PETARMOR

FOR CATS

3 APPLICATORS

PETARMOR[®] For Cats acts fast and is an effective, lasting, waterproof, and easy-to-use application for control of fleas, ticks (including all stages of American dog ticks, brown dog ticks, deer ticks and lone star ticks), and chewing lice **ONLY** on cats and kittens 8 weeks or older. Do not use more than one applicator per animal per month.

Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not allow children to apply this product. **READ ENTIRE LABEL AND ENCLOSED DIRECTIONS BEFORE EACH USE. CAREFULLY FOLLOW ALL PRECAUTIONARY STATEMENTS AND APPLICABLE USE DIRECTIONS. FOR USE ON CATS ONLY. DO NOT USE ON RABBITS OR OTHER ANIMALS.**

For topical application only. Do not allow your cat to ingest this product. Apply PETARMOR[®] For Cats **ONLY** to cats and kittens aged 8 weeks or older and 1.5 lbs. or over, including on breeding, pregnant, and lactating queens, as indicated below for control of fleas, ticks, and chewing lice. If your cat weighs more than 20 lbs., discuss dosing with your veterinarian. Do not use more than one applicator per animal per month.

How to Apply

1. Remove product applicator from the package.
2. Separate one applicator from the others. Hold the applicator with notched end pointing up and away from the face and body. Use scissors to cut off the narrow end at the notches along the line.

3. Part the cat's hair and place the tip of the applicator behind the neck and between the shoulders. Ensure that the entire application of PETARMOR[®] For Cats is contained in a single spot on the cat's skin. Be sure to squeeze the applicator thoroughly so that the entire contents are applied.

Available Exclusively from FidoPharm, Inc., PO Box 1060
Yardley, PA 19067-9060 USA

Questions? Comments? 1-888-908-TICK (8425)

©2013 FidoPharm, Inc. All rights reserved.

Do not apply the product superficially to the cat's hair. Use only one applicator during each application. Do not touch the area where the application was made until it is dry. Do not allow your cat to ingest this product.

Frequency of Application

Fleas: According to research studies, adult fleas are killed for up to six weeks following an application of fipronil. If, however, your cat or kitten is susceptible to flea allergy dermatitis, or if you believe there is a risk of reinfestation, apply once every month.

Ticks: Each application kills ticks for one month or longer. For best control of ticks, apply once every month.

Chewing Lice: Each application kills chewing lice for one month or longer. For best control of chewing lice, apply once every month.

Do not reapply PETARMOR[®] For Cats for thirty (30) days.

Please note that there is no need to reapply following your cat's exposure to bathing or water immersion, as PETARMOR[®] For Cats remains effective in those conditions.

Side Effects

Monitor your cat after application. Infrequent side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting and/or diarrhea have been reported. If these or other side effects occur, consult your veterinarian or FidoPharm at 1-888-908-TICK (8425).

KEEP OUT OF REACH OF CHILDREN

CAUTION

PETARMOR[®] For Cats acts fast and is an effective, lasting, waterproof, and easy-to-use application for control of fleas, ticks, and chewing lice on cats and kittens. When used as directed, PETARMOR[®] For Cats can stop infestations of fleas, ticks, and chewing lice and help to prevent reinfestation on cats and kittens, including on breeding, pregnant and lactating queens.

Specifically, PETARMOR[®] For Cats kills, controls and prevents infestations of:

1. Newly emerged adult fleas prior to egg-laying, including fleas which could cause flea allergy dermatitis;
2. Brown dog tick, the American dog tick, the lone star tick, and the deer tick (that may transmit Lyme Disease), at all stages;
3. Chewing lice infestations.

PETARMOR[®] For Cats contains the active ingredient fipronil.

Fleas: According to research studies, adult fleas are killed for up to six weeks following an application of fipronil. If, however, your cat or kitten is susceptible to flea allergy dermatitis, or if you believe there is a risk of reinfestation, apply once every month.

Ticks: Each application kills ticks for one month or longer. For best control of ticks, apply once every month.

Chewing Lice: Each application kills chewing lice for one month or longer. For best control of chewing lice, apply once every month.

Do not reapply PETARMOR[®] For Cats for thirty (30) days.

Please note that there is no need to reapply following your cat's exposure to bathing or water immersion, as PETARMOR[®] For Cats remains effective in those conditions.

Side Effects: Monitor your cat after application. Infrequent side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting and/or diarrhea have been reported. If these or other side effects occur, consult your veterinarian or FidoPharm at 1-888-908-TICK(8425).

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal. **Storage:** Store unused applicators in the original child-resistant container and outer box only, out of reach of children and animals. **Pesticide Disposal. If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. **Container Disposal.** Nonrefillable container. **If empty:** Do not reuse this container. Place in trash or offer for recycling if available.

First Aid

Have the product container or label with you when calling a poison control center or doctor, or if going for treatment.

If Swallowed: Immediately call a poison control center or doctor for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If on Skin: Rinse skin with plenty of soap and water. Get medical attention if irritation persists.

Precautionary Statements

Hazards to Humans. Caution.

Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

Hazards to Domestic Animals.

For external use only. Do not use on kittens under 8 weeks of age and less than 1.5 lbs. Sensitivities may occur after using ANY pesticide product for pets. While temporary irritation at the application area may occur, if signs of continued sensitivity occur, consult a veterinarian immediately. Should any unusual reactions to the application occur, do not reapply before consulting with a veterinarian. Certain medications can interact with pesticides. Consult with your veterinarian before using this product on medicated, debilitated, or aged cats. Call 1-888-908-TICK(8425) for 24-hour assistance.

Physical or Chemical Hazards

Flammable: Keep away from heat and open flame.

Warranty

To the extent consistent with applicable law, Sellers make no warranty, express or implied, concerning the use of this product other than as indicated on the labeling. Buyer assumes all risk of use and handling of the product when such use and handling are contrary to the label instructions.

For Cat use only.
