DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

CLOROX™ Pool&Spa All-in-One / Algaecide does an effective job of controlling green, blue-green and mustard-colored algae growth in swimming pools. Follow all precautions, directions and restrictions per their labeling for all pesticide products being used.

1. Adjust pH of pool water to 7.2-7.6. Use CLOROX™ Pool&Spa pH Plus (soda ash) to raise pH and CLOROX™ Pool&Spa Concentrated Muriatic Acid to lower it. Follow the instructions on the back panel of whichever product is used. 2. Add 3 quarts of CLOROX™ Pool&Spa Chlorinating Liquid per 10,000 gallons of pool water to oxidize water soluble wastes. Allow to circulate one hour. (Note: Do not enter the pool until chlorine residual drops to 3.0 ppm.) 3. Using an algae brush, brush algae spots prior to product application. Add 10 oz of this product per 10,000 gallons of pool water. Preferably, dilute the concentrate into one or two gallons of water and apply to the deep end of the pool. 4. Filter continuously for 24 hours. Brush daily for the next few days, if necessary, to promote penetration of product into algae spots to improve effectiveness. Periodically check available chlorine and adjust, if necessary, to maintain a 3 ppm minimum during treatment. 5. Dead algae may be visible as a gray or white cloudiness. Living algae will have a green, brown, yellow or black color. If algae has color after 24 hours, repeat treatment as necessary for removal. 6. Once algae is dead, turn off filter system (including timer). Allow 18 to 24 hours for dead algae to settle to the bottom of the pool. 7. Remove dead algae by brushing and vacuuming as needed. Backwash the filter. Return filter system to normal operation. 8. Add 5 oz of this product per 10,000 gallons of pool water every two weeks as a maintenance dose.

TO ESTIMATE POOL CAPACITY

RECTANGULAR POOLS: Length x Width x Average Depth (in feet) x 7.5 = gallons.

ROUND POOLS or OVAL POOLS: Average Diameter (length) x Average Diameter (width) x Average Depth (in feet) x 5.9 = gallons.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Avoid contact with skin and eyes. Wash thoroughly with soap and water after handling. Do not apply this product in a manner as to directly or through drift expose workers or other persons.

ENVIRONMENTAL HAZARDS: This product is toxic to fish.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal. **PESTICIDE STORAGE:** Keep product in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat and open flame. **PESTICIDE DISPOSAL AND CONTAINER HANDLING: IF EMPTY:** Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. **IF PARTLY FILLED:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

FIRST AID: Call a poison control center (1-866-366-5048) or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **IF SWALLOWED:** Have person sip a glass of water if able to swallow. **DO NOT** induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
