Enforcer. *Purge I* Metered Flying Insect Killer

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Do not use in nurseries or rooms where infants, ill or aged persons are confined. Use 12 feet or more from exposed food or food handling or dispensing surfaces.

FIRST AID: IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **HOT LINE NUMBER** - Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **NOTE TO PHYSICIAN** - Contains petroleum distillate - vomiting may cause aspiration pneumonia.

PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **PESTICIDE STORAGE:** Do not store near heat or open flame. Store in cool dry area away from children. **CONTAINER DISPOSAL:** Do not Puncture or Incinerate! If Empty: Offer for recycling if available. If Partially Filled: Call your local solid waste agency for disposal instructions.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR USE IN Food service and preparation areas, food processing plants, restaurants, clubs, stores, supermarkets, bottling plants, warehouses, buildings, factories, offices, laboratories, lavatories, ships, planes (cargo areas), hotels, motels, hospitals, nursing homes, schools, day-care centers, funeral homes, kennels, farms, barns, stables, dairies, homes, milk and egg handling areas of dairies and chicken houses.

This product is engineered for use in automatic metered dispensers. The dispenser automatically activates the special metered valve every 15 and/or 30 and/or 45 minutes. Within 24 hours the area is relatively free of house flies, mosquitoes, gnats, and small flying moths and with continued use reduces annoyance from them. Effectiveness of this product will be noticeable within one hour after the Dispenser is activated. Recommended use is for 24 hours: but if less than 24 hour use is required, the Dispenser should be set to start one hour before kill is desired and run one hour after kill is no longer needed. Factors such as airflow rate, size of space treated, humidity and room temperature affect insect activity and kill. Therefore, one unit per 6,000 cubic feet of unobstructed space should be considered as an average with adjustments made depending on specific conditions at usage site. As with any method of insect kill, best results are achieved when sanitation and other positive insect prevention practices are followed. Do not use in aircraft cabins. It is suggested that the container be changed once a month.

OPERATION: Remove protective cap from top of can and insert can in dispenser. Suspend dispenser 7 feet from the floor and at a point where wind flow will carry the particles throughout the room.

OUTDOORS: this product can be used to treat dog kennels, dog runs, side yards, patios, decks and residential landscapes. Set the dispenser to treat at dawn and dusk and use when humans are not in the area. When heavy pest infestations are present the dispenser may be set to treat at 15, 30, and 45 minute intervals. Place the dispensers out of the reach of pets and children and use the prevailing wind to assist in

carrying the spray throughout the area to be treated. This product can be used to kill Mosquitoes, including Culex species which may carry the West Nile Virus. This product can be used to kill House Flies, Mosquitoes, Gnats & Small Flying Moths. Each dispenser will treat up to 650 square feet. Use enough dispensers to treat the entire area you want protected.
