INGREDIENTS

ACTIVE INGREDIENT: Trichlorfon 6.20%

OTHER INGREDIENT: 93.80%

..... 100.00%

Trichlorfon is the chemical name for Dylox®
EPA Reg. No. 72155-33 EPA Est. No. 079889-MO-001

KILLS
Cutworms, White Grubs (larvae of Chafers and Japanese Beetles), Mole Crickets, Sod Webworms, Ants, Armyworms, Chinch Bugs, Crickets, Earwigs, European Crane Flies, Grasshoppers, Leafhoppers, Millipedes, Pillbugs, and Sowbugs

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For best results, read and follow all label directions.

- BEFORE YOU USE**
Read and follow these directions when using:
- Do not apply near fish pools, ponds, streams or lakes.
 - Do not apply to waterlogged soil.
 - Do not apply with hand-held or chest mounted spreader.
 - Water grass as soon as possible after application to move product to root zone where insects feed.
 - Do not allow children or pets on treated lawn until grass has been watered and allowed to dry.

Children and pets may re-enter only after the treated area has been watered and allowed to dry.

HOW TO USE

TO CONTROL	WHEN TO APPLY
GRUBS	Apply when grubs are present.
MOLE CRICKETS	Apply when mole crickets are present.
OTHER LAWN PESTS	Apply when insects or damage first appear.
LAWNS	How Much: See Spreader Settings Adjust spreader to the proper setting (see Spreader Settings). To be sure you cover the entire area uniformly, first treat the border of the lawn then fill in the center. Make parallel passes, walking at a steady pace to ensure even distribution of the granules. Water thoroughly after applying.
FOR BEST RESULTS	<ul style="list-style-type: none"> • The best time to kill grubs is July through September, when they are young and actively feeding near the soil surface. • Water thoroughly within 24 hours after applying. • Do not mow until the granules are watered into the soil. • Avoid applying this product to waterlogged areas, as this may decrease the product's effectiveness. • You may spread this product over soil or mulch. If present, remove weed barrier before applying.

SIGNS OF DAMAGE TO LAWNS

GRUBS	White grubs cause extensive damage to lawns by feeding on grass roots. Grass turns yellow, then brown and dies. Grubs chew off roots so that the grass is easily pulled up in pieces with your hands. You can roll it back like a carpet to reveal the grubs. If patches of dead grass appeared in your lawn late last summer, check for grubs.
MOLE CRICKETS	Mole crickets often cause extensive damage by tunneling through lawns. Some species also feed on roots. Tunneling uproots the grass so it easily dries out. Lawns turn yellow, become thin, weedy and can eventually die.
OTHER LAWN PESTS	Armyworms, sod webworms and cutworms damage lawn by cutting blades of grass near the ground. Small brown patches will appear. Other lawn pests chew or suck on grass which may cause grass to be weakened or look poorly. Other lawn pests can be a nuisance outdoors.
HOW IT WORKS	This product is intended to be used when insects and grubs are present. After granules are watered in, insects are killed on contact. The active ingredient then degrades quickly.

Spreader Settings

If your spreader is not listed, please call our Consumer Service Hotline at 1-877-BayerAG (1-877-229-3724) for help. Rate for Grubs and Mole Crickets: 3 lbs. per 1,000 sq. ft. Rate for other lawn pests including Ants, Armyworms, Chinch Bugs, Crickets, Cutworms, Earwigs, European Crane Flies, Grasshoppers, Leafhoppers, Millipedes, Mole Crickets, Pillbugs, Sowbugs, and Sod Webworms: 2 lbs. per 1,000 sq. ft.

*Settings are approximate. The condition of your spreader, the speed at which you walk and uneven terrain may affect the rate of application. Calibrate your spreader according to manufacturer's directions.

TIP: 1000 sq. ft. = 20 ft. x 50 ft.
Do not use a spreader that applies granules in narrow, concentrated or uneven bands. Be sure the spreader works properly and spreads granules evenly.

IMPORTANT - Directions for Storage and Disposal

STORAGE CONDITIONS	Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet.
DISPOSAL	<p>If Empty:</p> <ul style="list-style-type: none"> • Do not reuse this container. • Place empty container in trash or offer for recycling if available. <p>If partly filled:</p> <ul style="list-style-type: none"> • Call your local solid waste agency or toll-free 877-229-3724 for disposal instructions. • Never place unused product down any indoor or outdoor drain.
