My name is Senator Bob Hogue, and I have had the privilege to serve two-full terms as a Hawaii State Senator, representing district 24 (Kailua, Kaneohe). Throughout the six years at the legislative (2000-2006), I have participated in various legislative committees including Commerce, Consumer Protection & Housing, Education & Military Affairs, Media, Arts, Science & Technology, Higher Education, Judiciary & Hawaiian Affairs, and Health & Human Services. I was also named the Minority Floor Leader. I have worked diligently for the people of Hawaii.

Aside from my senatorial responsibilities, I have also been very active in various community programs and services including the American Heart Association, the American Cancer Society, Hawaii Arthritis Foundation, the Pohai Nani Advisory Board, and an active volunteer in community sports.

My experience in the legislative process, along with my commitment to serving the people of Hawaii has prompted me to run for Congress. I'm running because Hawaii needs someone to balance our congressional delegation. We need someone in Congress who can relate to the every day needs of our average citizens – from paying the rent to paying taxes. More importantly, I'm running as someone who is concerned about the negative message we hear from Congress these days – the rancor and the partisanship does little to instill confidence from the voters back home.

I hope to be Hawaii's positive voice in Congress. I pledge to communicate with my constituents back home and work together with other members of Congress to solve the challenging issues that confront us.
