## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not re-treat fabric with other permethrin insect repellent products.

### FOR TREATED FABRIC PRODUCTS WHICH KILL BED BUGS

Place items to be protected from bed bugs directly in permethrin-treated travel bag. Kills bed bugs that remain in contact with treated fabric for at least 24 hours.

Insecticidal (killing) action remains effective for up to 20 washings if item fits in washer.

If item does not fit in washer, instead wipe clean with a damp cloth or sponge.

Wash travel bag separately from other fabrics or apparel. Do not dry clean, as dry cleaning will remove the active ingredient.

This product alone is not intended as a complete solution to bed bug infestations, but for use with other products and methods for killing or preventing them. A partial list of such products and methods is given below.

- Check second hand furniture and bedding for bed bugs before bringing them home
- When travelling, keep luggage up on luggage racks, check hotel beds and head boards for bed bugs
- Upon return from travel, unpack and place clothes directly into washer, then dryer
- Reduce clutter at home
- Heat smaller infested articles to 113°F for 1 hour
- Freeze smaller articles at 0°F for 4 days
- Place interceptor traps under bed legs
- Encasements around mattresses and box springs
- Wash and dry bedding items (but not Sweep products)
- Insecticidal sprays labeled for killing bed bugs
