

PREFURRED ONE for cats contains Fipronil to effectively kill fleas and ticks (including those that may transmit Lyme disease). The active ingredient in **PREFURRED ONE** features a sustained release formula developed for fast acting and long lasting control of fleas, ticks, and chewing lice for 4 weeks on cats.

How to Open

1. Remove product tubes from the package.
2. Separate one tube from the others. Holding the tube with notched end pointing up and away from the face and body, cut off the narrow end at the notches with scissors.

How to Apply

1. Invert tube over cat and use open end to part cat's hair.
2. Apply contents of one tube of **PREFURRED ONE** as a spot between the shoulder blades. Squeeze tube firmly to apply all of the solution to the cat's skin.

6 Step Topical Checklist

- Read the label completely and follow directions
- Weigh your pet
- Do NOT use dog products on cats
- Do NOT treat with more than one pesticide product at a time
- Separate animals after treatment to avoid chance of ingestion
- Do NOT split tubes between pets

STORAGE AND DISPOSAL
Do not remove tube from the pack until ready to use. Store in a cool (below 77°F) dry place inaccessible to children and pets. Do not refrigerate. Protect from direct sunlight.
PESTICIDE STORAGE: Do not remove tube from the pack until ready to use. Store in a cool (below 77°F) dry place inaccessible to children and pets. Do not refrigerate. Protect from direct sunlight.
CONTAINER DISPOSAL: If empty: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

For use ONLY on Cats & Kittens Over 8 Weeks of Age

READ ENTIRE LABEL BEFORE EACH USE. USE ONLY ON CATS AND KITTENS OVER 8 WEEKS OF AGE.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS. CAUTION. Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.
HAZARDS TO DOMESTIC ANIMALS. For external use only. Do not use on kittens under 8 weeks of age. Individual sensitivities, while rare, may occur after using any pesticide product. Some cats may experience temporary startle effects when any product is applied. Cats may experience some temporary irritation at the site of product application. If signs persist, or become more severe within a few days of application, consult a veterinarian immediately. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated, debilitated or aged cats. Call 1-866-897-8050 for 24-hour assistance.

FIRST AID	
If swallowed:	Call a poison control center or a doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
If in eyes:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on skin:	Wash with plenty of soap and water. Get medical attention if irritation persists.

HOTLINE NUMBER
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact SafetyCall® International 1-866-897-8050 for emergency medical treatment information.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
DO NOT ALLOW CHILDREN TO APPLY PRODUCT. TO PREVENT HARM TO YOU AND YOUR CAT, READ ENTIRE LABEL BEFORE EACH USE. FOLLOW ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS CAREFULLY. FOR EXTERNAL USE ON CATS ONLY. DO NOT USE ON RABBITS. DO NOT USE ON OTHER ANIMALS.
 Do not use on kittens under 8 weeks of age. Do not split one tube between cats. Do not use multiple tubes on one cat. Consult a veterinarian before using this product on debilitated, aged, or medicated cats. Can be used on breeding, pregnant, or lactating female cats. Consult a veterinarian before using on cats with known organ dysfunction. Cats may experience some temporary irritation at the site of product application. Certain medications can interact with pesticides. Sensitivities may occur after using ANY pesticide product on cats. If signs of sensitivity occur bathe your cat with a mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.
How to open: Remove product tubes from the package. Separate one tube from the others. Holding the tube with notched end pointing up and away from the face and body, cut off the narrow end at the notches with scissors.
How to apply: While holding the cat with one hand, use the other hand to apply the solution. Invert the tube and use the narrow end to part the cat's hair. Apply contents of one tube of **PREFURRED ONE** as a spot between the shoulder blades. Hold the cat for a few seconds to give the solution time to be absorbed into the cat's coat. When finished, wrap the tube in paper and put into the trash. Only one applicator per treatment is needed.

FREQUENCY OF APPLICATION
Use **PREFURRED ONE** monthly for complete control of flea, tick and chewing lice infestations. Studies show that **PREFURRED ONE** kills adult fleas for up to six weeks. Apply monthly if your cat is at high risk for flea reinfestation, or in a highly infested environment. Apply monthly to control ticks and chewing lice. **PREFURRED ONE** remains effective, even after bathing, water immersion, or exposure to sunlight. Allow treated area to dry thoroughly. Do not reapply for 4 weeks. **PREFURRED ONE** can be used on breeding, pregnant and lactating female cats.
