Copper Algae Eater

Algaecide

Prevents All Types of Algae

KEEP OUT OF REACH OF CHILDREN CAUTION

See side panel for first aid and additional precautionary statements

ACTIVE INGREDIENT:
Copper triethanolamine complex* ... 23.21%

INERT INGREDIENTS: 76.79%

TOTAL 100.00%

*Metallic copper equivalent, 7.00%

Contains 0.75 lbs. of elemental copper per gallon.

NET CONTENTS: 32 FL OZ (946ml)

oreq™

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

rev-b

CAUTION: Causes moderate eye irritation. Harmful if swallowed, absorbed through the skin, or inhaled. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or when going for treatment. 24-hour Emergency Hotline for Technical Assistance and MSDS 1-800-633-8253

STORAGE AND DISPOSAL:

Residential Pools: Keep this product in original, tightly closed container in an area inaccessible to children and persons unfamiliar with its use. Nonrefillable container. Do not reuse or refill this container. If Empty: Offer for recycling or wrap securely in several layers of newspaper and discard in trash. If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Commercial Pools: Do not contaminate water, food or feed by storage or disposal. **Pesticide Storage:** Keep this product in original, tightly closed container in an area inaccessible to children and persons unfamiliar with its use.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste facility. **Container Handling:** Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then, offer for recycling if available. If not, dispose of container in a sanitary landfill.

This product has been shown to be effective in controlling a broad range of algae. The triethanolamine complex used in this product prevents the precipitation of the copper with the carbonate or bicarbonates in water.

PHYSICAL AND CHEMICAL HAZARDS: Do not mix with any other chemicals. Do not use in pools where minerals present a problem.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is made especially to control algae growth in all types of swimming pools. Its long-lasting action will control existing algae. Subsequent doses will control recontamination by algae. Treated water can be used immediately...no waiting.

This product comes concentrated. Dilute with at least nine parts of water before applying. Pour required amount of this product into plastic watering can, fill with water and sprinkle around edge of pool. Apply initial treatment to a freshly filled pool or at first visible signs of algae growth.

WINTER DIRECTIONS: Use 4 fl. oz. for 10,000 gallons of pool water. Pour the required amount into a plastic watering can, fill with water, and sprinkle the diluted product around the edge of pool. For best results, the mixture must be distributed equally around the edge of the pool.

Add this product to your pool prior to closing. During the winter season check pool periodically for visible signs of algae and reapply this product if necessary.
