PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. **ENVIRONMENTAL HAZARDS:** This pesticide is extremely toxic to fish and other aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treatment area will help avoid run off to water bodies or drainage systems. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area. **PHYSICAL OR CHEMICAL HAZARDS:** Do not use this product in or on electrical equipment due to possibility of shock hazard.

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by the poison control center or doctor. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE EACH USE.

USE RESTRICTIONS

- Do not allow adults, children, or pets to enter the treated area until sprays have dried.
- Do not enter or allow others to enter until vapors, mists, and aerosols have dispersed.
- Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.
- Do not apply directly into sewers or drains, or to any area like a gutter where drainage in sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- Do not apply during rain.
- Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosols, vapors, and/or mists have dispersed.

- Remove or cover exposed food and drinking water before application.
- Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces or wash them before use.

Keep container sealed when not in use. Protect from freezing. To prepare dilutions, add the required amount of concentrate to water and blend thoroughly.

DIRECTIONS FOR USE IN OUTDOOR RESIDENTIAL MISTING UNITS

For use in the manually activated ALLCLEAR® Mosquito Mister (sold separately).

- Use to control or temporarily reduce annoyance from accessible stages of: Mosquitoes including the Culex species that may carry and transmit the West Nile Virus, Flies, House Flies, Gnats, Deer Flies, Horse Flies, Small Flying Moths, Ticks and other nuisance insects.
- Do not apply this pesticide when people, pets, and food are present.
- Do not use in an evaporative cooling system.

- Allow mist to dissipate before occupying the treated area.
- System nozzles should deliver fine particle size droplets (aerosol or mist).
- Direct nozzles to spray towards the target area and away from swimming pools, water bodies, or eating and cooking areas.

This concentrated product must be diluted with water. When filling mister tank, partially fill the mister reservoir tank with water, add concentrate to tank, then add water to obtain desired solution.

For high populations of insects or when treating species that are difficult to control, mix 4.6 ounces of ALLCLEAR Mosquito Mister Concentrate PLUS to 2 gallons of water to yield a solution of 0.18% Permethrin and 0.18% Piperonyl Butoxide.

Only use this ALLCLEAR Mosquito Mister Concentrate PLUS in misters that have been calibrated to apply no more than the maximum application rate of 4.6 fl. oz. of 0.18% synergized permethrin solution per 1000 cubic feet (28 m³) per day.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE:

Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

Non-refillable container. Do not reuse or refill this container.

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
