CLOROX™ SPA™ CHLORINATING GRANULES

SPA SANITIZING

WHY TO USE THIS PRODUCT: This product is a quick dissolving stabilized granular spa sanitizer, which when applied according to label directions, will release sufficient chlorine to retard the growth of harmful algae and control bacteria.

IMPORTANT NOTES: 1. When using other products, as outlined in directions for this product, always follow label directions for those products. 2. This product may cause damage to spa or hot tub finish or materials such as colored plaster, vinyl, wood or fiberglass surfaces. Avoid spilling granules on spa surface. 3. This product may promote metal stains on spa or hot tub surfaces. Always check water for metal content and if present, remove metals with a stain & scale inhibitor prior to the addition of this product. 4. Sunlight, rainfall, temperature, number of swimmers and frequency of spa and hot tub use affect the rate of chlorine loss. Adjust cleaning and chemical maintenance accordingly.

BEFORE YOU BEGIN: 1. Ensure all spa equipment is working properly. Clean or backwash filter following manufacturer's directions. 2. Check water pH, alkalinity and calcium hardness with a test kit. Adjust pH to 7.2-7.6 by adding pH Down to lower pH, or by adding pH Up to raise pH. Adjust alkalinity to 80-125 ppm for plaster spas, 125-150 for vinyl or fiberglass spas by adding Alkalinity Plus. Adjust calcium hardness to 200-275 ppm for plaster spas, 175-225 for vinyl or fiberglass

spas by adding Calcium Hardness Increase.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

NOW USE THIS PRODUCT: FOR ROUTINE MAINTENANCE DOSES: 1. With pump on, add 1/2 teaspoon of this product per 100 gallons of water (or 5 teaspoons per 1,000 gallons) as an initial treatment. 2. Repeat at 15 to 20 minute intervals until a residual of 3-5 ppm of available chlorine is established as determined by test kit. 3. A test kit must be used regularly to determine the frequency of additional doses of this product needed to maintain 3-5 ppm of available chlorine in the water.

SUPERCHEMIST: Superchlorinate weekly as part of your routine maintenance program, or more frequently following heavy spa use. Make sure recirculating pump is operating. Use one teaspoon of this product per 100 gallons of water (or 1/4 cup per 1,000 gallons) by broadcasting across water surface. Allow circulating pump to operate for 15-20 minutes. Do not enter spa until chlorine level is between 3-5 ppm.

Reentry into treated spas is prohibited above levels of 5 ppm chlorine due to risk of body injury.

STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive: Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust or vapor. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

HAVE THE PRODUCT CONTAINER OR LABEL WITH YOU WHEN CALLING A POISON CONTROL CENTER OR DOCTOR, OR GOING FOR TREATMENT. IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5533.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT: Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reuse container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

NOTE: Buyer assumes all responsibility for safety and use in accordance with directions.

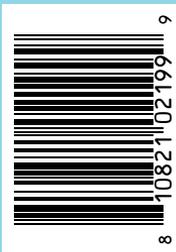

EPA REG. NO. 67262-1-90106; EPA EST. NO. 5185-GA-1²; 7616-CA-1²
