CLOROX
TOTAL 360TM
DISINFECTANT CLEANER

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS:
1 GAL (128 FL OZ) 3.78 L

ACTIVE INGREDIENTS
Chlorine Dioxide0.200%
Alkyl (60% C14, 30% C16, 5% C12, 5% C18)
dimethyl benzyl ammonium chloride0.125%
Alkyl (68% C12, 32% C14)
dimethyl ethylbenzyl ammonium chloride0.125%
OTHER INGREDIENTS:.....99.550%
TOTAL:100.000%

NI-32623

- ✓ Ready-to-use spray to easily disinfect
- ✓ Kills 99.9% of bacteria and viruses*
- ✓ Eliminates tough odors
- ✓ Sanitizes soft surfaces

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Test fabric for color fastness. Contains a dilute oxidizing agent. Do not mix with vinegar or acidic cleaners. Always refer to manufacturer's care instructions before using equipment or devices.

PRE-CLEANING INSTRUCTIONS: Remove gross filth and heavy soil by cleaning. Spray Clorox Commercial Solutions® Clorox® Total 360™ Disinfectant Cleaner straight onto soils, scrub and wipe clean with a dry paper towel or cloth.

TO DISINFECT HARD, NONPOROUS SURFACES: For disinfecting pre-cleaned hard, nonporous surfaces such as glass, plastic, painted wood, laminate, chrome, stainless steel, polyurethane-coated hardwood floors, glazed ceramic tile, sealed concrete and linoleum floors. Types of items include: Exterior of appliances, bed frames, cabinet handles, wheelchairs, child car seats, counters, cribs, doorknobs, tables, tubs, exterior toilet surfaces, faucet handles, handrails, jungle gyms, keyboards, light switch covers, patio furniture, showers, sinks, stovetops, telephones, toys, walls, waste containers. Apply product full strength to pre-cleaned hard, nonporous surfaces, wetting thoroughly with spray. Allow surfaces to remain wet for 5 minutes for virus inactivation – 10 minutes for bacteria disinfection.

This product may be used to pre-clean or decontaminate critical or semicritical medical devices prior to sterilization of high-level disinfection. This product is not to be used as a terminal sterilant/high-level disinfectant on any surface of instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

To Deodorize: This product works by oxidation, not by masking of odors. Eliminates odors caused by fire smoke, tobacco smoke, musty odors, stale cooking odors. Simply spray on full strength and let air dry to provide long-lasting residual deodorizing action. Product must come into contact with the cause of the odor to be effective. For pet urine stains in carpet, blot urine as dry as possible, then saturate stain with product through carpet pad.

To Sanitize Soft Surfaces: Hold bottle upright 6"-8" from surface. Spray until fabric is wet. DO NOT SATURATE. Let stand for 5 minutes. Allow to air dry. For difficult odors or heavy fabrics, repeat application. Gross, heavy soil must be removed prior to sanitizing.

To Spot Clean Carpet: Spray on soiled area until wet. Gently blot area with a clean, damp, color-safe cloth. Repeat as needed for stubborn stains. Let air dry.

TO PREVENT MOLD OR MILDEW ON FLOORS, WALLS, CEILING & FABRIC: Remove as much surface dirt, mold or mildew as possible by cleaning. Then spray on this product from a distance of 12 inches until visibly wet and let air dry.

To Disinfect Food Processing Premises: Floors, walls and storage areas, hold container 6"-8" from the surface to be treated and spray area until it is covered with the solution. Allow this product to penetrate and remain wet for 10 minutes. Heavily soiled areas must be pre-cleaned before using this product. Food products and packaging materials must be removed or carefully protected prior to using this product.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HBV and HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS: KILLS HIV-1, HBV AND HCV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Human Hepatitis B Virus, and Human Hepatitis C Virus. When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks and eye coverings.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to Federal, State and local regulations for infectious waste disposal. **CONTACT TIME:** Allow surfaces to remain wet for 5 minutes.

TO PRE-CLEAN INSTRUMENTS PRIOR TO TERMINAL STERILIZATION/HIGH-LEVEL DISINFECTION: AS A PRECLEANING SPRAY – Place instruments into a suitable container. Spray this product onto instruments to thoroughly wet all surfaces. Let stand for up to 10 minutes. Rinse instruments. Follow with an appropriate disinfection process. Cleaning of critical and semi-critical devices must be followed by an appropriate terminal sterilization/high-level disinfection process.

FIRST AID: If in eyes: Hold eye open and rinse slowly with water 15–20 min. Remove contact lenses after first 5 min. and continue rinsing. Call a Poison Control Center or doctor for treatment advice. Have product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

STORAGE AND DISPOSAL: Store in original closed container in a cool, dry, place away from heat and open flame. Do not allow product to become overheated in storage. Avoid prolonged storage temperature above 90°F. This may cause increased degradation of the product, which will decrease product effectiveness. Nonrefillable. Do not reuse or refill this container unless the directions for use allow a different (concentrated) product to be diluted in the container. **CONTAINER DISPOSAL:** Rinse and offer empty container for recycling. If recycling is not available, discard container in trash. Wastes resulting from the use of this product may be disposed of onsite or at an approved waste disposal facility. Discard excess or used product solution in drain with running water. NO PHOSPHATES.

Organisms:

Disinfection Bacteria 10-minute contact time: *Pseudomonas aeruginosa, Acinetobacter baumannii, Staphylococcus aureus (MRSA), Listeria monocytogenes, Legionella pneumophila, Salmonella enterica, Staphylococcus aureus, Klebsiella pneumoniae (NDM-1), Escherichia coli*

***Disinfection Virus 5-minute contact time:** Rotavirus, Hepatitis C Virus (Bovine Viral Diarrhea Virus), Hepatitis B Virus (Duck Hepatitis), Norovirus (Feline Calicivirus), Swine Influenza (H1N1), Respiratory Syncytial Virus, Human Immunodeficiency Virus (HIV-1), Influenza B Virus, Hepatitis A Virus

†To Sanitize Soft Surfaces 5-minute contact time: *Staphylococcus aureus, Enterobacter aerogenes*

Mildewstat 10-minute contact time: *Aspergillus niger*
