READ ENTIRE LABEL BEFORE EACH USE.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin and clothing.

User Safety Recommendations

- Users should wash hands with plenty of soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

FIRST AID	
If In Eyes:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-877-416-7330 for emergency medical treatment information.	

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: For Indoor Use Only. Applications to pets are prohibited. Do not allow adults, children, or pets to enter or contact the treated area until dusts have settled. Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use. Do not apply more than 0.3 oz. of this product per sq. ft. Do not apply as a broad carpet treatment. Only apply as a spot treatment to areas no greater than 3 feet by 3 feet per room. Apply to dry surfaces only. Do not wet powder. Do not apply more than once a day. Before application, close outside doors and windows. Turn off fans, air conditioners and other HVAC equipment to ensure powder remains in treated area. Cover fish aquariums before use.

Shake Container Well Before Using

One 16 ounce canister contains enough powder to treat 1 to 2 rooms (200-400 square feet). When using this product at a lower rate, allow the powder to remain in place for 24 hours before vacuuming. Apply powder more heavily to areas of flooring or furniture on which pets spend most of their time.

Carpets: Shake powder evenly across surface. Brush lightly with broom to force powder deep into carpet where fleas and their larvae exist. Wait at least 60 minutes before (lightly) vacuuming to remove visible surface powder. For maximum efficacy, delay vacuuming for up to 24 hours.

Upholstery: Remove loose cushions. Sprinkle along creases and into corners. Use a brush to lightly work powder into folds and creases. Vacuum to remove visible powder on surfaces. Do not use on exposed fabric without first testing on a hidden surface for effects on color (staining) or texture. If powder adheres to a spot, brush out and remove with a vacuum immediately.

When emptying vacuum bag after use, wrap contents or disposable bag in several layers of newspaper and discard in trash.

Treat pets with a registered flea and tick control product prior to re-entry.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in original container in a cool, dry place inaccessible to children and pets.
PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

This container is sold by weight, not by volume. You can be assured of proper weight even though some settling of contents normally occurs during transportation and handling.
