Subject RE: Legacy Land Conservation Program Application

Aloha Molly,

Sorry it has taken so long to respond to your questions; Dale had the answer to one of them and he was on vacation this past week. Anyway, for your first question, Glenn Kunihisia is currently doing an appraisal of the 78 acres we intend to purchase. When this is finalized, I can send a copy of the report to you. Regarding the community plan designation, the Nu'u property is designated as both conservation and agriculture. Let me know if there are any other points to clarify. I am out in the field most of the time, so my number is 357-7739. Also, it turns out I will be on O'ahu tomorrow, so if it would be more productive to meet in person to discuss our proposal, I would be happy to do so.

Mahalo

Scott

Subject: Legacy Land Conservation Program Application

Hi Scott,

Thanks for your application to the Legacy Land Conservation Program, it looks like MCLT has a great project! I'll be updating you on the progress of the Commission's recommendations to the Board of Land and Natural Resources, and contacting you if/when the Commission or the Board request additional information on your project.

Regarding your application, there are two issues that could use clarification:

- How did MCLT determine its fair market value estimate?
- What is the community plan designation of the property? (The application lists the community plan, but not the designation.)

Please give me a call if you have any questions.

Thanks,

Molly Schmidt
