See First Aid and other precautions on inside label.
Net Contents 0.21 oz (6g) 50 Tablets (For Solution)
EPA Reg. No.79533-1 EPA Est. No. 79533-WI-1

GENERAL INFORMATION

COLEMAN® Drinking Water Purification Tablets are intended for emergency disinfection of drinking water. When used as directed, they make most water bacteriologically suitable for drinking. Used worldwide by campers, hikers, militaries, emergency organizations and anyone needing to drink water of questionable bacteriological quality. COLEMAN® Drinking Water Purification Tablets are for use only when drinking water is suspected or known to be bacteriologically substandard. Not to be used on a continuous basis. For short term or limited emergency use only.

IMPORTANT INFORMATION ON COLEMAN® DRINKING WATER PURIFICATION TABLETS

Keep cap on bottle tightly sealed. Humidity, moisture and exposure to air will reduce effectiveness of tablets. We recommend that you do not keep an opened bottle for more than one year. Unopened bottles should remain effective up to four years.

- Iodine-based compound (no chlorine).
- 2 tablets of COLEMAN® Drinking Water Purification Tablets makes 1 quart of most water bacteriologically suitable to drink.
- Uniform dosage per tablet assured – no guesswork.
- COLEMAN® Drinking Water Purification Tablets have not been shown to inactivate Cryptosporidium cysts.
