10 coils

Directions for use

It is a violation of Federal law to use this product in a manner inconsistent with its labelling.
Use outdoors in semi-confined areas such as porches, patios and similar areas where there is little or no breeze. The coils' effectiveness and duration are affected by airflow. Separate coils by gently pulling them apart. Insert coil onto stand. Light the outer end of the coil and let it flame approximately 1/8 inch. Blow out the flame and allow coil to smolder until extinguished. For shorter periods of use, break coil into desired length. Place on non-combustible surface and keep lighted coils away from flammable materials, surfaces or objects. For best results evenly space coils approximately 8-10 feet apart around perimeter of area to be protected. Cover exposed food to avoid contamination. Save the stands for future use.

Gently flex and separate interlocked coils. | Bend tab straight up. | Insert tab firmly into coil slot. Ignite coil then blow out flame.

STORAGE: Store in a cool, dry, preferably locked area inaccessible to children and pets and away from sources of heat or ignition.
DISPOSAL: If empty: Non-refillable container, do not reuse or refill this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. **Used coils:** Put ashes in trash.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
CAUTION: Avoid prolonged inhalation. Do not touch lit end of coil. Do not use indoors. Thoroughly wash hands with soap and water after use.

First Aid
If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
Have product container or label with you when calling a poison control center or doctor, or going for treatment.

Environmental Hazards
This product is toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain do not blow or wash pesticide away from the treatment area.
