## The Reserve Study Is An Important Part Of Your Annual Budget

Your budget is made up of two distinct parts...*Operations* and *Reserves*:

### Operations

The Operations side of your budget is the "*projected*" monies you will need on a monthly basis to pay for all of your expenses throughout the new fiscal year. It also takes into account those projects that you have planned on completing during the new fiscal year based on your *Reserve Study*.

### Reserves

Hawaii state condominium law (HRS 514A-514B) requires you to have a minimum *20 year plan* for the replacement for all common elements/components associated with your property. You must "reserve" monies for the replacement of all common elements/components based on their "life expectancy". Furthermore, you must have 100% of the money set aside for those elements/components that you intend to replace during the designated replacement year. Each year Certified Management Inc. Account Executive provides you with a Reserve Study update as a major component of your annual budget package.

### **A Reserve Study should consist of:**

- Component Inventory
- Condition Assessment
- Life and Valuation Estimates
- Fund Status
- Funding Plan

### **Keep in mind....**

- A Reserve Study is an essential part of your Annual Budget (15% to 40%).
- It provides an "educated estimate" to help you determine what kind of funding you will need to meet your association's fiscal requirements/goals.
- It is required by state law (HRS Chapter 514A-83.6) that you have a Reserve Study in place for your association.
- The Board of Directors should be proactively involved in the review and assessment of the updated annual Reserve Study.
- The Board of Directors must approve any changes to a Reserve Study.
- Certified Management Inc. strongly recommends that you have a Level 1 Reserve Study performed every 3-5 years by an accredited Reserve Specialist (RS).
