

# Algaecide 60 Plus

## NON-FOAMING

### Algae Control for Swimming Pools

**ACTIVE INGREDIENT:**

Poly(oxyethylene(dimethyliminio)ethylene(dimethyliminio)ethylene dichloride) . . . . .	60.0%
INERT INGREDIENTS: . . . . .	40.0%
TOTAL INGREDIENTS: . . . . .	100.0%

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

**FIRST AID:** Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.

Call a poison control center or doctor for treatment advice.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

### PRECAUTIONARY STATEMENT HAZARD TO HUMANS AND DOMESTIC ANIMALS.

**CAUTION:** Harmful if swallowed. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

#### SWIMMING POOL ALGAECIDE AND ALGAE PREVENTATIVE

This product is used to control and prevent the growth of algae in swimming pools and swimming pools with attached spas, waterfalls, or decorative fountains. This product may be used in systems sanitized with chlorinating or brominating products. This product will not foam and prevents all types of algae. Use this non-foaming algaecide to prevent and control swimming pool algae. Ideal for pools with attached spas. Can be applied in pools with chlorinating or brominating sanitizing systems.

Pools containing heavy growth of algae should be cleaned prior to using this product. For pools having light algae growth, pour the initial dose of 11-17 fluid ounces of this product per 10,000 gallons of water directly into pool. Remove settled algae. For treatment of a freshly cleaned and filled pool, add 6-11 fluid ounces of this product per 10,000 gallons of water. Subsequent additions of 2-4 fluid ounces of this product per 10,000 gallons of water should be made every 5-7 days after initial treatment for maintenance. Wait at least 15 minutes after application before entering pool.

#### ALGAECIDE AND ALGAE PREVENTATIVE FOR SPAS AND HOT TUBS

This non-foaming product is used to control the growth of algae in spas, whirlpools, and hot tubs

Spas containing heavy growth of algae should be cleaned prior to using this product. Spas, whirlpools, or hot tubs having just visible algae growth require an initial dose of 1.0-2.0 fluid ounces of this product per 1,000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, or hot tub, add 0.6-1.1 fluid ounces of this product per 1,000 gallons of water. Subsequent additions of 0.2-0.4 fluid ounces of this product per 1,000 gallons of water should be made every 5-7 days after initial treatment for maintenance. Wait at least 15 minutes after application before entering spa.

#### WINTER ALGAE PREVENTATIVE FOR SWIMMING POOLS

This non-foaming algae preventative works to prevent algae growth when the pool is not being used due to cold winter temperatures.

For pools which have been properly treated during the swimming season and are free of visible algae, add 6-10 fluid ounces of this product per 10,000 gallons of water. If at the end of the swimming pool season, pool has some visible algae growth, add 12-17 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of algaecide throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the off season.

This product is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. This product can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix this product with concentrated dry or liquid chlorine products.

### STORAGE AND DISPOSAL

**Do not contaminate water, food, or feed by storage and disposal.**

**STORAGE:** Keep container closed when not in use. Leaking or damaged containers should be placed in plastic bag and discarded in trash. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.

**DISPOSAL:**

**If empty:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available.

**If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
