**PRECAUTIONARY STATEMENTS:** HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER: CORROSIVE:** Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS**  
This product is toxic to fish and aquatic organisms.

**STORAGE AND DISPOSAL:** STORAGE: Keep product in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. DISPOSAL: IF EMPTY: Do not reuse container. Place in trash or offer for recycling if available.

**IF PARTLY FILLED:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

Never place unused product down any indoor or outdoor drain.

**PHYSICAL OR CHEMICAL HAZARD: STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE CONTAINING GASES. DECOMPOSES AT 460° F TO 480° F WITH LIBERATION OF HARMFUL GASES.**

Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to a fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. IN CASE OF FIRE, if possible, isolate container in open air or well-ventilated area. Flood with a large volume of water. IN CASE OF CONTAMINATION OR DECOMPOSITION, do not re-seal container.

Circa 1972

## Shine n Shock

Fast Acting for Super Chlorination  
to Control Bacteria & Algae

Net Wt. 1 Lb. - (454 Kg)

TO OPEN CUT ALONG DOTTED LINE

**ACTIVE INGREDIENT:**  
Sodium Dichloro-s-triazinetriacetic Dihydrate... 99.0%

**INERT INGREDIENTS:** ..... 1.0%

**TOTAL:** ..... 100.0%

(AVAILABLE CHLORINE ..... 56.0%)

KEEP OUT OF REACH OF CHILDREN  
NO SE DEJE AL ALCANCE DE LOS NIÑOS

**DANGER PELIGRO**

**DIRECTION FOR USE**  
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**DANGER:** Never mix this concentrated chemical with any other substance except generous amounts of water.  
See CHEMICAL HAZARDS on this label.

**VINYL-LINED POOL CARE:** Vinyl lined are easily damaged by chemicals used to treat and maintain pools. POOL PALS™ "Shine n Shock" is well suited for use in these pools, especially the above-ground type which have only 3-4 foot depths and are not equipped with a bottom drain. POOL PALS™ "Shine n Shock" dissolves rapidly and completely (its easily pre-dissolved in a bucket of water to help avoid potential problems), so direct contact with liner is reduced and there are no residues to be swept or vacuumed from the bottom. POOL PALS™ "Shine n Shock" also simplifies pH control because it is pH neutral compared to other chlorinating products containing calcium hypochlorite, sodium hypochlorite, and trichloro isocyanuric acid (this is particularly important when using sodium bisulfate or dry acid to adjust pH because of its insoluble crystal-forming reaction with calcium hypochlorite). POOL PALS™ "Shine n Shock" is not sensitive to the pH of the water and will not cloud water even when superchlorinating as often occurs with calcium hypochlorite.

**SUPERCHLORINATION:** Whenever the pool water loses its sparkle or turns green or the chlorine residual falls rapidly after regular chlorination, superchlorination is recommended. Experience shows that during summer months, water should be superchlorinated with 6 oz. of POOL PALS™ "Shine n Shock" per 5,000 gallons of pool water every 10 to 14 days. Do not use the pool until the chlorine residual has dropped to 3 ppm.

FIRST AID	
If Swallowed	Call a poison control center or doctor immediately for treatment advice. Promptly drink a large quantity of water if able to swallow. <b>DO NOT</b> induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
If In Eyes	Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.
If on Skin or Clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.
If Inhaled	Move person to fresh air. If person isn't breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible. Call a poison control center or doctor immediately for treatment advice.
Have the product container or label with you when calling a poison control center or a doctor, or going for treatment. <b>Note to Physician:</b> Probable mucosal damage may contraindicate the use of gastric lavage.
