

Set dispenser in one of its three modes: "OFF" (middle), "REMOTE ONLY" (left), and "DUSK/DAWN" + REMOTE" (right).
Off Mode: Place the 3-way power switch in the middle OFF position off whenever mosquitoes are not present or when winds exceed 5 mph or more.

Remote Only Mode: Place the 3-way power switch in the left REMOTE ONLY position to activate and dispense SKEETER DEFEATER insecticide for 4 seconds by pressing the remote button. Activate the dispenser in the REMOTE ONLY position only when mosquitoes are present. When mosquitoes are present, dispense SKEETER DEFEATER insecticide by pressing the remote control at least two but no more than four times per day.

Dusk/Dawn + Remote Mode: Place the 3-way power switch in the right Dusk/Dawn + Remote position to activate and dispense SKEETER DEFEATER insecticide for 4 seconds automatically at dusk and dawn and to dispense SKEETER DEFEATER insecticide for 4 seconds by pressing the remote button. Place the dispenser in the DUSK/DAWN + REMOTE position only when mosquitoes are present and return to the OFF or the REMOTE ONLY positions when mosquitoes are no longer present. Do not use the remote to activate the dispenser more than twice per day when in the Dusk/Dawn + Remote mode.

- To avoid exposure to people, pets, or food near the SKEETER DEFEATER Dispenser, turn dispenser to OFF mode or REMOTE ONLY mode if people, pets, or food are present during or near dusk or dawn.
- To avoid exposure to outdoor pets, use only in REMOTE ONLY mode if pets live outdoors.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool area away from heat or open flame. Aerosols work best when can temperature is above 60°F. If temperature is below 60°F, store at room temperature until a temperature above 60°F is reached.

DISPENSER STORAGE: Store dispenser and remote in a cool, dry area. Remove batteries and CRU from dispenser before long-term storage.

CONTAINER DISPOSAL: Nonrefillable container. Do not puncture or incinerate! Empty container by using the dispenser in accordance with the label directions. Offer empty container for recycling, if available, or place in trash if allowed by state and local regulations. If container is partially full, contact your local solid waste agency for disposal instructions.

DISPENSER DISPOSAL: Remove CRU and batteries from dispenser before disposing of or recycling dispenser. Offer dispenser for recycling, if available, or place in trash. Offer batteries for recycling or dispose of in accordance with state and local regulations.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with eyes, skin, or clothing. Wash hands thoroughly before eating, drinking, chewing gum, or using the toilet.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic organisms, including fish and invertebrates. Do not contaminate water when disposing of equipment, washwater, or rinsate. See Directions for Use for additional precautions and requirements. Do not apply directly to or near water. Drift and run-off may be hazardous to fish in water adjacent to treated areas.

PHYSICAL OR CHEMICAL HAZARDS

Extremely Flammable. Contents under pressure. Keep away from fire, sparks, and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product around electrical equipment due to the possibility of shock hazard.

FIRST AID

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give ANY liquid to the person. Do not give anything by mouth to an unconscious person. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information, you may call CHEMTREC® at 1-800-424-9300, or the National Pesticide Information Center at 1-800-858-7378 for emergency medical treatment information.

Note to Physician: Contains petroleum distillate.

Vomiting may cause aspiration pneumonia.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

OUTDOOR TREATMENTS

DIRECTIONS FOR HANDHELD AEROSOL APPLICATION OUTDOORS

GENERAL PRECAUTIONS AND RESTRICTIONS

- Do not apply when people, pets, or food are present.
- Use only with the supplied actuator.
- Do not spray on public, painted, or varnished surfaces or directly into any electrical or electronic equipment such as breaker boxes or fuse boxes, air conditioning units, telephone or cable boxes, etc.

APPLICATION INSTRUCTIONS

- Do not apply more than 1 time per day. Do not allow adults, children, or pets to enter the treated areas until sprays have dried. Do not apply directly to or near water, storm drains, or drainage ditches. Do not apply when windy. To prevent product run-off, do not over water the treated area(s) or apply prior to heavy rainfall.

GROUND APPLICATION (FLIES, GNATS, AND MOSQUITOES): Treat open areas near buildings and in campgrounds.

Apply at a rate of 5 to 15 seconds per 1,000 ft. Apply in swaths across area to be treated.

Allow treatment to penetrate dense foliage. Best results are obtained when wind speed is 5 MPH or less.

FLIES, CLUSTER FLIES, CLOVER MITES, MUD DAUBERS, AND WASPS: Apply mist directly on insects and their nests from approximately 18". Contacted insects will fly away from fog. Applications should be made in late evening when insects are at rest. Disperse into hiding and breeding places contacting as many insects as possible.

OUTDOOR TREATMENTS

DIRECTIONS FOR USE AS A CYLINDER REFILL UNIT IN THE SKEETER DEFEATER® DISPENSER

GENERAL PRECAUTIONS AND RESTRICTIONS

- Not for use in outdoor residential misting systems.

Follow the instructions included with the SKEETER DEFEATER Dispenser to install cylinder refill unit in dispenser.

Apply using the SKEETER DEFEATER® Dispenser.

Use only with the SKEETER DEFEATER Dispenser.

Do not apply when people, pets, or food are present.

Do not spray near electrical or electronic equipment such as breaker boxes or fuse boxes, air conditioning units, telephone or cable boxes, etc.

Do not use indoors or in enclosed spaces.

Do not use around schools.

APPLICATION INSTRUCTIONS

- For use in the supplied SKEETER DEFEATER Dispenser.
- If the cylinder refill unit came fitted with an actuator (spray nozzle), remove and discard both the cap and actuator.
- After placing Cylinder Refill Unit in SKEETER DEFEATER Dispenser, do not remove and re-use for handheld aerosol application.
- Use the SKEETER DEFEATER Dispenser only when listed pests are present.
- Always place dispenser and remote out of reach of children and pets.
- Do not enter or allow adults, children, or pets to enter until vapors, mist, and aerosols have dispersed.
- To install: Follow the instructions included with the dispenser to install the cylinder refill unit in the dispenser.
- To Use: Use in open areas near buildings (such as yards, patios, decks, porches, and gazebos) and in campgrounds. One dispenser treats outdoor areas up to 300 ft. Multiple dispensers can be used to treat the entire outdoor area to be protected, but do not use more than one dispenser for every 300 ft. of outdoor area. To kill ADULT MOSQUITOES, and to kill Cluster Flies, Small Flying Moths, and Gnats (except black gnats, black flies, and biting midges), apply using the SKEETER DEFEATER Dispenser. Hang the dispenser 6 feet above the ground, out of the reach of children and pets, or place on a sturdy flat surface 5-6 feet above the ground, out of the reach of children and pets. Direct the nozzle to spray towards the target area, and away from swimming pools, water bodies, eating and cooking areas, windows, and doors. Direct the nozzle downward, and treat when wind velocity does not exceed 5 miles per hour. Application in the evening and/or early morning is recommended.
