units purchased are not subdivided lots. If a residence is not already built, you will be required to comply with zoning codes to be allowed to construct a residence on your limited common element. To determine whether your expectations can be realized, you should carefully review this Report.

You should also conduct your own investigations and ascertain the validity of information provided. Please remember that issuance of this Report does not mean the Real Estate Commission has approved the project.

The County of Kauai Planning Department has advised that, in order to process the necessary permits for the construction and the processing of a farm dwelling agreement on agriculturally zoned parcels, authorization from at least 75% of the legal and equitable ownership of the entire project shall be required, consistent with the Declaration of Condominium Property Regime and the Bylaws. Except as limited specifically by the project documents of record, all uses permitted in the Agricultural Zone are permitted. Such uses include, but are not limited to growing crops, raising animals, residence, diversified agriculture, forestry, orchards and nurseries and wildlife management. See Kauai County Comprehensive Zoning Ordinance, Article 8.7. In relation to specifically permitted uses of buildings and other improvements, structures shall only be occupied or used for agriculture, associated residential uses, and/or other uses permitted by law and the recorded project documents. An agricultural residence may not be constructed unless the Unit Owner demonstrates to the County his ability to derive income from his property, established and verified prior to any building permit approval.

Please see the advisory letter from the Kauai County Planning Department attached as Exhibit I.

A buyer should understand that development and use of the properties shall comply with all County Codes and Ordinances. If County of Kauai facilities are not already in place, the prospective purchaser is advised that owners in the project will not necessarily receive the same County benefits as owners of approved subdivided lots; owners who develop their properties later than others may find that land use and zoning changes or insufficient utility capacities may thwart their expectations. Zoning and land use restrictions are subject to change and each purchaser should maintain awareness of such conditions.

Subject: Comments on Secret Cove Condominium Report
Tax Map Key:5-2-05:31
Kilauea, Kauai
LOTR:01/21/92

After reviewing the subject document, we have the following comments to offer:

The amount of limited common elements proposed corresponds to the allowable unit density permitted by the CZO. The subject property is zoned Agriculture District (A) and qualifies for two (2) units.

When applying for Zoning Permits with the Planning Department, the owners must be made aware that 75% of the owners or their assignee, are required to sign the permit form(s). Should an assignee be designated, such assignee shall present proof of authorization from the 75% of the owners at the time a permit is applied for. This is a requirement because the Planning Department does not recognize the Condominium Public Report to be a legal subdivision of land.

The uses on the limited common elements shall be limited to those listed as permissible within the "A" Agricultural District in the State Land Use Commission Rules and Regulations. Farm dwellings on the lot shall mean a single-family dwelling located on and used in connection with a farm or where agricultural activity provides income to the family occupying the dwelling.

EXHIBIT I

There should be a disclosure provision written into this and all ensuing condominium reports stating that the report should not mean that all County Codes and Ordinances have been complied with. Subsequent development and use shall comply with all applicable County Codes and Ordinances. It should also be made clear that the Condominium Public Report does not necessarily mean that all County requirements pertaining to subdivision of lands have been met. Therefore, such facilities/improvements that are normally associated with County-approved subdivisions such as fire protection devices, County street lighting, electricity, upgraded water facilities, improved access for owner and emergency traffic, drainage facilities, etc., may not necessarily be provided for. Further, such services as County street maintenance and trash collection will not be available for interior road/driveways.

Because there are more than one farm dwelling proposed/permitted, the landowners pursuant to the County Farm Dwelling Agreement, should be made aware that any dwelling(s) constructed after the first one will require an inspection of the property by the Planning Department to verify whether agricultural activities are being conducted on the property. If not, such permits to construct additional farm dwellings could be denied.

Should you have any questions, please feel free to contact Bryan Mamaclay of my staff at 245-3919.
