Hepastat 256™

Disinfectant Cleaner

Concentrated

Active Ingredients:
- Octyl decyl dimethyl ammonium chloride.........................................................6.510%
- Nonoxynol-10.............................................1.0%
- Polyethylene glycol (PEG)......................................................0.5%

Insert Ingredients: 1.0%

Total: 8.010%

KEEP OUT OF REACH OF CHILDREN AND ANIMALS

DIRECTIONS FOR USE

For Hospitals, Institutional and Industrial Use

Hepastat 256 is a one-step, Hospital Use disinfectant cleaner that kills 99.99% of a wide range of viruses, bacteria, fungi, and germs. It is suitable for use in hospitals, nursing homes, medical facilities, and other healthcare settings.

Before Use:
- Read the label and instructions on the Hepastat 256 container.
- Ensure the area is clean and dry.

Surface Disinfection:
- Use a 10-minute contact time for disinfection against HIV-1 and HBV or HCV on surfaces and objects.
- Use a 60-second contact time for disinfection against the Human Immunodeficiency Virus (HIV-1), Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV) on pre-cleaned items.

Cleaning Procedure:
- Dip a cloth, mop, sponge, or sprayer in the solution and use it to wet the surfaces.
- Allow the surfaces to remain wet for the required contact time.
- Wipe the surfaces dry with a cloth, sponge, or allow them to air dry.

Storage and Disposal:
- Store the Hepastat 256 container in a cool, dry place away from direct sunlight.
- Dispose of the container properly according to local regulations for hazardous waste.

Disinfectant Cleaner

**Concentrated**

**Active Ingredients:**

- Didecyl dimethyl ammonium chloride .......................................................... 3.906%
- Octyl decyl dimethyl ammonium chloride ......................................................... 6.510%
- Dioctyl dimethyl ammonium chloride............................................................... 2.604%

**Inert Ingredients:**

- Water (100.000%)

**Quick Mix**

- Net Contents: 1 GAL / 3.78 L

**Storage and Disposal**

- Store in original container in a cool, dry, well-ventilated area. Keep out of reach of children.
- Keep from freezing and do not expose to temperatures exceeding 125°F.
- This product is not to be used as a terminal sterilizing agent.
- This product is designed for use as a surface disinfectant.
- This product is not to be used as a terminal disinfectant.

**Precautionary Statements**

- **Skin and Clothing:** If skin or clothing becomes contaminated, wash immediately with soap and water using a cloth or paper towel. Change clothing if necessary.
- **In Eyes:** If in eyes, rinse immediately with plenty of water for 15 to 20 minutes. If irritation persists, seek medical attention.
- **Inhalation:** If inhaled, move to fresh air and consult a physician or poison control center immediately.

**Hazards to Humans and Domestic Animals**

For emergency information call 1-888-322-0912 (24-hours, 7 days a week).

**Disinfectant Cleaner**

**Concentrated**

- For Hospitals, Institutional and Industrial Use
- For general disinfection, when used as directed, this product is an effective disinfectant against a broad spectrum of microorganisms.
- Contains a HOST PAK® (including HIV-1, the AIDS virus and Hepatitis B Virus and other bloodborne viruses) agent that will kill Adenovirus Type 5 and type 7.

**FOR USE AS A DISINFECTANT:**

- Apply use-solution to hard, nonporous surfaces, thoroughly wet surfaces and allow to remain in contact for 1 minute (60 seconds).
- Allow to stand for 10 minutes and flush.
- OR-
- Add ½ oz. per gallon use-solution to exposed walls, non-critical medical equipment surfaces, stainless steel, glassware and dishes.
- Empty toilet bowl or urinal, and apply ½ oz. per gallon use-solution to exposed surfaces. Apply using a cloth, mop, sponge or barrier or otherwise enter normally sterile areas or instrument that [1] is introduced directly into the bloodstream or normally sterile areas of the body.
- Before use in federally inspected meat and poultry processing plants and dairies, food products must be cooled to 40°F or below.
- Household use is not recommended.

**For heavily soiled areas, apply use-solution to exposed surfaces and let stand for 2 to 5 minutes before scrubbing and rinsing.

**For Instrument Use:**

- For instrument use, this product is not to be used as a terminal sterilizing agent.
- This product is not to be used as a terminal disinfectant.

**For Instrument Use, Hospitals, Institutional and Industrial Use:**

- Apply a 10-minute contact time for disinfection against HAPESTAT 256

**For Use as a Fungicide:**

- Apply a 10-minute contact time for disinfection against HAPESTAT 256

**For Use as a Mold and Mildew Control:**

- Apply use-solution to exposed surfaces and let stand for 1 minute (60 seconds).

**FOR USE AS A DISINFECTANT/VIRUCIDAL/FUNGICIDAL/MOLD AND MILDEW CONTROL:**

- Apply use-solution to exposed surfaces and let stand for 1 minute (60 seconds).
