NET CONTENTS: 1 Collar

NET WT: 1.2 OZ (34 g)

800-950-4783 for emergency medical treatment information.

Note to Physicians and Veterinarians:

This product contains tetrachlorvinphos (an organophosphate) which is a cholinesterase inhibitor.

Cholinergic symptoms may include salivation, miosis, incoordination, muscle fasciculation and/or weakness, vomiting and diarrhea.

Atropine is antidotal. 2-PAM may be effective as an adjunct to atropine.

Call 800-950-4783 or your local Poison Control Center for further information.

FIRST AID

If in eyes:

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If on skin or clothing:

Rinse skin immediately with plenty of water for 15-20 minutes. Place under cold running water if available. Remove clothing immediately if contact is made. Wash skin with mild soap and water.

If in mouth:

Wash mouth out thoroughly with water. Do not induce vomiting unless told to do so by a Poison Control Center or doctor.

If swallowed:

Do not give anything by mouth to an unconscious person. If able to swallow, call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow.

If in hair:

Rinse hair immediately with plenty of water. Aids in their control for an additional 2 months.

Under conditions where dogs are exposed to severe flea and tick infestations, it may be necessary to replace the collar more frequently, however, do not replace the collar more frequently than every 5 months.

Wetting will not impair the collar’s effectiveness and the collar may be worn with a regular collar.

It is recommended that the pet’s bedding or sleeping quarters be treated for flea and tick control with products registered for this use such as a fogger or dusting powder.

Sensitivity may occur after using ANY pesticide product for pets. Some animals may become irritated by chemicals.

However, flea and tick collars may be immediately replaced.

Storw and Disposal:

Steady and Dissolv.

The collar is designed to be removed and disposed of properly.

Product Storage: Store this product in a cool, dry place.

Use in accordance with label instructions.

Redistributed to the degree that the label instructions for the intended use of the product are not met, the product is not in a condition for which it was intended, or the product is used in a manner inconsistent with its labeling.

This material is a violation of Federal law. To use this product in a manner inconsistent with its labeling is a violation of Federal law.

Federal law prohibits the use of pesticides or pesticide applicators that are not certified or registered for use with the pesticide.

Chlorinated solvents are harmful if inhaled, swallowed, or absorbed through the skin. This product should not be left within the reach of children.

Flea & Tick Collar for Dogs

Precautionary Statements

HAZARDS TO HUMANS AND DOMESTIC ANIMALS – CAUTION:
Harmful if swallowed or absorbed through the skin. Avoid contact with eyes, mucous membranes or clothing. Do not drink. Wash thoroughly with soap and water after handling.

HAZARDS TO DOMESTIC ANIMALS:
This product contains tetrachlorvinphos (an organophosphate) which is a cholinesterase inhibitor. Over-exposure may cause cholinergic symptoms. If signs continue, consult a veterinarian. Call your local Poison Control Center for further information.

HARMFUL IF SWALLOWED:
Do not induce vomiting unless instructed to do so by a Poison Control Center or doctor. Call a Poison Control Center for emergency medical treatment information.

Inhalation:
Do not breathe dust directly or inhale vapors. Call your local Poison Control Center for emergency medical treatment information.

Ingestion:
Do not ingest product. Call your local Poison Control Center for emergency medical treatment information.

Skin:
Wash thoroughly with soap and water after handling. Do not use on puppies under 6 weeks old. Sensitivity may occur after using ANY pesticide product for pets. Some animals may become irritated by chemicals. However, flea and tick collars may be immediately replaced.

Ingestion:
Do not drink. Wash thoroughly with soap and water after handling. Do not use on puppies under 6 weeks old. Sensitivity may occur after using ANY pesticide product for pets. Some animals may become irritated by chemicals. However, flea and tick collars may be immediately replaced.

CAUTION:
If the dog goes swimming or is out in the rain, it is not necessary to remove the collar. The Zodiac® collar may be worn with a regular collar. It is recommended that the pet's bedding or sleeping quarters be treated for flea and tick control with products registered for this use such as Zodiac® Fleatrol™ Carpet & Upholstery Pump or Aerosol Spray or Zodiac® Flea & Tick Powder.

FOR LARGE DOGS

If partly filled:
Store this product in a cool, dry place that is inaccessible to children.

If empty:
Pesticide Disposal: If empty:
Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

FOR LARGE DOGS

For continuous flea and tick protection under normal conditions, replace the collar every seven months. The collar kills ticks for 5 months and it will begin to kill ticks immediately. Its full protection against harder to kill ticks will be built up within a few days after being placed on.

The collar must be worn loosely to allow for growth of the dog and to permit the collar to move about the neck.

This collar is intended for use only as an insecticide generator. Do not use this product on dogs simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or other chemicals. However, flea and tick collars may be immediately replaced.

DO NOT USE ON PUPPIES UNDER 6 WEEKS OLD

Generally, a properly fitted collar is one that, when fastened, will snugly slide over the dog's head. Leave 2 or 3 inches on the collar for extra adjustment. When applying the collar, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the dog and to permit the collar to move about the neck.

For continuous flea and tick control an additional 2 months. Under conditions where dogs are exposed to severe flea and tick infestations, it may be necessary to replace the pet's bedding or sleeping quarters be treated for flea and tick control with products registered for this use such as Zodiac® Fleatrol™ Carpet & Upholstery Pump or Aerosol Spray or Zodiac® Flea & Tick Powder.

If in eyes:
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

If on skin or clothing:
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

If swallowed:
Do not give anything by mouth to an unconscious person. Call your local Poison Control Center for emergency medical treatment information.

Note to Physicians and Veterinarians:
This product contains tetrachlorvinphos (an organophosphate) which is a cholinesterase inhibitor. Over-exposure may cause cholinergic symptoms. If signs continue, consult a veterinarian. Call your local Poison Control Center for emergency medical treatment information.

Cholinergic symptoms may include salivation, miosis, incoordination, muscle fasciculation and/or weakness, vomiting and diarrhea. Atropine is antidotal. 2-PAM may be effective as an adjunct to atropine. Call 800-950-4783 or your local Poison Control Center for further information.

For children:
Adult supervision is required when Pets play. Pills, small parts, and other small objects may be swallowed by children. Pet owners should keep all products contained in the child-proof container when not in use.

Zodiac® Flea & Tick Collar for Dogs is a concentrate flea and tick control product. It is designed to help control fleas and ticks on dogs for a period of up to 7 months. The collar kills ticks for 5 months and it will begin to kill ticks immediately. Its full protection against harder to kill ticks will be built up within a few days after being placed on.

The collar begins to work on contact. As the collar begins to work, a fine white powder will be seen on the collar. This is the insecticide generator. If this occurs, loosen the collar. If irritation continues, remove the collar from the dog. If signs of sensitivity occur, consult a veterinarian immediately. Do not use this product on dogs simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or other chemicals. However, flea and tick collars may be immediately replaced.

Notice of Supplemental Distribution of a Registered Pesticide Product

Instructions

After a registrant has obtained final registration for the basic product, the registrant may then supplementally distribute his/her product. One form must be submitted for each distributor product and must be signed by the distributor involved. The basic registration number and the distributor company number must be shown.

If a registrant has a potential distributor who does not have a company number assigned, she/he should have the distributor apply, on letterhead stationery, to the Registration Division to have a number assigned prior to submitting this form to the agency.

This Notice of Supplemental Distribution must be submitted by the basic registrant. The completed form must have the concurrence and signature of both the registrant and the distributor.

EPA Registration Number of Product 2596-84

Distributor Company Number 89459

Note: Do not submit distributor product labels

Name of Registered Product (basic product name accepted by EPA)
Hartz® 2 in 1 Plus Seven Month Collar for Dogs

Distributor Product Name
Zodiac® Flea & Tick Collar for Dogs

Name and Address of Distributor (Type; include ZIP code)
Central Garden & Pet Company
1500 East Woodfield Road 200W
Schaumburg, Illinois  60173

Read All Conditions Before Signing

1. The distributor product must have the same composition as the basic product.
2. The distributor product must be manufactured and packaged by the same person who manufactures and packages the registered basic product.
3. The labeling for the distributor product must bear the same claims as the basic product, provided, however, that specific claims may be deleted if by doing so, no other changes to the label are necessary.
4. The product must remain in the manufacturer’s unbroken container.
5. The label must bear the EPA registration number of the basic product, followed by a hyphen and the distributor’s company number,
6. Distributor product labels must bear the name and address of the distributor qualified by such terms as “packed for...”, “distributed by...”, or “sold by...” to show that the name is not that of the manufacturer.
7. All conditions of the basic registration apply equally to distributor products. It is the responsibility of the basic registrant to see that all distributor labeling is kept in compliance with requirements placed on the basic product.

Distributor

We intend to market our product under the Distributor Product Name specified above, subject to the conditions specified on this Notice.

Subject: Label Notification(s) for Pesticide Registration Notice 98-10

Dear Ms. Masch:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated February 23, 2012 for the following product(s):

- Field and Stream® Flea and Tick Shampoo Collar  
- Alternate Brand Name  
- Field and Stream® by Hartz®  
- Reflecting Flea & Tick Collar  
- Hartz® Presents Field and Stream®  
- Reflecting Flea and Tick Collar

The Registration Division (RD) has conducted a review of this request for applicability under PR Notice 98-10 and finds that the label change(s) requested falls within the scope of PRN 98-10. The label has been date-stamped "Notification" and will be placed in our records.

- Hartz® 2&1® Plus Seven Month Collar  
- EPA Reg. No. 2596-84  
- for Dogs

If you have any questions, please contact Linda A. DeLuise at 703-305-5428.

Sincerely,

[Signature]

Richard J. Gebken  
Product Manager  
Insecticide Branch  
Registration Division (7504P)

Attention: Mr. Richard Gebken (PM # 10)
RE: Hartz 2 in 1 Plus Seven Month Collar for Dogs
EPA Reg. No. 2596-84
Addition of optional marketing statements per PR Notice 98-10

Dear Mr. Gebken:

The Hartz Mountain Corporation, 400 Plaza Drive, Secaucus, NJ 07094-3688 is filing this notification to add new optional marketing statements for the product **Hartz 2 in 1 Plus Seven Month Collar for Dogs, EPA Reg. No. 2596-84**.

The Hartz Mountain Corporation is submitting the following information:
- A completed application (EPA Form 8570-1) and;
- Two copies of the proposed notification label.

"This notice is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR §152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

If you have any questions or need additional information, please feel free to contact me at (201) 271-4800, ext. 7036 or hmasch@hartz.com.

Sincerely,

Heather Masch

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID
If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.
If On Skin Or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.
If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. You may also contact 1-800-275-1414 for emergency medical treatment information.

Note to Physicians and Veterinarians: This product contains tetrachlorvinphos (an organophosphate) which is a cholinesterase inhibitor. Cholinergic symptoms may include salivation, miosis, incoordination, muscle fasciculation and/or weakness, vomiting and diarrhea. Atropine is antidotal. 2-PAM may be effective as an adjunct to atropine. Call 1-800-275-1414 or your local Poison Control Center for further information.
DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

REMOVE COLLAR FROM PACKAGE, UNROLL AND STRETCH TO ACTIVATE INSECTICIDE GENERATOR. As the collar begins to work, a fine white powder will appear on the surface.

Do not use on puppies under 6 weeks of age. Do not unroll collar until ready to use. Place the (brand name) (collar) around the dog’s neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the dog and to permit the collar to move about the neck. Generally, a properly fitted collar is one that, when fastened, will snugly slide over the dog’s head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length.

Consult a veterinarian before using this product on debilitated, aged, or medicated animals. If used on pregnant or nursing dogs, do not replace collar until the puppies are at least 6 weeks old. Sensitivity may occur after using ANY pesticide product for pets. Some animals may become irritated by any collar if it is applied too tightly. If this occurs, loosen the collar. If irritation continues, remove the collar from the dog. If signs of sensitivity occur, remove the collar and bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not use this product on dogs simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or chemicals. However, flea and tick collars may be immediately replaced.

This collar is intended for use only as an insecticide generator. (Kills fleas and ticks common to dogs, including the Deer tick, which may carry Lyme disease, and the Rocky Mountain wood tick, which may carry Rocky Mountain spotted fever.) The collar will begin to kill fleas and ticks immediately. (Its full protection against harder to kill ticks will be built up within a few days after being placed on the pet.) For continuous flea and tick protection under normal conditions replace the collar every seven months. The collar kills ticks for 5 months and aids in their control an additional 2 months. Under conditions where dogs are exposed to severe flea and tick infestations it may be necessary to replace the collar more frequently; however, do not replace the collar more frequently than every 5 months. Wetting will not impair the collar’s effectiveness or the pet’s protection. If the dog goes swimming or is out in the rain it is not necessary to remove the collar. The (brand name) (collar) may be worn with a regular collar. It is recommended that the pet’s bedding or sleeping quarters be treated for flea and tick control with a product registered for this use such as (brand name).
STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

**Pesticide Storage:** Store this product in a cool, dry place that is inaccessible to children.

**Pesticide Disposal:** If empty: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Subject: Label Notification(s) for Pesticide Registration 2007-4

Dear Ms. Masch:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated for April 7, 2010 for:

**EPA Registration Number: 2596-84  Hartz 2 in 1 Plus Seven Month Collar for Dogs**

The Registration Division (RD) has conducted a review of this request for applicability Under PRN 2007-4 and finds that the label change(s) requested falls within the scope of PRN-2007-4. The label has been date-stamped “Notification” and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact Melody Banks on 703 305-5413.

Sincerely,

Richard Gebken

RE: Hartz 2 in 1 Plus Seven Month Collar for Dogs
EPA Reg. No. 2596-84
Addition of optional marketing statements per PR Notice 98-10

Dear Mr. Gebken:

The Hartz Mountain Corporation, 400 Plaza Drive, Secaucus, NJ 07094-3688 is filing this notification to add new optional marketing statements for the product Hartz 2 in 1 Plus Seven Month Collar for Dogs, EPA Reg. No. 2596-84.

The Hartz Mountain Corporation is submitting the following information:

- A completed application (EPA Form 8570-1) and;
- Three copies of the proposed notification label.

"This notice is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR §152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

If you have any questions or need additional information, please feel free to contact me at (201) 271-4800, ext. 7036 or hmasch@hartz.com.

Sincerely,

Heather Masch

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID
If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.
If On Skin Or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.
If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. You may also contact 1-800-275-1414 for emergency medical treatment information.

Note to Physicians and Veterinarians: This product contains tetrachlorvinphos (an organophosphate) which is a cholinesterase inhibitor. Cholinergic symptoms may include salivation, miosis, incoordination, muscle fasciculation and/or weakness, vomiting and diarrhea. Atropine is antidotal. 2-PAM may be effective as an adjunct to atropine. Call 1-800-275-1414 or your local Poison Control Center for further information.

EPA Reg. No.: 2596-84
MASTER LABEL BASED ON 10/7/08 EPA STAMPED APPROVED LABEL

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

REMOVE COLLAR FROM PACKAGE, UNROLL AND STRETCH TO ACTIVATE INSECTICIDE GENERATOR. As the collar begins to work, a fine white powder will appear on the surface.

Do not use on puppies under 6 weeks of age. Do not unroll collar until ready to use. Place the (brand name) (collar) around the dog’s neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the dog and to permit the collar to move about the neck. Generally, a properly fitted collar is one that, when fastened, will snugly slide over the dog’s head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length.

Consult a veterinarian before using this product on debilitated, aged, or medicated animals. If used on pregnant or nursing dogs, do not replace collar until the puppies are at least 6 weeks old. Sensitivity may occur after using ANY pesticide product for pets. Some animals may become irritated by any collar if it is applied too tightly. If this occurs, loosen the collar. If irritation continues, remove the collar from the dog. If signs of sensitivity occur, remove the collar and bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not use this product on dogs simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or chemicals. However, flea and tick collars may be immediately replaced.

This collar is intended for use only as an insecticide generator. (Kills fleas and ticks common to dogs, including the Deer tick, which may carry Lyme disease, and the Rocky Mountain wood tick, which may carry Rocky Mountain spotted fever.) The collar will begin to kill fleas and ticks immediately. (Its full protection against harder to kill ticks will be built up within a few days after being placed on the pet.) For continuous flea and tick protection under normal conditions replace the collar every seven months. The collar kills ticks for 5 months and aids in their control an additional 2 months. Under conditions where dogs are exposed to severe flea and tick infestations it may be necessary to replace the collar more frequently; however, do not replace the collar more frequently than every 5 months. Wetting will not impair the collar’s effectiveness or the pet’s protection. If the dog goes swimming or is out in the rain it is not necessary to remove the collar. The (brand name) (collar) may be worn with a regular collar. It is recommended that the pet’s bedding or sleeping quarters be treated for flea and tick control with a product registered for this use such as (brand name).
Hartz® 2 in 1® Plus Seven Month Collar for Dogs  
EPA Reg. No.: 2596-84  
MASTER LABEL BASED ON 10/7/08 EPA STAMPED APPROVED LABEL  

STORAGE AND DISPOSAL  
Do not contaminate water, food or feed by storage and disposal. 
Pesticide Storage: Store this product in a cool, dry place that is inaccessible to children. 
Pesticide Disposal: If empty: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

RE: Notification for addition of Optional Marketing Statements  
EPA Registration Number: 2596-84  
Submission Dated: March 19, 2009

Dear Mr. Rosenwasser:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated, March 19, 2009, for the product, Hartz 2 in 1 Plus 7 Month Collar for Dogs with Rabon. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action(s) requested does not clearly fall within the scope of PRN 98-10 and will require additional administrative review of the related files. A summary of our findings include:

1. Per a conversation with Product Manager, the claim “safety” will require evaluation as an amendment.

Therefore, the RD has determined that this action is denied and will be further processed as a fast track amendment and our records have been updated accordingly. The label submitted with the application is considered proposed drafts and has been forwarded to Richard Gebken, PM 10 for further processing.

If you have any questions, please call me directly at 703-305-6249 or Joyce Edwards of my staff at 703-308-5479.

Sincerely yours,

Linda Arrington

Attention: Mr. Richard Gebken (PM #10)  
RE: HARTZ 2 In 1 Plus 7 Month Collar for Dogs with Rabon  
EPA Reg. No. 2596-84  
Addition of Optional Marketing Statements Per PR Notice 98-10

Dear Mr. Gebken:

The Hartz Mountain Corporation, 400 Plaza Drive, Secaucus, NJ 07094-3688 is filing this notification to add an additional marketing statement to the product.

This product serves two valuable functions for the dog owner. The formulation itself contains tetrachlorvinphos, an insecticidal active which offers properties to kill and repel fleas and ticks.

The second property of this dog collar is the inclusion of Reflective Technology through the use of a reflective strip that allows the dog’s collar to become visible for up to 300 feet when headlights shine on the collar itself. This important characteristic provides a degree of safety to the dog when the collar is made visible allowing the dog to be seen by a driver who comes within 300 feet of the dog on a path, road or street.

This safety characteristic of the collar itself is vital to the incorporation of the Reflective Technology and in no manner implies safety of the collar in terms the use of the active ingredient as an insecticide when used on the dog. Any reference to safety is strictly related to the reflective strip on the collar and does not connote safety in terms the product formulation. There is no implied safety claim relating to the insecticidal component of the product. It is important to Hartz to make our customers aware of this non-pesticidal property of the product. Many animals are killed each year on the highways and this technology provides a tool for the physical safety of the dog at night when walking along roads.
The Hartz Mountain Corporation is submitting the following information:

- A completed application (EPA Form 8570-1) and;
- Three (3) copies of the proposed label;

"This notice is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR §152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

A business reply card is also attached for EPA to notify us upon approval of this notification. If you have any questions or need additional information, please feel free to contact me at (201) 271-4800, ext. 7202 or mailto: rrosenwasser@hartz.com.

Sincerely,

Robert Rosenwasser

CAUTION: Do not let children play with this collar. See (side) (back) panel(s) for additional precautionary statements.

NET CONTENT(S): 1 (white) (pink) (orange) (blue) (yellow) (purple) (red) (grey) (hunter green)(green)(black)(silver)(gold)(reflecting)(reflective) COLLAR, (NET. WT.) (Range from 19 g to 32 g depending on size of animal)
Hartz® 2 in 1® Plus Seven Month Collar for Dogs
EPA Reg. No.: 2596-84
MASTER LABEL BASED ON 10/7/08 EPA STAMPED APPROVED LABEL

Made (in the U.S.A.) by
The Hartz Mountain Corporation
400 Plaza Drive
Secaucus, NJ 07094 (U.S.A.)

READ ENTIRE LABEL BEFORE EACH USE.
USE ONLY ON DOGS.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID
If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.
If On Skin Or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.
If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. You may also contact 1-800-275-1414 for emergency medical treatment information.

Note to Physicians and Veterinarians: This product contains tetrachlorvinphos (an organophosphate) which is a cholinesterase inhibitor. Cholinergic symptoms may include salivation, miosis, incoordination, muscle fasciculation and/or weakness, vomiting and diarrhea. Atropine is antidotal. 2-PAM may be effective as an adjunct to atropine. Call 1-800-275-1414 or your local Poison Control Center for further information.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
REMOVE COLLAR FROM PACKAGE, UNROLL AND STRETCH TO ACTIVATE INSECTICIDE GENERATOR. As the collar begins to work, a fine white powder will appear on the surface.

Do not use on puppies under 6 weeks of age. Do not unroll collar until ready to use. Place the (brand name) (collar) around the dog's neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the dog and to permit the collar to move about the neck. Generally, a properly fitted collar is one that, when fastened, will snugly slide over the dog's head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length.

Consult a veterinarian before using this product on debilitated, aged, or medicated animals. If used on pregnant or nursing dogs, do not replace collar until the puppies are at least 6 weeks old. Sensitivity may occur after using ANY pesticide product for pets. Some animals may become irritated by any collar if it is applied too tightly. If this occurs, loosen the collar. If irritation continues, remove the collar from the dog. If signs of sensitivity occur, remove the collar and bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not use this product on dogs simultaneously or within 30 days before or after treatment with cholinesterase inhibiting drugs, pesticides, or chemicals. However, flea and tick collars may be immediately replaced.

This collar is intended for use only as an insecticide generator. (Kills fleas and ticks common to dogs, including the Deer tick, which may carry Lyme disease, and the Rocky Mountain wood tick, which may carry Rocky Mountain spotted fever.) The collar will begin to kill fleas and ticks immediately. (Its full protection against harder to kill ticks will be built up within a few days after being placed on the pet.) For continuous flea and tick protection under normal conditions replace the collar every seven months. The collar kills ticks for 5 months and aids in their control an additional 2 months. Under conditions where dogs are exposed to severe flea and tick infestations it may be necessary to replace the collar more frequently; however, do not replace the collar more frequently than every 5 months. Wetting will not impair the collar's effectiveness or the pet's protection. If the dog goes swimming or is out in the rain it is not necessary to remove the collar. The (brand name) (collar) may be worn with a regular collar. It is recommended that the pet's bedding or sleeping quarters be treated for flea and tick control with a product registered for this use such as (brand name).

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Store this product in a cool, dry place that is inaccessable to children.
Pesticide Disposal: If empty: Nonrefillable container. Do not refill or reuse this container. Offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTIFICATION
MAY 14 2009

Optional/alternate text is shown in parentheses or brackets; new text is highlighted
October 7, 2008

Mr. Robert Rosenwasser,
Director, Regulatory Affairs
The Hartz Mountain Corporation
400 Plaza Drive
Secaucus, NJ 07094-3688

Subject: Amended Labeling, Incorporation of Previously Rescinded Notification Language
Hartz® 2 in 1® Plus Seven Month Collar for Dogs, EPA Reg. No. 2596-84
Your Submission Dated July 2, 2008

Dear Mr. Rosenwasser:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable with the following provision(s):

General Statement:
1. Delete all text throughout the label marked with “strike through.”

Precautionary Statements section, Hazards to Humans and Domestic Animals subsection comment(s):
2. Replace the 4th sentence with: “Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.”

First Aid Statement section, Note to Physicians and Veterinarians subsection comment(s):
3. It is important to note that the “1-800-275-1414” phone number should be available twenty-four (24) hours per day, seven (7) days per week for answering and responding to any medical emergencies or health concerns.

4. In the “Note to Physicians and Veterinarians:” subsection, replace the 1st sentence with: “This product contains tetrachlorvinphos (an organophosphate), which is a cholinesterase inhibitor.”

Storage and Disposal Statement section comment(s):
5. To facilitate inclusion of language from PR Notice 2007-1, you should replace this section with:

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage and disposal.

**Pesticide Storage:** Store this product in a cool, dry place that is inaccessible to children.

**Pesticide Disposal: If empty:** Nonrefillable container. Do not reuse or refill this container.

Offer for recycling, if available. If partly filled: Call your local solid waste agency [or toll free number or website which meets the criteria in paragraph II.E., P.R. Notice 20007-1] for disposal instructions. Never place unused product down any indoor or outdoor drain.
Non-Pesticide Related Claims and Other Optional Text section comment(s):
6. In the 9th and 17th non-pesticide related claims, replace the word “safety” with the word “visibility.”

7. Delete the 18th non-pesticide related claim, since it is an implied safety claim.

Should you wish to add/retain a reference to the company's website on your label, please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under section 12(a)(1)(E) of FIFRA. 40 CFR §156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not be substantially differ from those claims approved through the registration process. Therefore, should the Agency find, or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to EPA's Office of Enforcement and Compliance Assurance (OECA). As an alternative, you may refer consumers to the company's phone number or e-mail address.

A copy of your label stamped "Accepted with Comments" is enclosed for your records. Please submit two (2) copies of the final printed labeling, incorporating the above changes, before releasing the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with section 6(e) of FIFRA. Your release for shipment of the product bearing amended labeling constitutes accepting of these conditions.

If you have any questions about this label review, please contact Mr. Carmen J. Rodia, Jr. at (703) 306-0327 or via e-mail at Rodia.Carmen@epa.gov.

Sincerely Yours,

Richard J. Gebken
