LICENSED

PERIOD 2014-2016 LIC. NO. 8445.5

Die Line # 222 (Thick Canister Wrap around label)

DISPENSING DIRECTIONS: To start feed, remove cover and discard seal. From the center of the wipe roll, pull up a wipe corner, twist it into a point and thread it through the hole located on the container cover. Pull through about one inch. Replace cover. Pull out first wipe and tear off at an angle. Remaining wipes feed automatically, ready for the next use. When not in use, keep center cap closed to prevent evaporation.

CLEANING AND DISINFECTION INSTRUCTIONS: Use a fresh wipe to pre-clean surfaces of all gross filth and heavy soil. Repeat as necessary until surfaces are visibly clean. To effectively disinfect the pre-cleaned surfaces, use a fresh wipe or turn the wipe over to the clean side to thoroughly wet the surfaces and allow surfaces to remain wet for the appropriate time indicated for the purpose intended.

HBV, HCV AND HIV-1 PRECAUTIONS: This product effectively inactivates HBV, HCV and HIV-1 on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surfaces/objects can be associated with the potential for transmission of HBV, HCV and/or the human immunodeficiency virus Type-1 (HIV-1) associated with AIDS.

Special instructions for cleaning and decontamination against HBV, HCV and HIV-1 of surfaces/objects soiled with blood/body fluids: Personal Protection: Wear appropriate barrier protection such as gloves, gowns, masks or eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces/objects before disinfection. **Contact Time:** Allow the surface to remain wet for 2 minutes prior to wiping. **Infectious Materials Disposal:** Cleaning materials used that may contain blood/body fluids should be autoclaved and/or disposed of in accordance with local regulations for infectious materials disposal.

This product is not to be used as a terminal sterilant or high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes, but

which does not ordinarily penetrate the blood barrier or otherwise enter sterile areas of the body. This product may be used to pre-clean or decontaminate critical and semi-critical medical devices prior to sterilization or high-level disinfection.

STORAGE AND DISPOSAL
Do not contaminate food or feed by storage or disposal.
STORAGE: Store in a cool, well-ventilated area.
PRODUCT AND CONTAINER DISPOSAL: Dispose of wipe in trash after use. Do not flush. Tightly close lid between uses to retain moisture.
NONREFILLABLE CONTAINER: Do not reuse or refill this empty container. Offer empty container for recycling. If recycling is not available, discard container in trash.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION. Harmful if inhaled or absorbed through skin. Causes moderate eye irritation. Avoid breathing vapors and contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS
DO NOT USE OR STORE NEAR HEAT OR OPEN FLAME.

FIRST AID
If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-535-5053 for emergency medical treatment information.

MCKESSON

Disposable Germicidal Surface Wipes

BACTERICIDAL | VIRUCIDAL* | TUBERCULOCIDAL | FUNGICIDAL

Active Ingredients
n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)
dimethyl benzyl ammonium chloride..... 0.154%
n-Alkyl (68% C12, 32% C14)
dimethyl ethylbenzyl ammonium chloride..... 0.154%
Isopropanol..... 21.000%
Other Ingredients..... 78.692%
Total..... 100.000%

KEEP OUT OF REACH OF CHILDREN
CAUTION
See back panel for additional Precautionary Statements.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
DO NOT USE THIS PRODUCT AS A BABY OR SKIN WIPE, OR ON CONTACT LENSES!
This product is intended for use on pre-cleaned hard, non-porous inanimate surfaces in areas where the disinfection of surfaces is required. **McKesson Disposable Germicidal Surface Wipes** effectively kill the following microorganisms at room temperature with a 2 minute contact time when used as directed: *Acinetobacter baumannii*, Avian Influenza A Virus*, Vancomycin-Resistant *Enterococcus faecium* (VRE), Hepatitis B Virus (HBV)*, Hepatitis C Virus (HCV)*, Human Immunodeficiency Virus (HIV-1)* [associated with AIDS], Herpes Simplex II Virus, [HSV 2] G Strain*, Influenza A Virus H1N1*, Influenza Virus Strain A2/Hong Kong*, *Klebsiella pneumoniae*-Carbapenem resistant, *Listeria marcescens*, *Staphylococcus aureus*, Methicillin-Resistant *Staphylococcus aureus* (MRSA), *Trichophyton mentagrophytes*.

When used as directed these wipes clean and disinfect surfaces found in autopsy rooms, bathrooms, blood centers, cadaver work areas, cardiac care labs, cardiac catheterization labs, cardiology units, central sterile supply, clean rooms, clinical areas, dialysis units, drug preparation facilities, EMS units, endoscopic rooms, extended care facilities, field hospitals, food processing facilities (non-food contact surfaces), GI laboratories, hospitals, human transport vehicles, infant care units, intensive care units, isolation rooms, laboratories, lasik centers, long-term care facilities, medical facilities (ambulances/EMS/paramedic units, blood banks, clean rooms, drug preparation rooms, emergency rooms, infant/child care units, isolation units, morgues, neonatal intensive care units, nursing homes, operating rooms, patient care areas, plasma pheresis centers, surgical centers), neonatal units, offices, ophthalmic centers, paramedic squads, pathology facilities, pheresis equipment and centers, podiatry offices, radiology centers, research laboratories, respiratory care units, skin care facilities, surgical centers and rooms, transport equipment, and areas/facilities concerned with the hazards of cross-contamination from infectious microorganisms.

This product may be used on ambulance equipment and patient care surfaces, anesthesia equipment surfaces, bassinets, bathing units, bed rails, beds, blood pressure devices, breathing masks, cabinets, changing tables, commodes, computer keyboards, counters, CPR training devices, CT equipment/surfaces, curing lights, dialysis machine surfaces, doorknobs, endoscopic devices, equipment surfaces, ER surfaces, examination tables, hard cervical collars/braces, incubators, infant care equipment (bassinets, bed railings, cribs, infant incubators-surfaces, tables, warmers (exterior surface), instrument stands, Isolettes®, kidney machines, laboratory equipment/surfaces, laminated surfaces, light lens covers, mayo stands, medical equipment surfaces/devices, microscopes, monitor knobs, monitors, MRI equipment surfaces, neonatal/nursery surfaces, nursing station surfaces, OB (obstetrical equipment) surfaces, occupational therapy devices, office fixtures, OR lights, OR surfaces, OR tables, ophthalmic equipment surfaces/devices, oxygen hoods, oxygen tents, painted surfaces, patient bed surfaces, patient care devices, patient care equipment surfaces, patient examination tables, patient stretchers, patient transport surfaces, pharmacy surfaces, physical therapy equipment (such as bars, chairs, empty whirlpool tanks, etc.), radiology equipment surfaces, rails, refrigerators (exterior surface), respiratory care equipment surfaces, respiratory therapy equipment, showers (floors/walls), sink faucets, skin care equipment/surfaces, sinks, stalls, stair chairs, stretchers, surgical equipment surfaces, surgical microscopes, tables, telephones, toilets (rims, seats and exterior surfaces), wheel chairs, X-ray equipment/surfaces, and devices/surfaces potentially contaminated with disease-causing microorganisms, and use sites made of glass, metal, Plexiglas®, plastics (i.e., polycarbonate, polypropylene, polyvinylchloride and polystyrene), baked-on painted surfaces, stainless steel and non-porous vinyl.
