DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For best results, read and follow all label directions.

BEFORE YOU USE: Read and follow directions when using. This product is not intended for application to plants or lawns. Do not spray into fish pools, ponds, streams, or lakes. Indoors, do not use as a space spray (do not spray into the air). Remove animal feeding dishes before spraying. Keep children and pets away from treated areas until spray has dried. Do not use on surfaces where food is prepared or where food is exposed. Before spraying indoors, remove birds from area and tightly cover or remove fish bowls and aquariums.

HOW TO USE: Shake Well Before Use.

Indoor Use:

Kills: Ants (except Pharaoh), Bedbugs, Carpet Beetles, Centipedes, Cockroaches, Crickets, Earwigs, Firebrats, Millipedes, Pillbugs, Silverfish, Sowbugs, Spiders, Clothes Moths, Flies, Gnats, Midges, Mosquitoes, Moths, Wasps, Yellow Jackets.

Hold container upright while spraying. Direct nozzle about 12 inches from surface to be treated. Spray around baseboards, into cracks and crevices and other places where insects live and hide (under sinks, cabinets, refrigerators, damp areas, etc.) until surfaces are wet. Avoid excessive wetting of linoleum, asphalt tiles or plastic. For long lasting residual action leave spray undisturbed. The product will keep on killing for up to 7 months. **Re-enter when spray is dry.**

FRONT OF LIFT PAGE

Outdoor Use:

Kills: Outdoor/Perimeter Pests: Ants, Bees, Boxelder Bugs, Carpenter Ants, Cecidflies, Centipedes, Clusterflies, Cockroaches, Crickets, Earwigs, Elm leaf Beetle, Fire Ants, Firebrats, Flies, Fleas, Gnats, Ground Beetles, Hornets, Imported Red Fire Ants, Midges, Millipedes, Mosquitoes, Moths, Scorpions, Silverfish, Spiders, Ticks (including Deer Ticks), Wasps, Yellow Jackets.

Kills: Wood Infesting Pests: Ambrosia Beetles, Deathwatch Beetles, Powderpost Beetles, False Powderpost Beetles, Old House Borer, Carpenter Ants, Carpenter Bees, Subterranean Termites, Formosan Termites, Drywood Termites.

Apply to exterior surfaces of the home. Spray a band 3 to 4 feet wide around and alongside the foundation and porches of the house. Treat soil, turf or walkways adjacent to foundation and porches. Also treat 1 to 2 feet up along the side of the dwelling. For more serious problems, a wider band of treatment, up to 10 feet, may be necessary. Spray with the wind to avoid drifting of the spray onto skin or clothing.

Treat where dissimilar building materials meet, such as where brick meets wood trim or where siding meets window edges or where cracks are visible or around and into any openings where utilities enter the home. Spray around doors and window frames.

Treat outside surfaces of garages, carports, patios, driveways and sidewalks if insects are present. Treat other problem areas such as around wood piles, storage sheds and other areas of insect infestation as needed. Spray on ant trails and ant hills. For wasps, hornets, yellow jackets: Application to nests should be made late in evening when insects are at rest. To aid in control of fire ants in lawns and other outdoor home recreation areas, thoroughly drench the entire mound area. Spray provides contact activity and residual in the active mound. Use a coarse spray and apply gently to avoid disturbing ants. Note: For best results apply in cool weather 65 to 80° F, or in early morning or late evening hours. Treat new mounds as they appear.

Wood Infesting Pests. For control of carpenter ants around houses and other structures, apply around doors and windows and other places where carpenter ants may enter the premises. Spray into cracks and crevices or voids where these ants or their nests are present. Use a sufficient amount of coarse spray to cover the area. For control of carpenter bees in structures, spray the liquid directly into bee entrance holes. Leave the entrance holes open for 24 hours to be certain that returning adult bees are killed. When there is no activity, the hole may be sealed with a suitable sealant. For control of termites and wood-infesting beetles found above ground, apply to voids and holes in damaged wood, and in spaces between wooden structures and between the sill plate and foundation where wood is exposed. Apply spray to exposed worker and winged reproductive forms of termites. This type of application is intended to be a supplemental treatment for control of drywood and above-ground subterranean termites and other wood-infesting insects. It is not intended as a substitute for soil treatments for termite control. For active termite infestations obtain the services of a licensed pest control operator. For control of swarming or reproductive stages of termites, apply a coarse spray to the swarm or area on which they collect.

HOME INSECT CONTROL₂

Storage and Disposal

Product Storage: Store this product in original container. Store in a dry area away from children and domestic animals.

Disposal: If empty: Do not reuse container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never pour unused product down any indoor or outdoor drain.

FIRST AID

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If Inhaled: Move person to fresh air. If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Contact a doctor or poison control center for further treatment advice.

NOTE: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also call 1-800-858-7378 for medical emergency information. Active Ingredient: Cyfluthrin 0.1% [CAS # 68359 37-5].

Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION Harmful if swallowed or inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Avoid breathing vapors or spray mist. Remove contaminated clothing and wash clothing before reuse.

Environmental Hazards

This pesticide is highly toxic to aquatic invertebrates and fish. Do not apply directly to water. Apply this product only as specified on this label.

NOTICE: Research and testing have determined that the "Directions for Use" are appropriate for the proper use of this product under expected conditions. The Buyer assumes responsibility for lack of performance or safety if not used according to the directions.
