FIRST AID

If In Eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eyes.
- Call a poison control center for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HI-YIELD® D.I.Y. INDOOR PEST CONTROL with NyLar® contains a unique combination of ingredients to provide quick knockdown and kill of the listed pests as well as an insect growth regulator which prevents immature cockroaches and fleas that are sprayed or that contact the spray residue from becoming adults. By preventing the development of adult cockroaches and fleas, the lifecycle is broken and reproduction will not occur. In the case of fleas, biting adult fleas will not result from treated immature fleas and the reproductive life cycle is broken. Treatment will last for 7 months for fleas and 4 months for cockroaches.

SHAKE WELL BEFORE USE: USE RESTRICTIONS: Do not enter or allow others to enter until sprays have dried. Do not apply when food is present. Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use. Do not wet articles to the point of runoff or drip. Do not use treated article until spray has dried. Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application. Not for broadcast use on indoor residential surfaces. Avoid contamination of food and feedstuffs. Read entire label and follow all label directions. Use this product as a spot or crack and crevice treatment to localized areas where pests are seen or suspected. Do not allow adults, children, or pets to enter the treated area until sprays have dried. Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift. Remove pets, birds, and cover fish aquariums before spraying. Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces or wash them before use. Read entire label and follow all label directions.

ANTS, COCKROACHES, CRICKETS, CENTIPEDES, FIREBRATS, PILLBUGS, SILVERFISH, SPIDERS, AND SOWBUGS: Spray pests when they are seen and spray areas suspected of harboring these pests. Spray for 14 seconds to cover 100 square feet of area. Spray ant trails and spray cracks and crevices and points of entry into the house. Pay special attention to areas behind and beneath sinks, stoves, refrigerators, garbage containers, inside cabinets, along baseboards, in cracks and crevices in walls and floors, door and window sills and frames, around drains, pipes, plumbing, bookcases, storage and utility areas, and utility installation areas. Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application. Retreatment for roaches should not be needed for 120 days. Do not apply more than 1 time per day.

CARPET BEETLES: Thoroughly vacuum rugs and carpets before treatment. Remove the vacuum bag and place it in a separate bag and dispose of in outside trash. This helps prevent reinfestation from eggs and larvae vacuumed up. Spray for 14 seconds to cover 100 square feet of area. Spray backing of carpet and rugs, focusing on low traffic areas and areas under furniture. When dry, replace on floor and spray surface of carpet and rug, focusing on low traffic areas and areas under furniture and corners of rooms. Also spray baseboards. Do not apply more than 1 time per day.

FLEAS AND TICKS: Thoroughly vacuum all carpeting and fabric covered furniture, along baseboards, under furniture, low traffic areas, and areas where pets normally rest. Pet bedding should be removed and laundered. Replace pet bedding after treatment dries. Put vacuum bag in a separate bag and dispose of in outside trash. Apply as a spot treatment to cracks and crevices, along baseboards, pet resting areas, and localized areas of floors and floor coverings where the pests are suspected. Spray for 14 seconds to cover 100 square feet of area. Do not treat pets with this product. Do not apply more than 1 time per day.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal. **Pesticide Storage:** Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

Pesticide Disposal and Container Handling: Do Not Puncture or Incinerate! Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.
