DECON-CYCLE®
Sterile Pharmaceutical Clean Room Formula

Low pH Phenolic Germicidal Detergent
Effective in Hard Water up to 400 ppm (Calculated as CaCO₃)
With Organic Soil Tolerance
Tuberculocidal - Germicidal - Pseudomonacidal - Fungicidal - Virucidal*
Formulated for Effective Aseptic Controlled Environment (Clean Room) Sanitation

(SEE RIGHT PANEL FOR ADDITIONAL
PRECAUTIONARY STATEMENTS)

ACTIVE INGREDIENTS:
Ortho-Phenylphenol 8.085%
Ortho-Benzyl-para-Chlorophenol 0.050%
INERT INGREDIENTS 83.285%
Total 100.00%

**KEEP OUT OF REACH
OF CHILDREN
DANGER**

Contents: 24x1 Ounces (24x29.6 ml)

**PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals**

Corrosive. Causes eye and skin damage. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. Harmful if swallowed. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food. Remove and wash contaminated clothing.

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against shock, respiratory depression, and convulsion may be needed. Have product container or label with you when seeking medical advice or treatment.

DECON-CYCLE® is acceptable for use by pharmaceutical and biotechnology industries, medical device manufacturers, hospitals, and any health care institutions that are dedicated to controlling the hazards of cross contamination in their establishments. For use on hard, inanimate surfaces in aseptic filling and gowning rooms, general manufacturing areas, or on machinery, tables, counters, laminar flow benches, floors, walls, stainless steel, porcelain, glass, and chrome.

DIRECTION FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a terminal sterilant / high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

CLEANING AND DISINFECTION
For broad spectrum disinfection of gram negative (as demonstrated by efficacy against *Salmonella choleraesuis*) and gram positive (as demonstrated by efficacy against *Staphylococcus aureus* and *Pseudomonas aeruginosa*) bacteria, add 1/2 ounce DECON-CYCLE® per 1 gallon of water. Remove heavy soil or gross dirt then apply solution with a mop, cloth, sponge, or hand-pump trigger sprayer so as to wet surface thoroughly. Allow to remain wet for 10 minutes and then air dry. If higher detergency is desired, increase dilution to 1 ounce per gallon of water.

EFFICACY PERFORMANCE
The broad spectrum efficacy of DECON-CYCLE® has been confirmed using A.O.A.C. protocol testing at a use-dilution of 1,256 in hard water up to 400 ppm (calculated as CaCO₃) in the presence of 5% blood serum (used to simulate organic soil load), at 20°C with an exposure time of 12 minutes.

GERMICIDAL: DECON-CYCLE® is effective against a broad spectrum of Gram positive and Gram negative pathogens as confirmed by the A.O.A.C. Use-Dilution test, in hard water up to 400 ppm (calculated as CaCO₃) and in the presence of 5% organic soil load at 20°C with an exposure time of 10 minutes against the following organisms:

Staphylococcus aureus	Escherichia coli
Pseudomonas aeruginosa	Salmonella choleraesuis
Methicillin Resistant Staphylococcus aureus (MRSA)	

FUNGICIDAL: At 1/2 ounce per gallon of water, DECON-CYCLE® is also effective against Trichophyton, dermatophytes pathogens, fungi in use areas as aseptic filling and gowning rooms, and general manufacturing areas or on any other hard, non-porous, inanimate environmental surfaces.
TUBERCULOCIDAL: DECON-CYCLE® is effective against Mycobacterium bovis (BCG) as demonstrated through testing using the A.O.A.C. Method "Performance in Vitro Test for Determining Tuberculocidal Activity", in hard water up to 400 ppm (calculated as CaCO₃) and in the presence of 5% organic soil load, at 20°C with an exposure time of 10 minutes.

VIROCIDAL*
DECON-CYCLE is effective against the following viruses on hard, non-porous, inanimate surfaces, as confirmed by the A.O.A.C. use-dilution test, in hard water up to 400 ppm (calculated as CaCO₃) and in the presence of 5% organic soil load, at 20°C with an exposure time of 10 minutes: HIV-1 (AIDS virus), Herpes Simplex, Type 2, Vaccinia Virus, Influenza Virus Type A.

*KILLS HIV-1 ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, etc. In which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type-1 (HIV-1) (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS VIRUS) OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS

PERSONAL PROTECTION: Clean-up should always be done wearing protective latex gloves, gowns, masks, and eye protection.

CLEANING PROCEDURE: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant.

CONTACT TIME: Leave surface wet for 10 minutes with a 1/2 ounce per gallon use dilution (1:256), DECON-CYCLE® and water.

DISPOSAL OF INFECTIOUS MATERIALS: Blood, body fluids, cleaning materials, and clothing should be autoclaved and disposed according to local regulations for infectious waste disposal.

PELIGRO: Si no puede leer con ingles, pregunte a su supervisor sobre las instrucciones de uso apropiadas antes de manejar con este producto.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

STORAGE - Store in a securely closed original container. Avoid storage at temperature extremes or in sunlight.

PESTICIDE DISPOSAL - Securely wrap original container in several layers of news paper and discard in trash. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or residue is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA Regional office for guidance.

CONTAINER DISPOSAL - Do not reuse container, replace cap and discard container in trash. Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose in a sanitary landfill, by incineration, or, if allowed by state and local authorities by burning. If burned, stay out of smoke.

MSDS # DCY-08-01

REVISION: 12/04 DCY-03-1Z

Recorder #: DCY-03-1Z, Sterile
Quant/Case: 24x1 ounce
Contents: 1 ounces (29.6 ml)

Description: DCY-03-1Z Rev.12/09 (5" x 11")
Colors: Black, PMS 222

IMPORTANT

Please check ENTIRE proof carefully including ALL new, revised, repeat copy AND human readable barcode characters. By approval of this proof you are accepting responsibility for correctness of ALL copy contained herein.

Refer to Pantone Color Chips for accurate PMS colors. All colors print 100% unless noted.

Proof # 6 Date: 12/4/09 JH/ak/jc

Customer: Veltek Associates, Inc.

Ticket # 70323 Product # 39513
