pH Neutral Disinfectant Cleaner

Antibacterial
Antimicrobial
Disinfectant-Cleaner
Sanitizer-Fungicide
Mildewstat-Virucide*
Deodorizer For Hospitals,
Institutional And Industrial Use.
Effective In Hard Water Up To 400 Ppm Hardness
(calculated as caco₃) In The Presence Of 5% Serum Contamination

ACTIVE INGREDIENT
Didecyl dimethyl ammonium chloride.............................. 3.85%
OTHER INGREDIENTS ................................................ 96.15%
TOTAL 100.00%

KEEP OUT OF REACH OF CHILDREN
DANGER
See side panel for First Aid and additional precautionary statements.
Net Contents: One Gallon (128 Fl. Oz.) 3.78 liters
Cross-contamination is of major housekeeping concern, not only in hospitals, but in schools, institutions and industry. This problem has been formulated to aid in the reduction of cross-contamination in these areas. It is a one-step disinfectant-cleaner, that is effective against a broad spectrum of bacteria. It is virucidal* (including HIV-1), fungicidal and inhibits the growth of mold and mildew and their odors, when used as directed. It is an effective one-step sanitization-cleaner for use on non-food contact surfaces. When used as directed, it will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause malodors. It is an effective fungicide against Trichophyton mentagrophytes, (the athlete’s foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities. This product is for use in hospitals, medical and dental offices, nursing homes, public rest rooms, institutions, schools, colleges, athletic facilities, food processing plants, food storage areas, kitchens, restaurants and bars, tanning salons, massage parlors, tattoo parlors, spas, airports, boats, ships, cruise lines, transportation terminals, hotels and motels. This product contains no phosphorous. It is a no-rinse, neutral pH disinfectant-cleaner that disinfects, cleans and deodorizes in one labor saving step. It can be used with mop and bucket, trigger sprayer, sponge or by soaking. This product provides effective cleaning strength that will not dull most metal-interlock floor finishes, and does not require a rinse prior to recoat. This product is a neutral pH multi-surface cleaner, deodorizer and disinfectant. Use it on the multi-touch surfaces responsible for cross-contamination. Use on washable hard nonporous surfaces: such as walls, floors, sinks, cabinets, tables, chairs, desks, telephone, door knobs, garbage cans, shower stalls, tubs and glazed tiles, bathroom floors and walls, hard nonporous surfaces of metal, stainless steel, glazed porcelain, glazed ceramic, sealed stone, plastic, acrylic and frosted acrylic surfaces, glass and enameled surfaces, vinyl and plastic furniture. Use it on finished floors, conductive flooring, and sealed concrete flooring.

Effective against Vancomycin Resistant Enterococcus faecalis (VRE) at 2 ounces per gallon, modified in the presence of 250 ppm hard water. This product is a hospital-use disinfectant at 2 ounces per gallon, modified in the presence of 250 ppm hard water and at 3 ounces per gallon, modified in the presence of 400 ppm hard water. It is bactericidal according to the AOAC Use-Dilution Test Method, virucidal* according to the Virucidal Qualification on hard inanimate surfaces, fungicidal according to the AOAC Fungicidal Test, and modified in the presence of 5% organic serum against:

- Staphylococcus aureus (Methicillin Resistant-MRSA)
- Staphylococcus aureus (Vancoemycin Intermediate Resistant-VISA)
- Proteus vulgaris
- Pseudomonas aeruginosa
- Salmonella typhimurium
- Chlamydia psittaci
- Shigella flexneri
- Escherichia coli (Methicillin Resistant)
- Enterococcus faecalis
- Acinetobacter baumannii
- Candida albicans
- *Hepatitis B (HBV)
- *HIV-1/AIDS (Virus)
- *Vaccinia
- *Rubella
- *Influenza A/P
- *Influenza A/PR
- *Chlamydia psittaci
- *Shigella sonnen
- *Staphylococcus epidermidis
- *Trichophyton mentagrophytes
- *Aspergillus niger

NOTE TO PHYSICIAN:

For HIV: Use 2 oz. of concentrate per gallon of water. Leave surface wet for 2 minutes. For HBV: Use 3 oz. of concentrate per gallon of water. Leave surface wet for 10 minutes. For disinfection against all other bacteria and fungi claimed: Use a 10 minute contact time.

Disposal of Contaminated Material: Blood, body fluids, cleaning materials and clothing must be autoclaved and disposed of according to local regulations for infectious waste material.

DIRECTION FOR USE is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Preparation of use solution: For water hardness up to 250 ppm, add 2 ounces per gallon of water; for water hardness up to 400 ppm, add 3 ounces per gallon of water, to disinfect hard non-porous surfaces. For heavy duty use, add 8 ounces per gallon of water to disinfect hard non-porous surfaces.

Disinfection/Virucidal* (Fungicidal Directions: For heavily soiled areas, a preliminary cleaning is required. Apply use-solution to hard (inanimate), non-porous surfaces, thoroughly wetting surfaces as recommended and required, with a cloth, mop, sponge or sprayer. Treated surfaces must remain wet for 10 minutes (2 minutes for disinfection against all viruses claimed except HBV). Wipe dry with clean cloth or sponge or allow surface to air dry. For sprayer applications, use a coarse spray device. Spray 6-8 inches from surface. Rub with brush, sponge or cloth. Wipe dry with clean cloth or sponge or allow surface to air dry. Do not breathe spray mist. Prepare a fresh solution daily or when use solution becomes diluted or soiled. For food contact surfaces such as counters, tables and appliances, thoroughly rinse surfaces with potable water. Do not use on dishes, glasses and utensils. This product is not for use on critical or semi-critical medical device surfaces.

Cleaning and Deodorizing: Add 1-4 ounces of product per gallon of water. Thoroughly wet surfaces with a cloth, mop, sponge or spray. Remove excess solution with a cloth or allow to air dry.

Mold and Mildew Directions: Add 2 ounces per gallon of water to control the growth of mold and mildew and their odors on hard, non-porous surfaces. Thoroughly wet all surfaces completely. Let air dry. Repeat application weekly or when growth or odor reappear.

Sanitizing Non-Food Contact Surfaces: Directions: Add 2 ounces per gallon of water to sanitize hard, non-porous environmental surfaces. Thoroughly wet surfaces with a cloth, mop, sponge or sprayer. Remove excess solution with a cloth or allow to air dry.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. Remove contaminated clothing. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. See side panel for additional precautionary statements.

STORAGE AND DISPOSAL

Store in an area inaccessible to children. Non-refillable container. Do not reuse or refill this container. Offer for recycling if available. Otherwise, wrap empty container in plastic bag and discard in trash.

For Industrial and Institutional Use Only: EPA REG. NO. 8155-24-61677

120990-1

DANGER Keep out of reach of children. Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove contaminated clothing and wash clothing before reuse.

Precautionary Statements:

Hazard to Humans and Domestic Animals

Keep out of reach of children. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove contaminated clothing and wash clothing before reuse.
