ADAMS™ PENTAGON™

ADAMS™ PENTAGON™ FLEA & TICK SPOT ON® FOR DOGS

READ ENTIRE LABEL BEFORE EACH USE.

IMPORTANT - USE ONLY ON DOGS OR PUPPIES 12 WEEKS OF AGE OR OLDER

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read and follow all directions and precautions on this product label.

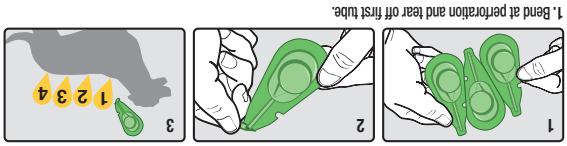
USE RESTRICTIONS: Do Not Allow Children to Apply this Product. Do not use more than one tube per dog/puppy and do not treat more than once per month. Do not allow your dog/puppy to ingest this product. (Do not bathe your dog 48 hours prior to application.)

Adams™ Pentagon™ Flea & Tick Spot On® for Dogs works by application directly to the dog's/puppy's skin, not to the hair. When applying, manually push aside dog's/puppy's hair to allow direct application to the skin.

Note: Each package contains sufficient tubes for 6 applications.

To apply the Adams™ Pentagon™ Flea & Tick Spot On® for Dogs treatment, use one disposable liquid tube for each application.

FOR LARGE SIZE DOGS/PUPPIES



1. Bend at perforation and tear off first tube.
2. Hold tube upright and snap tip back, away from face and body.
3. The dog/puppy should be standing for easy application. Apply Adams™ Pentagon™ Flea & Tick Spot On® for Dogs evenly to four or five spots on the top of the back from the shoulder to the base of the tail. At each spot, part the hair until the skin is visible. Place the tip of the tube on the skin and gently squeeze to expel a portion of the solution on the skin. Do not apply an excessive amount of the solution at any one spot that could cause some of the solution to run off the side of the dog/puppy.
4. Do not spread Adams™ Pentagon™ Flea & Tick Spot On® for Dogs by hand over the dog/puppy. Although the dog's/puppy's skin and hair oils will distribute the application over the entire dog/puppy, brushing the dog/puppy 12-24 hours after application will help to distribute the material over the skin.
5. Discard empty tube as described in Storage and Disposal.

Adams™ Pentagon™ Flea & Tick Spot On® for Dogs is most effective when used as part of a total flea and tick management program. Use other flea and tick control products registered for residential area control of these pests in conjunction with this treatment. Monthly treatments are required for optimal control and prevention of fleas.

The successive feeding activity of fleas on dogs/puppies may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of dogs/puppies with Adams™ Pentagon™ Flea & Tick Spot On® for Dogs rapidly kills fleas and may reduce the incidence of this condition.

STORAGE AND DISPOSAL: PESTICIDE STORAGE: Keep this product in its tightly closed original container, when not in use. Store in a cool, dry (preferably locked) area that is inaccessible to children and pets. **CONTAINER DISPOSAL:** Do not reuse empty tube. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS – CAUTION

HAZARDS TO HUMANS: Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

HAZARDS TO DOMESTIC ANIMALS

DO NOT USE ON OTHER ANIMALS.

Do not use on dogs or puppies less than 12 weeks old or weighing less than 5 lbs. Do not use this product on debilitated, aged, medicated, pregnant or nursing animals, or on animals known to be sensitive to pesticide products without first consulting a veterinarian. Sensitivity, such as slight transitory redness of the skin at the site of application, may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap, rinse with large amounts of water, and consult a veterinarian immediately.

FIRST AID

If in eyes	• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. • Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If on skin or clothing	• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 to 20 minutes. • Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER: Have the product container or label with you when calling a poison control center, doctor or veterinarian, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 877-808-1069.

WARRANTY AND CONDITIONS OF SALE: Seller warrants that this product conforms to the chemical specifications expressed on the label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller's liability for default, breach, or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.

In case of emergency or for product information, call 877-808-1069 or contact your veterinarian if your pet is experiencing an adverse event.
