REMARKS:

In June, 2008, the Office of Conservation and Coastal Lands (OCCL) received a written request from property owner Mr. Stanley Dunn for assistance in resolving an encroachment on State lands seaward of his private property. This encroachment is situate at 1045 Front Street Lahaina, Maui, Hawaii and further identified by Tax Map Key Number (2) 4-5-003:025. The subject area was surveyed and the encroachment (seawall footing) was determined to encumber 124 square feet of State land seaward of Mr. Dunn's property.

Per OCCL response letter dated July 7, 2008, to Mr. Stanley Dunn, OCCL staff was unable to locate any construction permit or other land use authorization permits for the subject improvements and none were provided by Mr. Dunn. However, aerial photographs provided evidence that the encroachment was in existence prior to 1963 and had not been altered. Therefore, because the structure had been in place before the inception of the Conservation District rules, DLNR did not consider the encroachment a Conservation District violation and did not ask for an after-the-fact Conservation District Use Application to resolve this matter.

The OCCL is not requesting that any fines be imposed with regards to the subject encroachment. OCCL findings also indicate that there is no beach resource seaward of or near the subject parcel.

With regards to Public Access, OCCL staff determined that public access is unlikely to be enhanced by the removal of the encroaching seawall footing due to the fact that shoreline is armored fronting the subject property and also along the coastline fronting the adjacent properties to the north and south. OCCL supports an easement request for the seawall footing, pursuant to chapter 171 of the Hawaii Revised Statutes.

Agency comments have been requested from the following agencies:

Agency	Comments
Dept of Hawaiian Home Lands	No comment received
DLNR - Historic Preservation	No comment received
County of Maui - Planning	No comment received
County of Maui - Public Works	No comment received
Office of Hawaiian Affairs	No comment received

Pursuant to the Board's action of June 28, 2002, under agenda item D-17 which established criteria for imposing fines for encroachments, staff recommends no fine as the subject encroachment has been determined to have been constructed prior to 1963 and the inception of Conservation District rules.

Mr. Dunn has not had a lease, permit, easement or other disposition of State lands terminated within the last five years due to non-compliance with such terms and conditions.

RECOMMENDATION: That the Board:

1. Authorize the subject requests to be applicable in the event of a change in the ownership of the abutting parcel described as Tax Map Key: (2)4-5-003:025, provided the succeeding owner has not had a lease, permit, easement or other disposition of State lands terminated within the last five (5) years due to non-compliance with such terms and conditions.
2. Subject to the Applicant fulfilling all of the Applicant

requirements listed above, authorize the issuance of a term, non-exclusive easement to the Stanley Gerald Dunn Revocable Living Trust covering the subject area for use, maintenance and repair of a seawall, and its footing under the terms and conditions cited above, which are by this reference incorporated herein and further subject to the following:

- A. The standard terms and conditions of the most current term shoreline encroachment easement document form, as may be amended from time to time;
- B. The easement shall run with the land and shall inure to the benefit of the real property described as Tax Map Key (2) 4-5-003:025, provided however: (1) it is specifically understood and agreed that the easement shall immediately cease to run with the land upon the expiration or other termination or abandonment of the easement; and (2) if and when the easement is sold, assigned, conveyed, or otherwise transferred, the Grantee shall notify the Grantee's successors or assigns of the insurance requirement in writing, separate and apart from this easement document;
- C. Review and approval by the Department of the Attorney General; and
- D. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.
- E. Any shoreline hardening policy that may be adopted by the Board prior to execution of the grant of easement.

Respectfully Submitted,

 Larry Pacheco
Land Agent

EXEMPTION NOTIFICATION

regarding the preparation of an environmental assessment pursuant to Chapter 343, HRS and Chapter 11-200, HAR

Project Title: Grant of Term, Non-Exclusive Easement to Stanley Gerald Dunn, Trustee of the Stanley Gerald Dunn Revocable Living Trust Dated February 27, 2003 for Seawall Purposes, Lahaina, Maui, Tax Map Key:(2) 4-5-003:025 Seaward.

Project / Reference No.: 08MD-125

Project Location: Lahaina, Maui

Project Description: Grant of easement to resolve encroachment.

Chap. 343 Trigger(s): Use of state land via grant of easement, location in the Conservation District

Exemption Class No.: In accordance with Hawaii Administrative Rules, Section 11-200-8(A), the subject project is considered to be exempt from the preparation of an environmental assessment pursuant to Exemption Class No. 4, that states: "Minor alterations in the conditions of land, water, or vegetation".

| _ Consulted Parties: The Office of Conservation and Coastal Lands was consulted as a source authority having jurisdiction or expertise in this matter.

Exemption Item Description
from Agency Exemption List: N/A

This exemption applies since issuing an easement to allow the structure to remain in place will result in no change to the conditions of land, water and vegetation. As evidenced by aerial

photographs, the structure has been in existence prior to 1963 and has not been altered. As the structure has been in place for a significant period of time, its continued existence through the issuance of an easement should not have any further cumulative impact on the surrounding environment.

Recommendation:

It is anticipated this project will probably have minimal or no significant effect on the environment and is presumed to be exempt from the preparation of an environmental assessment.
