ThermaCELL®

Mini Mosquito Repellent Lantern

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

- Remove one ThermaCELL® Mosquito Repellent mat from wrapper.
- Make sure the on-off button is in the "OFF" (out) position. Insert the mat under the grill at the top of the lantern.
- Remove the butane cartridge cap and screw cartridge into the opening in the lantern base by turning the cartridge clockwise until it stops. Make sure the cartridge is fully inserted.
- Push the on-off button to the 'ON' (in) position; the gas will begin to flow.
- Wait approximately 5 to 10 seconds then depress the 'START' button three to five times in rapid succession.
- Verify the lantern is operating (lantern will glow). If the lantern fails to glow check to make sure that the on-off button is in the 'ON' (in) position and the cartridge is fully inserted. Also check the cartridge's fuel level. If the fuel level in the cartridge is empty turn off the lantern, replace the cartridge and repeat steps 3 through 6.
- Do not touch the top of the lantern; it will be hot after a couple of minutes. To move the lantern while it is operating, pick it up by the base while holding the button on the side of the base with your thumb. This will temporarily prevent the automatic shut-off switch from extinguishing the flame when you pick up the lantern.
- When finished using the lantern, press the on-off button to the 'OFF' (out) position and verify that the lantern is no longer glowing. Allow the lantern to completely cool before storing.
- To replace a used mat, turn off lantern by pressing the on-off button to the 'OFF' (out) position and allow lantern to cool completely. Push the used mat out by inserting a fresh mat.

Allow 10 to 30 minutes, depending upon the size of the area, for product to take effect. This product works well in outdoor areas where there is minimal air movement, such as decks, unenclosed porches, patios and yards. Product may be used for outdoor camping. Use one lantern per each 225 square feet (an area 15' x 15' or 15 feet in diameter. Automatic shut-off switch if lantern tips or is lifted. Lantern provides diffused light as it repels mosquitoes, black flies, flying insects and bugs. Provides a maximum of 4 hours repellency per mat. Each mat lasts a maximum of 4 hours and each ThermaCELL® butane cartridge lasts a maximum of 12 hours. Mat turns from pale blue to white when repellent has been exhausted. Some visible vapor will appear during use; this is normal. **Use Restrictions:** Only for outdoor use as an insect repellent. Do not use indoors, in tents or in any enclosed area. Do not insert anything other than ThermaCELL® mats into the lantern. Cover or remove all exposed food. Do not leave lantern unattended or use in windy conditions. Do not expose lanterns or mats to rain. Place lantern on a flat, stable surface with the grill facing upward. Press the on-off button to the 'OFF' (out) position when not in use. Clean with a damp cloth only when the lantern is cool and inactive. Butane cartridges other than ThermaCELL® cartridges will not work in this lantern.

STORAGE AND DISPOSAL Do not contaminate water, food or feed by storage or disposal. **Pesticide Storage:** Store unused mats in original box in a cool, dry place away from children and pets. Store lantern and butane cartridges in original box in a cool, dry place away from sources of heat. **Pesticide Disposal and Container Handling:** Non-refillable container; do not refill or reuse this container. **If cartridge is empty or for used mats:** Do not reuse empty packaging, envelopes, wrappers or cartridges. Do not puncture or incinerate empty cartridges. Place in trash or offer for recycling if available. **If cartridge is partly filled or for unused mats:** Call your local solid waste agency for disposal instructions. Never place unused mats down any indoor or outdoor drain. **For unwanted lantern:** Place in trash or offer for recycling if available. Batch Code:
