AEROSOL SURFACE DISINFECTANT

DISINFECTANT
MILDEWSTAT (on hard non-porous inanimate surfaces)
DEODORANT

AIR REFRESHENER

Kills 99.9% of Bacteria, Viruses & Fungi (*Staphylococcus aureus*,
Salmonella enterica, *Pseudomonas aeruginosa*, *MRSA*, *Rhinovirus*,
Influenza A2, *Norovirus*, *Feline Calicivirus*, *Trichophyton mentagrophytes*)

Kills Pandemic 2009 H1N1 Influenza A virus (formerly called swine flu)

ACTIVE INGREDIENTS

Alkyl (60% C14, 30% C16, 5% C12, 5% C18)
dimethyl benzyl ammonium chlorides.....0.1%
Alkyl (68% C12, 32% C14) dimethyl
ethylbenzyl ammonium chlorides.....0.1%
Isopropanol.....53.0%

INERT INGREDIENTS.....46.8%

Total 100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

See side panels for additional precautionary
statements.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Aerosol Surface Disinfectant is designed for use in hospitals, nursing homes, hotels, schools, and homes, where disinfection and deodorization is of prime importance. When used as directed, this product is formulated to disinfect clean, inanimate, non-porous, hard surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs, cabinets, tables, chairs, bed springs, door knobs, linen carts, hampers, wheel chairs, garbage pails, and telephones.

This product can also be used as a room air deodorizer and refreshener.

This product is not for use on medical device surfaces.

SURFACE DISINFECTION AND DEODORIZATION - For one-step disinfection, hold container six (6) inches from surface and spray area until completely wet, allowing the surface to remain wet for 10 minutes. For heavily soiled surfaces a precleaning step is required.

FOR USE IN THE HYSO AUTOMATIC DOOR HANDLE DISINFECTING SYSTEM FOR DOOR PUSH PLATE(S), DOOR KNOB(S), and DOOR LEVER(S) SURFACE DISINFECTION - Remove cap and install in unit. Dispenser unit should be mounted 6"-12" above door push plate, door knob, door lever or high touch surface. The unit will provide a controlled spray that will wet accessible parts of the door knob or lever and door push plate surface. Allow to remain wet for 10 minutes for disinfection. Use only in a well ventilated area. Avoid inhaling spray mist or vapor. Avoid contact of spray mist or vapor with skin. The unit will dispense every 15, 30 or 60 minutes. Each Aerosol Surface Disinfectant can will continue to release disinfectant for 7 to 30 days depending on the interval setting.

MILDEWSTAT - To control mold and mildew on pre-cleaned, hard, non-porous surfaces spray surface to be treated making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth appears.

AIR DEODORIZER AND AIR FRESHENER - Spray upwards to center of room for three (3) seconds.

BACTERICIDAL ACTIVITY - When used as directed, this product exhibits effective disinfectant activity against the organisms: *Staphylococcus aureus* (ATCC 6538), *Salmonella enterica* (ATCC 10708), *Pseudomonas aeruginosa* (ATCC 15442) and Methicillin Resistant *Staphylococcus aureus* (ATCC 33591) (*MRSA*) and meets all requirements for hospital use. This product kills 99.9% of bacteria on hard, non-porous inanimate surfaces.

VIRUCIDAL ACTIVITY - When used as directed, this product exhibits effective virucidal activity against the organisms: *Rhinovirus* (ATCC VR-284), *Influenza A2* (Japan/305/57)(H2N2), *Norovirus* (Norwalk Virus) and *Feline Calicivirus*. Kills Pandemic 2009 H1N1 Influenza A virus.

FUNGICIDAL ACTIVITY - This product is fungicidal against the pathogenic fungi, *Trichophyton mentagrophytes* (Athlete's Foot Fungus) (ATCC 9533), when used as directed on hard surfaces found in bathrooms, shower stalls, locker rooms, or other clean, non-porous, hard surfaces commonly contacted by bare feet.

PRECAUTIONARY STATEMENTS

with HAZARDS TO HUMANS AND DOMESTIC ANIMALS. **CAUTION KEEP OUT OF REACH OF CHILDREN.** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

yes, **FIRST AID** Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **IF IN EYES:** Hold eye open and rinse slowly with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment. You may contact 800-222-1222 for emergency medical treatment information. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

on, **PHYSICAL AND CHEMICAL HAZARDS:** Flammable! Contents under pressure. Do not use near fire, sparks, or flame. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.

STORAGE AND DISPOSAL

as a **DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.**

NG **CONTAINER DISPOSAL** – Do Not Puncture or Incinerate! Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling, if available. If partially filled: Call your local solid waste agency for disposal instructions.

(S) **PESTICIDE STORAGE** - Store in a dry place no lower in temperature than 50°F or higher than 120°F.

init **Suggested Places for Use:** Public Restroom Doors, Public Restroom Toilet Stall Doors, Hospital Patient Room Doors, School Classroom Doors, Hotel Room Doors, Dormitory Doors, Spa Doors, Theater Doors, Kitchen Doors, Daycare Facility Doors.

or **Optimal Installation:** Install the HYSO Automatic Door Handle Disinfecting System 6-12 inches above a high touch surface (door knob or push plate). To properly disinfect, the unit should be centered such that the high touch surface (door knob, door lever, or push plate) is thoroughly wetted by the released disinfectant aerosol. Only the wet area contacted by the disinfectant aerosol will be disinfected after 10 minutes.

vet **The HYSO Automatic Door Handle Disinfecting System can be manually set to spray at intervals of either 15, 30 or 60 minutes. The interval time is determined by the traffic in the location where the unit is installed. Depending on the surface, place the unit in a position where the handle will receive the maximum amount of wetness. The spray is released in a conical pattern and the unit must be positioned correctly to achieve the most coverage. Once the position has been determined, affix the dispenser to the door with either the mounting tape or screws provided. See installation positioning diagrams.**

ow **Additional Installation Instructions:** Simply install the HYSO Automatic Door Handle Disinfecting System 6-12 inches above the surface (e.g. door knob, door handle, door lever, push plate) and choose the interval time of 15, 30 or 60 minutes between sprays. The unit will spray a light mist of an EPA registered disinfecting formula that will cover the high touch accessible area of the surface. The quick drying formula will disinfect the wetted surface in 10 minutes. Each Aerosol Surface Disinfectant can will continue to release disinfectant for 7-30 days depending on the interval setting.

rea. **Additional Claims:** Aerosol Surface Disinfectant is a hospital disinfectant registered with the US EPA. The disinfectant has been shown to be effective against the following bacteria: Staphylococcus aureus, Salmonella enterica, and Pseudomonas aeruginosa. Aerosol Surface Disinfectant has been shown to kill 99.9% of these important bacteria, viruses, and fungi (microorganisms).
