## BACK

"The patented technology is proven to kill over 99.99% of bacteria (specifically, MRSA (Methicillin Resistant Staphylococcus aureus), salmonella enterica, Staphylococcus aureus, Pseudomonas aeruginosa, & Mycobacterium bovis (TB)); & fungi & HIV-1 on hard, non-porous, inanimate surfaces.

Effectively eliminates odors produced by odor-causing bacteria, fungi & other odor-causing organisms. Made from plant extracts with pleasant scent. No synthetic fragrances, dyes or bleach.

Suitable for use in remediation sites including residential, schools, offices, hotels, health care & food preparation facilities, hospitals, nursing homes, medical, veterinary & dental offices, health professional, chiropractic & physiotherapy clinics, child care centers, nurseries, sickrooms, restaurants, kitchens, cafeterias, food storage areas, fitness gyms, spas, zoos, barns, & kennels. Proven to kill over 99.99% of the microorganisms for broad-spectrum claims of hospital disinfectant effectiveness.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner that is inconsistent with its labeling. Pre-clean surfaces to remove soil prior to disinfection. **TO CLEAN:** 1. Shake, apply product & wipe away. **TO DISINFECT & DEODORIZE:** 1. Shake well and wet the surface with the spray (test for surface compatibility on inconspicuous area first). 2. Leave for 10 minutes at room temperature; allow to air dry, no rinsing or wiping is required. This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection. **KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS;** In health care settings and other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with body fluids and in which the surfaces/objects likely to be soiled with blood and body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 HIV-1. **SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:** Personal Protection: Specific barrier protection items to be used when handling items soiled with blood and body fluids are disposable latex gloves, gowns, mask, or eye coverings. Cleaning Procedure: Blood & other body fluids must be thoroughly cleaned from surfaces & objects before application of the disinfectant. Disposal of Infectious Material: Blood & other body fluids should be autoclaved & disposed of according to federal, state, & local regulations for infectious waste disposal. Contact Time: Leave surface wet for 10 minutes.

**STORAGE AND DISPOSAL:** Do not contaminate water, food, or feed by storage and disposal. **Pesticide Storage:** Store airtight in room temperature away from persons unfamiliar with its use. **Pesticide Disposal:** Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility. **Container Handling:** Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Offer empty container for recycling, if recycling is not available, puncture and dispose in a sanitary landfill or by other procedures approved by State and local authorities.
